We've Got Something to Celebrate! Nous avons de quoi célébrer!

The CFPC invites you to join us in celebrating 60 years of the College and 20 years of the Research and Education Foundation (REF). These milestones allow us to reflect back on our humble beginnings and all that we have accomplished over the years for family medicine in Canada.

My CFPC/My REF Photo Project:

Participate at the photo booth at FMF and see a collection of images and messages from your colleagues.

FMF Celebration: This year's event will be a special opportunity to celebrate our rich history and family medicine contributions to society. From entertainment, food, and drinks to history tidbits and trivia, please plan to join the party on Saturday, November 15th, immediately following Convocation!

Le CMFC vous invite à venir célébrer les 60 ans du Collège et les 20 ans de la Fondation pour la recherche et l'éducation (FRÉ). Ces jalons nous permettent de retourner à nos débuts et de faire le point sur nos réalisations au profit de la médecine familiale au Canada au fil des années.

Projet de photos Mon Collège / Ma Fondation : Participez à partir du kiosque à photos au FMF et voyez la collection d'images et de messages que nous avons reçus de vos collègues !

Célébration du FMF : Cette année, nous mettrons en valeur notre riche histoire et les contributions de la médecine familiale à notre société. Nous avons réuni divertissements, aliments et boissons; capsules d'histoire et faits divers pour célébrer nos réalisations. Soyez des nôtres le samedi 15 novembre, immédiatement après la cérémonie de collation des grades.

PRIME MINISTER • PREMIER MINISTRE

I am pleased to extend my warmest greetings to everyone taking part in the 2014 Family Medicine Forum, hosted by the College of Family Physicians of Canada (CFPC), together with the Québec College of Family Physicians (QCFP), and the CFPC's Sections of Teachers and Researchers, in Québec City.

The Family Medicine Forum is a once-a-year opportunity for practitioners to gather with colleagues, to share research, and to make the most of professional learning opportunities. Family physicians are usually the first point of contact with the health care system, and they play a critical role in ensuring that Canadians in communities across the nation receive high quality care that contributes their health and well-being.

I would like to commend the organizers, College of Family Physicians of Canada and the Québec College of Family Physicians, for putting together a stimulating conference. Your organizations are leaders in advocating for family physicians and their patients, as well as in providing professional certification and numerous continuing education programs to your members.

On behalf of the Government of Canada, I wish you all a productive forum.

A handwritten signature in blue ink, appearing to read "Stephen Harper".

The Rt. Hon. Stephen Harper, P.C., M.P.

OTTAWA
2014

PRIME MINISTER • PREMIER MINISTRE

Je suis heureux de présenter mes salutations les plus chaleureuses à tous ceux et celles qui participent au Forum en médecine familiale 2014 à Québec, un événement organisé par le Collège des médecins de famille du Canada (CMFC) en collaboration avec le Collège québécois des médecins de famille (CQMF) et les Sections des enseignants et des chercheurs du CMFC.

Chaque année, le Forum en médecine familiale offre aux praticiens l'occasion de se réunir entre collègues, de présenter leurs recherches et de profiter au maximum des possibilités d'apprentissage professionnel. Les médecins de famille sont habituellement le premier point de contact avec le système de soins de santé et jouent un rôle crucial pour veiller à ce que les Canadiens de partout au pays reçoivent des soins de grande qualité qui contribuent à leur santé et à leur bien-être.

Je tiens à féliciter les organisateurs, le Collège des médecins de famille du Canada et le Collège québécois des médecins de famille, d'avoir préparé une conférence stimulante. Vos organisations sont des chefs de file en ce qui a trait à la défense des intérêts des médecins de famille et de leurs patients, de même qu'en matière de certification professionnelle et d'élaboration de programmes d'éducation permanente pour vos membres.

Au nom du gouvernement du Canada, je vous souhaite une conférence des plus productives.

Le très honorable Stephen Harper, c.p., député

OTTAWA
2014

Chers membres,

Le Collège des médecins de famille du Canada célèbre son 60^e anniversaire cette année. Depuis six décennies, il joue un rôle fondamental à l'échelle du pays. Il veille notamment à ce que la pratique médicale maintienne sa position dans les plus hauts standards d'excellence, et cela, dans le plus grand intérêt des patientes et des patients. Il est donc au service de la vie, au service de la qualité de vie. C'est tout à son honneur.

Épouser une carrière en médecine est un choix noble, mais exigeant à tous les instants. Être constamment formé et informé fait partie des règles de l'art, des règles souvent intransigeantes. J'espère que cette occasion de rencontres sera des plus enrichissantes; qu'elle vous permettra d'élargir vos connaissances et de discuter entre vous des sujets qui vous interpellent, ainsi que des enjeux inhérents à votre profession.

Je vous souhaite un séjour très agréable au Québec. Si votre emploi du temps le permet, je vous invite bien chaleureusement à joindre l'utile à l'agréable en profitant de notre offre touristique attrayante et diversifiée.

Bon forum!

Le premier ministre du Québec,
Philippe Couillard

Québec

Dear Members,

The College of Family Physicians of Canada is celebrating its 60th anniversary this year. For six decades, it has played a key role across the country. It ensures, in particular, that the highest standards of excellence in medical practice are maintained, in the interests of patients. It thus serves life and the quality of life, which is very much to its credit.

To engage in a career in medicine is a noble but constantly demanding choice. To be constantly trained and informed is part of good practices and implies often exacting rules. I hope that this gathering will be enriching for you, that it will enable you to broaden your knowledge and discuss topics of concern to you and questions specific to your profession.

Do have a pleasant stay in Québec. If your schedule permits, I cordially invite you to combine business with pleasure and to take advantage of our attractive, diversified tourism offerings.

Best wishes for a successful forum!

*Philippe Couillard
Premier of Québec*

Message du maire

C'est avec une grande fierté que je vous souhaite la bienvenue dans notre magnifique ville à l'occasion du Forum en médecine familiale 2014, un rendez-vous de première importance pour ceux qui sont tout à la fois médecins, conseillers et confidents des familles canadiennes.

Capitale dynamique où le savoir et l'excellence sont à l'honneur, Québec vous offre un cadre propice au partage de réflexions et à l'avancement des connaissances. Animée et festive en toutes saisons, notre ville s'avère également le lieu idéal pour célébrer en beauté les 60 ans du Collège des médecins de famille du Canada et les 20 ans de la Fondation pour la recherche et l'éducation.

Je vous invite à faire le plein d'énergie en partant à la découverte des multiples attraits d'une ville unique où la culture, la nature et la gastronomie occupent une place de choix.

Bon séjour parmi nous!

Le maire de Québec,

Régis Labeaume

Message from the Mayor

It is with great pride that I welcome you to our wonderful city on the occasion of the 2014 Family Medicine Forum, a gathering of tremendous importance for those who are not only the physicians but also the advisors and confidants of Canadian families.

A dynamic capital city where knowledge and excellence come to the fore, Québec City offers you a conducive setting for sharing thought and the advancement of knowledge. Lively and festive in every season, our city is also the ideal place for a beautiful celebration of the 60th anniversary of the College of Family Physicians of Canada, and the 20th anniversary of the Research and Education Foundation.

I invite you to renew your energy by setting out to discover the many attractions of a unique city where culture, nature and fine dining hold a prominent position.

Enjoy your stay among us!

The Mayor of Québec City,

Régis Labeaume

Welcome to FMF 2014!

Welcome to FMF in beautiful Québec City! There may well be a chill in the air, but the people are warm and welcoming. They are proud of their *patrimoine* – their heritage – and are happy to share with you some stories of Old Québec.

It's a special year as we celebrate the CFPC's 60th anniversary, the 20th anniversary of the Research and Education Foundation (REF), and the 10th anniversary of Research Day!

A few FMF highlights to take in ...

Pre-Conference:

- Family Medicine Research Day
- Family Medicine Education Forum

During FMF:

- Engaging speakers, keynotes, events, and award presentations
- Many great learning opportunities at sessions and events
- Annual Meeting of Members (formerly known as the Annual General Meeting) – plan to attend and learn about some important proposed changes to the CFPC governance
- New features at College Square in the Exhibit Hall, including a new Mainpro+ Lounge, CFPC Chapters, and the Member Centre for CFPC mobile app support, website videos, membership info, and 60/20 anniversary celebrations
- President's Installation, Convocation, and FMF Celebration

Download the free CFPC mobile app to view the FMF program, record your CPD credits, and access video updates from FMF Today to keep informed throughout the conference.

Have a wonderful week! Connect with old friends, make some new ones, and make the most of FMF 2014 in charming Québec City!

It's a very special year.

Kathy Lawrence, MD, CCFP, FCFP
President – CFPC
Présidente – CMFC

Dominique Deschênes, MD, CCMF
Présidente – CQMF
President – QCFP

Pierre-Paul Tellier, MD, CCMF, FCMF
Chair, FMF Advisory Committee
Président, Comité consultatif du FMF

Bienvenue au FMF 2014 !

Nous vous souhaitons la bienvenue au FMF dans la magnifique ville de Québec, où l'accueil est toujours très chaleureux. Les résidents de cette ville historique sont fiers de leur patrimoine et ils seront ravis de vous parler du Vieux-Québec et de son rôle dans notre histoire.

L'année 2014 est très spéciale, car nous célébrons le 60^e anniversaire du Collège, le 20^e anniversaire de la Fondation pour la recherche et l'éducation (FRÉ) et le 10^e anniversaire de la journée de la recherche !

Voici quelques-uns des faits saillants du FMF :

Journée préconférence :

- la journée annuelle de la recherche en médecine familiale
- le Forum sur l'éducation en médecine familiale

Pendant le FMF :

- des conférenciers captivants, des plénières, des événements et des présentations de prix et bourses
- une panoplie d'occasions d'apprentissage
- l'assemblée annuelle des membres (anciennement l'assemblée générale annuelle) – à ne pas manquer afin de se renseigner sur d'importants changements proposés à la gouvernance du Collège
- des nouveautés au Carrefour du Collège et au hall d'exposition, dont un nouveau salon Main-pro+, les sections provinciales du CMFC, et un centre de services aux membres où vous obtiendrez de l'aide pour bien utiliser l'appli mobile du Collège, des vidéos sur le site Web, des renseignements sur l'adhésion et sur la célébration des 60/20^e anniversaires
- l'installation du président, la collation des grades et la célébration du FMF

Téléchargez gratuitement l'application mobile du CMFC pour voir le programme, inscrire vos crédits de DPC et visionner les vidéos sur FMF au quotidien afin de rester branchés tout au long du congrès.

Renouez avec vos anciens amis, faites de nouvelles connaissances, et profitez de tout ce que le FMF 2014 vous offre dans la très chaleureuse ville de Québec. Nous vous souhaitons une excellente semaine !

C'est une année très spéciale.

Anne-Patricia Prévost, MD, CCMF
Présidente, Sous-comité du programme scientifique du FMF
Chair, FMF Scientific Program Sub-Committee

Miriam Boillat, MD, CCMF, FCFM
Chair, Section of Teachers

DISCOURS D'OUVERTURE / KEYNOTE ADDRESS

« L'art peut-il changer le monde? »

“Can Art Change the World?”

Gil Favreau

Directeur, Action et responsabilité sociales / Director, Social Action and Community Relations

Service Citoyenneté / Global Citizenship Service

Cirque du Soleil

Tant sur le plan de la sensibilisation des masses – afin de mettre en lumière d'importants enjeux sociaux – que sur le plan de l'intervention directe auprès de populations dans le besoin, les arts sont de puissants contributeurs aux changements sociaux positifs dans les communautés.

De façon passionnée, organisée et créative, des milliers d'acteurs du milieu des arts sont en ce moment même à pied d'œuvre sur la planète, afin d'y créer de meilleures conditions de vie.

Le Cirque du Soleil et son programme Cirque du Monde en sont un exemple.

Après avoir géré un important groupe d'action sociale à Montréal, Gil Favreau s'est joint au Cirque du Soleil en janvier 2000 en tant que coordonnateur, Action et responsabilité sociales pour les Amériques. Sa principale responsabilité consistait à établir un lien entre les organisations locales et les spectacles en tournée partout en Amérique du Nord et du Sud. Il a supervisé les dons et les prestations bénéfiques tout en créant les sites Cirque du Monde aux É.-U.

The arts can be powerful contributors toward positive social change within communities, whether by raising public awareness on important social issues, or by reaching out in support of those in need.

In a passionate, organized, and creative way, thousands of actors from within the arts community are currently working to help improve living conditions across the globe.

Le Cirque du Soleil and its program, Cirque du Monde, is one such example.

After managing an important social action group in Montréal, Gil Favreau joined Cirque du Soleil in January 2000 as Social Action Coordinator for the Americas. His main responsibility included acting as a link between local organizations and touring shows throughout North and South America. He oversaw donations and benefit performances while developing Cirque du Monde sites in the United States.

MEDICAL STUDENT SCHOLARSHIPS / BOURSES D'ÉTUDES POUR LES ÉTUDIANTS EN MÉDECINE

One outstanding student from each medical school in Canada will receive a 2014 scholarship supported by CFPC's Research and Education Foundation and Scotiabank. **Be there to recognize and celebrate the future of family medicine.**

Un étudiant exceptionnel de chaque faculté de médecine au pays recevra une bourse d'études pour 2014. Ces bourses bénéficient de l'appui de la Fondation pour la recherche et l'éducation du CMFC et de la Banque Scotia. Venez célébrer l'avenir de la médecine familiale.

“Delivering on the Promise of Medicare”

« *Concrétiser les promesses du régime d'assurance-maladie* »

Danielle Martin, BSc, MD, CCFP, MPP

Danielle Martin is Vice-President, Medical Affairs and Health System Solutions at Women's College Hospital (WCH), a family physician in the Family Practice Health Centre at WCH, and Assistant Professor in the Departments of Family and Community Medicine and Health Policy, Management and Evaluation at the University of Toronto. Danielle's policy expertise and passion for equity have made her an emerging leader in the debate over the future of Canada's health care system. In 2006 she helped launch Canadian Doctors for Medicare and chaired the board of CDM until May 2013.

Danielle Martin est vice-présidente, Affaires médicales et solutions pour le système de santé au Women's College Hospital (WCH), médecin de famille au Family Practice Health Centre de ce même hôpital, et professeure adjointe au Département de médecine familiale et communautaire et au Département des politiques, de la gestion et de l'évaluation de la santé à l'Université de Toronto. L'expertise de Danielle dans le monde des politiques et sa passion pour l'équité ont fait d'elle une nouvelle leader dans le débat concernant l'avenir du système de santé au Canada. En 2006, elle a participé au lancement de Médecins canadiens pour le régime public et a été présidente du Conseil d'administration de cet organisme jusqu'en mai 2013.

“STATE OF THE COLLEGE ADDRESS”

« *ALLOCUTION SUR LA SITUATION DU COLLÈGE* »

Kathy Lawrence, MD, CCFP, FCFP

2013/2014 President / Présidente 2013/2014

The College of Family Physicians of Canada / Le Collège des médecins de famille du Canada

CFPC President Dr Kathy Lawrence has been involved with clinical practice since 1998 in Regina, Saskatchewan. She is Associate Professor and Postgraduate Program Director with the University of Saskatchewan's Department of Academic Family Medicine. She has been a member of the CFPC's Executive Committee since 2010.

Dr Lawrence will deliver the State of the College Address with highlights of priorities and achievements from the past year.

Présidente du CMFC, Dr Kathy Lawrence, a une pratique clinique à Regina (Saskatchewan) depuis 1998. Elle est professeure agrégée et directrice du programme d'études postdoctorales au département de médecine de famille universitaire de l'Université de la Saskatchewan. Elle est membre du Comité de direction du CMFC depuis 2010.

Dr Lawrence prononcera le discours sur la Situation du Collège et soulignera les priorités et les réalisations de la dernière année.

 **KEYNOTE (continued) / DISCOURS D'OUVERTURE (suite)**

ROOM / SALLE : 200ABC – QCCC / CCQ

CFPC PRESIDENT'S INSTALLATION**CÉRÉMONIE DE L'INSTALLATION DU PRÉSIDENT DU CMFC****Garey Mazowita, MD, CCFP, FCFP****2014/2015 President / Président 2014-2015****The College of Family Physicians of Canada / Le Collège des médecins de famille du Canada**

Dr Garey Mazowita received his medical degree from the University of Manitoba in 1979. In 1989, he received his Certification in family medicine (CCFP) and became a Fellow (FCFP) of the College of Family Physicians of Canada (CFPC) in 2000.

Dr Mazowita is a clinical professor with the Faculty of Medicine at the University of British Columbia and remains active in teaching, research, and clinical practice in Vancouver.

He has served as Chair of the Department of Family and Community Medicine at Providence Health Care, Co-Chair of the Vancouver Coastal Health Authority Inter-Divisional Council, and was the physician representative with the British Columbia Ministry of Health General Practice Services and Shared Care Committees.

Dr Mazowita has been actively involved with the CFPC throughout his career. He served as President of the Manitoba Chapter in 1998 and became a member of the CFPC's National Executive Committee in 2012.

Le Dr Garey Mazowita a obtenu son diplôme en médecine de l'Université du Manitoba en 1979. Il a obtenu la certification en médecine familiale (CCMF) en 1989 et le titre de Fellow du Collège des médecins de famille du Canada en 2000.

Dr Mazowita est un professeur clinique au sein de la faculté de médecine de l'Université de la Colombie-Britannique. Il pratique de façon active et continue d'enseigner et de faire de la recherche à Vancouver.

Il a occupé les postes de directeur du Département de médecine familiale et communautaire au Providence Health Care, de coprésident du Comité interdivisions de l'Autorité sanitaire Vancouver Coastal, et de représentant des médecins au sein des comités de service de médecine générale et de soins partagés du ministère de la Santé de la Colombie-Britannique.

Dr Mazowita a participé activement aux activités du CMFC tout au long de sa carrière. Il a été président de la Section provinciale du Manitoba en 1998 et est devenu membre du Comité de direction national du Collège en 2012.

ACKNOWLEDGEMENTS • REMERCIEMENTS

Representing excellence in Canadian family medicine, the following 10 outstanding family physicians – one from each province – are acknowledged as Canada's Family Physicians of the Year. Each award recipient is nominated by his or her peers, colleagues, community leaders, and provincial Chapter for demonstrating the attributes embodied in the four principles of family medicine through their clinical practices, teaching and research, community involvement, and professional achievements. Each honouree will receive the *Reg L. Perkin Award*, named in honour of the former Executive Director of the CFPC (1985–1996).

Les dix médecins de famille exceptionnels suivants – un de chaque province – personnifient l'excellence en médecine familiale. Reconnus comme Médecin de famille canadien de l'année 2014, chaque récipiendaire est nommé par ses pairs, ses collègues, les leaders de sa collectivité et sa section provinciale pour avoir incarné les quatre principes de la médecine familiale dans le cadre de ses activités cliniques, d'enseignement et de recherche, ainsi que par son implication dans sa communauté et ses réalisations professionnelles. Les récipiendaires reçoivent le Prix Reg L. Perkin, nommé en l'honneur de l'ancien directeur général du CMFC (1985–1996).

Medical Humanities Theatre • Théâtre des sciences humaines de la santé

ROOM / SALLE : 307AB – QCCC / CCQ

The humanities play a significant role in the practice of family medicine. Indeed, the two serpents of the caduceus represent both the wisdom and the knowledge of medicine in perfect balance. The 'art' of medicine guides physicians' insight into the patients' experience of illness, supports the development of communication skills, and complements the science of medicine by encouraging a patient-centred focus. Be sure to visit the Medical Humanities Theatre, and learn how your colleagues are incorporating the humanities into their practice, education, training, and research.

Les sciences humaines jouent un rôle important dans la pratique de la médecine familiale. De ce fait, les deux serpents sur le caducée représentent la sagesse et les connaissances de la médecine en parfait équilibre. C'est « l'art » de la médecine qui guide les médecins pour comprendre ce que ressentent les patients, qui soutient le développement des compétences en communication et qui complète la science de la médecine en encourageant des soins centrés sur le patient. Venez au théâtre de démonstration pour apprendre comment vos collègues unissent les sciences humaines de la santé à leur pratique, leur éducation, leur formation et leurs recherches.

FAMILY DOCTOR WEEK IN CANADA / LA SEMAINE DU MÉDECIN DE FAMILLE AU CANADA

The CFPC is proud to host Family Doctor Week as an opportunity to recognize the vital role of family physicians across Canada and the highly valued relationships they share with their patients and colleagues. This special week also provides an opportunity for governments, health care organizations, and other professionals to acknowledge the outstanding contributions made by family doctors to improve the health and well-being of their patients through their roles in clinics, hospitals, universities, and many other health care facilities in Canadian communities. Join the celebration at FMF and its many events, sessions, and keynotes!

Le CMFC est fier de présenter la Semaine du médecin de famille afin de souligner le rôle vital des médecins de famille du Canada et les relations très appréciées qu'ils entretiennent avec leurs patients et leurs collègues. Cette semaine spéciale permet aussi aux gouvernements, aux organisations de soins de santé et aux autres professionnels de reconnaître la façon exceptionnelle dont les médecins de famille contribuent à la santé et au bien-être de leurs patients grâce au rôle qu'ils jouent dans les cliniques, les hôpitaux, les universités et les autres établissements de santé dans les collectivités canadiennes. Participez aux célébrations du FMF et à ses nombreuses activités, séances et conférences!

CANADIAN FAMILY PHYSICIAN

CFP is Canada's journal of family medicine. *CFP* has been steadily building its academic prestige with acceptance into PubMed Central, where fulltext electronic versions of all of the world's leading medical journals are archived for researchers. *CFP* is always on the lookout for potential authors, particularly in the area of clinical review and critical appraisal. Stop by College Square and meet Dr Nick Pimlott, Scientific Editor, and Dr Roger Ladouceur, Associate Scientific Editor, for advice on writing and submitting manuscripts for publication.

LE MÉDECIN DE FAMILLE CANADIEN

Le MFC est la revue canadienne de médecine familiale. Le MFC a établi graduellement son prestige universitaire avec son acceptation dans PubMed Central, où les versions électroniques en texte intégral des principales revues médicales du monde sont archivées pour les chercheurs. Le MFC est toujours à l'affût d'auteurs potentiels dans le domaine des révisions cliniques et des évaluations critiques. Arrêtez-vous au Carrefour du MFC et rencontrez nos rédacteurs – Dr Nick Pimlott, rédacteur scientifique, et Dr Roger Ladouceur, rédacteur scientifique adjoint – pour des conseils sur la rédaction et la soumission d'articles pour publication.

This program is provided for information purposes only. The College of Family Physicians of Canada (CFPC) reserves the right to delete, alter, or otherwise amend any aspect of the program as deemed appropriate. The CFPC reserves the right to cancel sessions due to unforeseen circumstances. The CFPC cannot accept responsibility for out-of-pocket expenses due to the cancellation of a session. The Scientific Program Planning Committee endeavours, where possible, to schedule clinical sessions in the same track/theme in unopposing time slots unless prohibited by presenter and/or room availability.

Ce programme est fourni uniquement à titre d'information. Le Collège des médecins de famille du Canada (CMFC) se réserve le droit de supprimer, de modifier ou de réviser tout aspect du programme s'il le juge opportun. Le CMFC se réserve le droit d'annuler les séances en raison de circonstances imprévues. Le CMFC n'accepte aucune responsabilité concernant les dépenses personnelles à la suite de l'annulation d'une séance. Le Comité de planification du programme scientifique s'efforce, dans la mesure du possible, de présenter les séances cliniques de même nature/thème dans des cases horaires différentes, à moins de contraintes liées à la disponibilité du présentateur et/ou de la salle.

2014 HONOURS AND AWARDS RECIPIENTS

Presenting the Showcase of Honourees – a special tribute to the 2014 recipients of awards, grants, and scholarships of the College of Family Physicians of Canada and made possible by the Research and Education Foundation (REF).

We invite you to visit our display at the REF / Honours and Awards Booth at College Square in the Exhibit Hall and at the registration area.

HIGHLIGHTING NEW AWARDS OFFERED IN 2014

CFPC/CPA Collaborative Mental Health Award

This award is a collaborative initiative with the CFPC and the Canadian Psychiatric Association (CPA) and recognizes excellence in interprofessional teamwork between family physicians, psychiatrists, and mental health services/providers. This year's recipient is the **Hamilton Family Health Team Mental Health Program, Hamilton, ON**.

CFPC/CGS Award of Distinction in Health Care of the Elderly

This award supports and promotes the care of seniors, particularly by family physicians, who provide the vast majority of care for seniors. This award is a collaborative initiative with the CFPC and the Canadian Geriatrics Society (CGS). This year's recipient is **Dr Mark Yaffe, Montréal, QC**.

Team Williams Family Medicine Innovation Grant

This grant, for family physicians and family medicine residents, recognizes and supports innovative medical IT projects in family medicine. This year's recipient is **Dr Martin Dawes, Vancouver, BC**.

Indigenous Medical Student Scholarship

This scholarship recognizes a top First Nations, Métis, or Inuit medical student in Canada who has shown an interest in or commitment to a career in family medicine. This year's recipient is **Ms Shaye Lafferty, University of Calgary**.

HIGHLIGHTING CERTIFICATION IN FAMILY MEDICINE EXAMINATION AWARDS

The Bob Robertson Award

Dr Bob Robertson was born in England and practised in Alberta from 1962 until his untimely death in 1982. As President of the College of Family Physicians of Canada (CFPC) from 1980 to 1981, his main concern was the underfunding of medical systems by provincial governments. The Bob Robertson Award, established in 1982, recognizes an individual who achieved the highest standing among family medicine residents in the CFPC's Certification Examination in Family Medicine. This year's recipient is **Dr Megan ApSimon, Ottawa, ON**.

The award will be presented during Convocation, Saturday, November 15th.

The Irwin Bean Award

Dr Irwin Bean was born in Ogema, SK, and practised in Regina and Toronto. He was President of the College from 1962 to 1963, and the first chair and an ardent supporter of its Committee on Examinations. The Irwin Bean Award, established in 1986, recognizes a family physician who achieved the highest standing among practice-eligible candidates in the CFPC's Certification Examination in Family Medicine. This year's recipient is **Dr Karen Van Wyk, Vancouver, BC**.

The award will be presented during Convocation, Saturday, November 15th.

RÉCIPIENDAIRES DES PRIX ET BOURSES 2014

Pleins feux sur nos récipiendaires – Nous rendons hommage aux récipiendaires des prix, subventions et bourses pour 2014. Ces prix sont décernés par le Collège des médecins de famille de l'année et rendus possibles grâce à la Fondation pour la recherche et l'éducation (FRÉ).

Nous vous invitons à visiter notre kiosque d'information au Carrefour du Collège dans le hall d'exposition et au bureau des inscriptions.

APERÇU DES NOUVEAUX PRIX POUR 2014

Prix pour les soins de santé mentale en collaboration du CMFC/de l'APC

Ce prix, qui reconnaît l'excellence de la collaboration entre les services de santé mentale et de soins primaires, permet de faire connaître la place des soins dispensés par des équipes interprofessionnelles en tant que pierre angulaire des soins primaires de santé mentale. Ce prix est une collaboration entre le CMFC et l'Association des psychiatres du Canada (APC). Cette année, le récipiendaire est le **Hamilton Family Health Team Mental Health Program, Hamilton, ON**.

Prix de distinction du CMFC/SCG pour les soins de santé aux personnes âgées

Ce prix soutient et fait la promotion des soins aux aînés, particulièrement les soins prodigués par les médecins de famille qui offrent la grande majorité de ces soins. Ce prix est une collaboration entre le CMFC et la Société canadienne de gériatrie (SCG). Cette année, le récipiendaire est **Dr Mark Yaffe, Montréal, QC**.

Subvention pour l'innovation en médecine familiale de l'équipe Williams

Cette subvention vise à soutenir les projets novateurs de TI médicales liées à l'éducation et à la recherche en médecine familiale. Cette année, le récipiendaire est **Dr Martin Dawes, Vancouver, C.-B.**

Bourse d'études du CMFC pour les étudiants autochtones en médecine

Cette bourse reconnaît le meilleur étudiant en médecine issu des Premières Nations, des populations métis ou inuit au Canada, qui a manifesté un intérêt pour la médecine familiale ou est résolu à poursuivre une carrière dans ce domaine. Cette année, le prix sera remis à **Mme Shaye Lafferty, Université de Calgary**.

APERÇU DES PRIX POUR L'EXAMEN DE CERTIFICATION EN MÉDECINE FAMILIALE

Le Prix Bob Robertson

Né en Angleterre, Dr Bob Robertson a pratiqué en Alberta de 1962 jusqu'à son décès prématuré en 1984. En tant que président du Collège des médecins de famille du Canada (CMFC) de 1980 à 1981, sa principale préoccupation était le sous-financement des systèmes médicaux par les gouvernements provinciaux. Établi en 1982, le prix Bob Robertson reconnaît le résident en médecine familiale qui a obtenu le meilleur résultat à l'examen de Certification en médecine familiale du CMFC. Cette année, le prix sera remis à **Dre Megan ApSimon, Ottawa, ON**.

Le prix sera présenté durant la collation des grades le samedi 15 novembre

Le Prix Irwin Bean

Dre Irwin Bean est né à Ogema, en Saskatchewan, et a exercé à Regina et à Toronto. Président du Collège de 1962 à 1963, il a été le premier président et défenseur engagé du Comité sur les examens. Crée en 1986, le Prix Irwin Bean reconnaît le médecin de famille qui a obtenu le meilleur résultat à l'examen de Certification en médecine familiale du CMFC parmi les candidats admissibles par la voie de la pratique. Cette année, le prix sera décerné à **Dre Karen Van Wyk, Vancouver, C.-B.**

Le prix sera présenté durant la collation des grades le samedi 15 novembre

Important Notice

The College of Family Physicians of Canada (CFPC) will arrange to have professional photography and video footage taken during the 2014 Family Medicine Forum (FMF). Please be advised that these materials may be published in CFPC materials in print and electronic format including on the CFPC and FMF websites.

By participating in the 2014 Family Medicine Forum, you 1) grant the CFPC the right and permission to use any such photographs/video clips in which you may be included, in whole or in part, for such purposes; 2) waive any right that you may have to inspect and/or approve any such photographs/video clips; 3) transfer to CFPC any right you may have in such photographs/video clips and waive moral rights, if any; and 4) release and discharge CFPC from any liability that may arise from the use of such photographs/video clips by CFPC. All photographic materials become the property of the CFPC and may be displayed, distributed or used by the CFPC for any purpose. Names and/or brief bios would be included with permission.

Avis important

Le Collège des médecins de famille du Canada (CMFC) retiendra les services de photographes qui prendront des photos et des vidéos durant le Forum en médecine familiale 2014 (FMF). Veuillez noter que ces images pourraient être publiées sous formes imprimée et électronique dans le matériel du CMFC, y compris les sites Web du Collège et du FMF.

En participant au Forum en médecine familiale 2014, vous 1) accordez au CMFC les droits exclusifs d'utiliser, pour les fins susmentionnées, ces photographies/vidéos dans lesquelles vous pourriez apparaître, en tout ou en partie; 2) renoncez à tout droit que vous pourriez avoir d'inspecter ou d'approuver ces photos/vidéos; 3) transférez au CMFC tous les droits que vous pourriez avoir sur ces photos/vidéos et renoncez à tous droits moraux, le cas échéant; et 4) dégagiez le CMFC de toutes responsabilités pouvant découler de l'utilisation de ces photographies/vidéos par le CMFC. Tout le matériel photographique devient la propriété du CMFC et peut être affiché, distribué ou utilisé par le CMFC à n'importe quelle fin. Les noms et/ou une brève biographie seraient inclus avec votre autorisation seulement.

DAILY BADGE SCAN REQUIRED – PROOF OF PARTICIPATION:

Remember to have your name badge scanned EACH DAY by a CFPC staff member throughout the conference. Self-scanning stations are also available throughout the conference venues. All scanned registrants will receive a letter confirming attendance at Family Medicine Forum 2014 by January 1, 2015. **Please note that these letters are not available for pickup on-site.**

SCANNAGE QUOTIDIEN DE L'INSIGNE OBLIGATOIRE –

PREUVE DE PARTICIPATION : N'oubliez pas de faire scanner votre insigne d'identité CHAQUE JOUR par un membre du personnel du CMFC durant toute la conférence. Des postes de lecteur de code-barre se trouveront aussi un peu partout sur les lieux de la conférence. Tous les participants inscrits dont l'insigne aura été scannée recevront une lettre confirmant leur participation au Forum en médecine familiale 2014 avant le 1^{er} janvier 2015. **Veuillez noter que ces lettres ne seront pas disponibles sur place.**

MAINPRO®-M1 credits – FMF 2014

This program meets the accreditation criteria of the College of Family Physicians of Canada and has been accredited for up to 17 Mainpro-M1 credits.

Thursdayyou may claim up to 6 credits

Friday.....you may claim up to 6 credits

Saturday.....you may claim up to 5 credits

2014 Mainpro-M1 Credit Reporting

- To report your Mainpro-M1 credits, download the FMF app or login to your account on the CFPC website at www.cfpc.ca/login/
- Should you have any questions or feedback about the CFPC app, please contact us at mobileapp@cfpc.ca

Mainpro Lounge

Visit the MAINPRO LOUNGE to meet CPD Regional Educators and other CPD management staff.

Learn about and provide your feedback on:

- Upcoming launch of Mainpro+ in 2015
- New Mainpro+ credit categories
- FAQs related to Mainpro+

Important Reminder

As of January 1, 2013, all Mainpro participants are required to report a minimum of 25 credits every year during their five-year cycle. The annual minimum may be composed of any combination of Mainpro-M1, Mainpro-M2, and/or Mainpro-C credits; a minimum of 250 credits are still required within the five-year cycle.

**FOR MORE INFORMATION ON MAINPRO CREDITS,
VISIT THE CFPC WEBSITE:**

<http://www.cfpc.ca/MAINPRO/>

Crédits MAINPRO®-M1 – FMF 2014

Ce programme satisfait aux critères d'agrément du Collège des médecins de famille du Canada et donne droit à jusqu'à 17,0 crédits Mainpro-M1.

Jeudi.....vous pouvez réclamer jusqu'à 6,0 crédits

Vendredivous pouvez réclamer jusqu'à 6,0 crédits

Samedi.....vous pouvez réclamer jusqu'à 5,0 crédits

Déclaration de crédits Mainpro-M1 en 2014

- Pour inscrire vos crédits Mainpro-M1, téléchargez l'appli du CMFC ou ouvrez une session à partir du site Web au www.cfpc.ca/ouverturedesession/
- Pour de plus amples renseignements ou pour nous transmettre vos commentaires sur l'appli, communiquez avec nous à mobileapp@cfpc.ca

Salon Mainpro

Visitez le SALON MAINPRO pour rencontrer les Éducateurs régionaux pour le DPC et les membres de la direction du département de DPC.

Renseignez-vous et donnez-nous vos commentaires sur :

- le lancement de Mainpro+ en 2015
- les nouvelles catégories de crédits Mainpro+
- la FAQ sur Mainpro+

Rappel important

Depuis le 1^{er} janvier 2013, tous les participants Mainpro doivent déclarer un minimum de 25 crédits chaque année de leur cycle quinquennal. Le minimum annuel peut comprendre toute combinaison de crédits Mainpro-M1, Mainpro-M2, et/ou Mainpro-C. Un minimum de 250 crédits est requis à la fin du cycle de cinq ans.

LEGEND / LÉGENDE

MC = Mainpro-C

D = Demonstration theatre / Théâtre de démonstration

 Pre-Registration Required / Préinscription obligatoire

REGISTRATION / INSCRIPTION

Registration is located on **Level 400 of the Québec City Convention Centre**. This is where you will pick up your name badge (if you have not received it by mail), delegate kit, and have your name badge scanned.

Le bureau des inscriptions est situé au niveau 400 du Centre des congrès de Québec. Vous pourrez passer prendre votre insigne d'identité (si vous ne l'avez pas reçue par la poste), votre trousse du participant et faire scanner votre insigne d'identité.

SPEAKERS / CONFÉRENCIERS

Speakers should register at the Registration Desk at least 1 hour prior to their session, and then proceed to the **Speakers' Room**, located in **Room 201AB on Level 200 of the Québec City Convention Centre**.

Les conférenciers devraient s'inscrire au moins une heure avant le début de leur séance, au bureau des inscriptions, puis se rendre au Salon des conférenciers, situé à la salle 201AB au niveau 200 du Centre des congrès de Québec.

EXHIBITORS / EXPOSANTS

All identified **exhibitor personnel** must check in at the Registration Desk before proceeding to the Exhibit Hall, located on **Level 400 of the Québec City Convention Centre**.

Tous les membres du personnel des exposants désignés doivent s'inscrire au bureau des inscriptions avant de se rendre au hall d'exposition situé au niveau 400 du Centre des congrès de Québec.

NAME BADGES INSIGNES D'IDENTITÉ

IMPORTANT! Your registration badge must be worn at all times and entitles you to attend keynotes, scientific sessions, exhibits, breakfasts, breaks, lunches, the President's Installation, Convocation and the FMF Celebration. Badges for paid accompanying persons will entitle them to attend keynotes, some sessions, exhibits, breakfasts, breaks, lunch, the President's Installation, Convocation and the FMF Celebration.

IMPORTANT! Votre insigne d'identité vous donne droit d'assister aux séances plénaires, aux séances scientifiques, aux expositions, aux petits déjeuners, aux pauses-santé, aux repas du midi, à la cérémonie d'installation du président, à la collation des grades et à la célébration du FMF. Vous devez la porter en tout temps. Les insignes des personnes qui vous accompagnent, qui ont dûment payé les frais qui s'imposent, leur donnent droit aux séances plénaires, à certaines séances, au hall d'exposition, aux petits déjeuners, aux pauses-santé, aux repas du midi, à la cérémonie d'installation du président, à la collation des grades et à la célébration du FMF.

BAR CODE READERS LECTEURS CODE-BARRE

IMPORTANT! All FMF registrants must have their name badge scanned each day they attend the conference. CFPC staff will be happy to scan your badge for you or you may use the convenient 'self-scan' stations located throughout the conference venues.

Registration: All registrants at FMF 2014 will have their name badge scanned as proof of attendance.

Exhibit Hall: Many exhibitors will have bar code readers available at their booths. With your permission, booth staff will scan the bar code on your badge to obtain the information as it appears on your FMF 2014 registration.

IMPORTANT! Tous les participants inscrits au FMF doivent faire scanner leur insigne d'identité les jours où ils assistent à la conférence. Le personnel du CMFC sera en mesure de scanner votre insigne ou encore vous pouvez utiliser les postes de lecteur code-barre situés à des endroits pratiques sur les lieux de la conférence.

Inscription : Tous les participants au FMF 2014 doivent faire scanner leur insigne d'identité comme preuve de leur présence.

Hall d'exposition : Nombre d'exposants disposeront d'un lecteur code-barre à leur kiosque. Avec votre permission, ils pourront scanner votre insigne d'identité pour obtenir l'information telle qu'elle apparaît sur votre inscription au FMF 2014.

PRIVACY POLICY POLITIQUE DE CONFIDENTIALITÉ

The CFPC collects, uses, and discloses personal information in accordance with current privacy legislation and the CFPC privacy policy. This policy is published in its entirety on its website at www.cfpc.ca

Le CMFC recueille, utilise et communique des renseignements personnels conformément à la loi relative à la protection de la vie privée actuellement en vigueur et à la politique de confidentialité du CMFC. Le texte intégral de cette politique est publié sur le site Web du CMFC au www.cfpc.ca

LUNCH TICKETS BILLETS POUR LES REPAS DU MIDI

All FMF registrants will receive lunch tickets for boxed lunches on the days they are registered. To receive a lunch, these tickets must be presented to the conference centre staff at designated lunch areas.

Tous les participants inscrits au FMF recevront des billets pour une boîte à lunch pour les journées auxquelles ils sont inscrits. Ils doivent présenter ces billets aux préposés du Centre des congrès aux endroits désignés pour le dîner.

IN CASE OF EMERGENCY EN CAS D'URGENCE

In the event of an emergency, please contact the Québec City Convention Centre, staff, hotel staff and/or security staff.

En cas d'urgence, communiquez avec le personnel du Centre des congrès de Québec, le personnel de l'hôtel et/ou le personnel de la sécurité.

CONVOCATION / COLLATION DES GRADES

Convocation will take place Saturday, November 15th from 17:00 to 18:30 in Ballroom 200C on Level 2 of the Québec City Convention Centre.

GOWN PICKUP

Gowns will be available in the Gowning and Photography Room in Ballroom 205ABC, on Level 2 of the Québec City Convention Centre on **Friday, November 14th, from 08:00 to 17:00, and on Saturday, November 15th, from 08:00 to 13:00**. All Convocation participants will require a gown for the Convocation procession. There is no charge for renting a gown.

PHOTOGRAPHS

Professional photographers will be available in the Gowning and Photography Room in Ballroom 205ABC, on Level 2 of the Québec City Convention Centre on **Friday, November 14th, from 08:00 to 17:00, and on Saturday, November 15th, from 08:00 am to 13:00**. There will be **no photography available after 13:00 on Saturday**.

MARSHALING

Beginning at **16:15 on Saturday, November 15th**, all **Convocants must report to Ballroom 2000D, on Level 2 of the Québec City Convention Centre**. The marshaling area will be open only to those participating in Convocation. Due to the large number of individuals involved in Convocation, family and friends are not permitted to join you in Ballroom 2000D. Family and friends should go directly to Ballroom 200C, which opens at 16:00.

GOWN AND HOOD RETURN

Your gown and hood must be returned to **Ballroom 200A, which will remain open until 20:30**. We encourage you to return your gown as soon as possible.

La cérémonie de la collation des grades se déroulera le samedi 15 novembre, de 17 h à 18 h 30, dans la salle de bal 200C, au niveau 2 du Centre des congrès de Québec.

CUEILLETTE DE LA TOGE

Vous pouvez prendre votre toge à la salle d'habillage et de photographie dans la salle de bal 205 ABC, au niveau 2 du Centre des congrès de Québec, le vendredi 14 novembre, entre 8 h et 17 h et le samedi 15 novembre, entre 8 h et 13 h. Tous les participants à la collation des grades doivent porter la toge pour la procession. Il n'y a pas de frais de location de la toge.

PHOTOGRAPHIES

Des photographes professionnels seront à votre disposition dans la salle d'habillage et de photographie dans la salle de bal 205 ABC, niveau 2 du Centre des congrès de Québec, le vendredi 14 novembre, entre 8 h et 17 h, et le samedi 15 novembre, entre 8 h et 13 h. Il n'y aura pas de séance de photographie après 13 h le samedi.

DÉFILÉ

À compter de 16 h 15, le samedi 15 novembre, tous les participants officiels à la collation des grades doivent se présenter à la salle de bal 2000D, au niveau 2 du Centre des congrès de Québec. L'aire de rassemblement sera ouverte seulement à ceux qui prennent part à la collation des grades. En raison du grand nombre de participants à cette cérémonie, la famille et les amis ne sont pas admis dans la salle de bal 2000D. Ces personnes doivent se rendre directement à la salle de bal 200C, où les portes ouvriront à 16 h.

RETOUR DE LA TOGE ET DE L'ÉPITOGE

Vous devez retourner votre toge et votre épitoge à la salle de bal 200A avant 20 h 30. Nous vous encourageons cependant à le faire aussitôt que possible après la cérémonie.

Session cancellation: The College reserves the right to cancel session(s) due to unforeseen circumstances and cannot accept responsibility for out-of-pocket expenses incurred due to the cancellation of any session.

Annulation de séance : Le Collège se réserve le droit d'annuler une ou plusieurs séances s'il survient des événements imprévus et ne sera pas responsable de toute menue dépense encourue en raison de l'annulation d'une séance.

Save the date for the CFPC Section of Researchers' 10th Annual Family Medicine Research Day, where creativity and innovation in research will be top of mind!

Research Day is a perfect opportunity to learn about the work of your research colleagues and to network with other primary care researchers.

Once again, in addition to feature presentations by the Family Medicine Researcher of the Year and other award winners, Research Day will include exciting presentations about the latest in family medicine research, and some surprises that will help you bring creativity and innovation into your research. Watch for more information soon!

Please note that registration for Research Day also provides access to FMEF sessions.

Inscrivez à votre calendrier la 10^e Journée annuelle de la recherche en médecine familiale, présentée par la Section des chercheurs du CMFC, où la créativité et l'innovation seront à l'honneur !

La Journée de la recherche représente l'occasion parfaite d'en apprendre davantage sur le travail de nos collègues chercheurs et de réseauter avec d'autres chercheurs en soins primaires.

En plus des présentations-vérités données par les lauréats du Prix du chercheur de l'année en médecine familiale et d'autres prix, la Journée de la recherche comprendra des présentations emballantes sur les toutes dernières recherches en médecine familiale. Elle vous réserve également quelques surprises, qui vous aideront à rendre vos recherches plus créatives et novatrices. De plus amples renseignements vous seront transmis très bientôt !

Veuillez noter que l'inscription à la Journée de la recherche donne accès aux séances du FÉMF.

The Family Medicine Education Forum is a unique event that provides opportunities for family medicine teachers to work together toward common goals. This year, the plenary will offer an opportunity for all family medicine educators to engage in discussions about how best to support clinical teachers, with a focus on the new Faculty Development Teaching Activities Framework for teaching activities recently developed by the CFPC Working Group on Faculty Development. Workshops and research education paper presentations will follow the plenary. All clinical teachers are invited to attend this event.

Please note that registration for FMEF also provides access to Research Day sessions.

Le Forum sur l'éducation en médecine familiale est une occasion unique en son genre pour les enseignants en médecine familiale de travailler ensemble vers des buts communs. Cette année, la plénière offre aux éducateurs la possibilité de discuter de façons de mieux appuyer les enseignants cliniques, en mettant l'accent sur le Cadre d'activités pédagogiques fondamentales élaboré dernièrement par le Groupe de travail sur le développement professoral. La plénière sera suivie d'ateliers et de présentations de résultats de recherches sur l'éducation. Tous les enseignants cliniques sont conviés à cet événement.

Veuillez noter que l'inscription au FÉMF donne accès aux séances de la Journée de la recherche.

Samedi 15 novembre 2014 Centre des congrès de Québec

Appuyez la Fondation pour la recherche et l'éducation :
 marchez, courez ou commanditez un participant à
 l'occasion de la Marche annuelle pour les médecins de
 demain, qui aura lieu le samedi 15 novembre dans le cadre
 du Forum en médecine familiale du CMFC à Québec.

Suivez-nous sur Twitter (twitter.com/WalkforDocs).

FMF CELEBRATION CÉLÉBRATION DU FMF

All are welcome! Immediately following Convocation, please join us for the FMF Celebration. FMF participants and their families, friends, and colleagues are all welcome to enjoy light refreshments in a relaxed atmosphere as we celebrate everyone's accomplishments and another successful FMF.

Vous êtes tous les bienvenus! Immédiatement après la collation des grades, soyez des nôtres pour la célébration du FMF. Les participants et leur famille, leurs amis et leurs collègues sont invités à célébrer les succès de tous et ceux du FMF dans une atmosphère chaleureuse. De légers rafraîchissements seront servis.

STUDENT AND RESIDENT ACTIVITIES ACTIVITÉS POUR LES ÉTUDIANTS ET LES RÉSIDENTS

We welcome all learners to the FMF. The program this year includes several sessions specially oriented towards students' and residents' educational needs. You will find some of them listed below. Remember these are suggestions only and you may attend any other session of your choosing (unless 'closed' or 'full').

Tous les apprenants sont les bienvenus au FMF. Cette année, plusieurs séances ont été conçues pour répondre aux besoins particuliers des étudiants et des résidents en matière de formation. Certaines sont énumérées ci-après. Toutefois, n'oubliez pas : ce ne sont que quelques suggestions : vous pouvez participer à n'importe quelle séance qui vous intéresse (à moins qu'elle soit fermée ou que toutes les places soient déjà prises).

SESSIONS OF INTEREST TO THOSE IN THEIR FIRST FIVE YEARS OF FAMILY PRACTICE

SÉANCES POUR CEUX ET CELLES QUI EXERCENT LA MÉDECINE DEPUIS MOINS DE CINQ ANS

In addition to all of the session choices at FMF 2014, we have added more sessions of interest for delegates who are embarking on or are in the early years of their family medicine careers.

À la brochette d'activités offertes au FMF 2014, nous avons ajouté des séances destinées aux délégués qui commencent leur carrière ou qui exercent la médecine depuis quelques années seulement.

First Five Years in Family Practice Committee / Comité sur les cinq premières années de pratique de la médecine familiale :

Scott MacLean, MD, CCFP, Edmonton, AB; Kevin Garneau-Bégin, MD, CCFP, Comox, BC;
Ainslie Mihalchuk, MD, CCFP, Winnipeg, MB; Nermine Gorguy, MD, CCFP, Toronto, ON;
Isabelle Hébert, MD, CCMF, Montréal QC; Colette Dawson, MD, CCFP, Conception Bay, NL;
Aisling Campbell, MD, Calgary, AB; Kevin Wasko, MD, CCFP, Swift Current, SK

THURSDAY / JEUDI

12:30–13:30 First Five Years in Family Practice Luncheon

Dîner pour les médecins de famille dans les cinq premières années de leur pratique

HÔTEL HILTON QUÉBEC HOTEL: BALLROOM / SALLE DE BAL

This is an interactive lunch for family physicians in their first five years of practice. Join approximately 400 of your "First Five" colleagues in a stimulating discussion, and let the CFPC know what is important to you as a new family physician.

Ce dîner interactif est destiné aux médecins de famille qui exercent la médecine depuis moins de cinq ans. Joignez-vous à quelque 400 de vos collègues pour une discussion stimulante et informez le CMFC des enjeux qui importent aux nouveaux médecins de famille.

T58167 First Five Years in Family Practice: Stress and resilience in early career

Cinq premières années en médecine familiale : Le stress et la résilience en début de carrière

ROOM / SALLE : 2000D – QCCC / CCQ

T58170 First Five Years in Family Practice: What type of practice is ideal for you?

Cinq premières années en médecine familiale : Quel type de pratique est idéal pour vous ?

ROOM / SALLE : 2000D – QCCC / CCQ

FRIDAY / VENDREDI

F79349 Transitioning Into Practice

Presented by the CFPC Section of Residents, in collaboration with the First Five Years in Family Practice Committee of the CFPC

ROOM / SALLE : 206A – QCCC / CCQ

The language of the session title indicates the language in which the session will be presented. For those sessions with simultaneous interpretation, the title will be bilingual with the simultaneous interpretation symbol appearing beside that title.

Les séances seront présentées dans la langue du titre mentionné. Un titre bilingue, marqué du symbole des écouteurs indique que l'interprétation simultanée sera offerte.

EXHIBIT HALL / HALL D'EXPOSITION

The Exhibit Hall complements the clinical and educational activities of FMF with more than 220 booths. Exhibitors provide the most up-to-date information on developments in medical equipment, diagnostics, practice management software, relocation opportunities, pharmaceuticals, patient care, nutrition, and educational publishing.

There is a great variety of people and places to visit:

- Recruiters from across the country
- Not-for-profit organizations with focused messages
- Representatives of the family medicine residency programs
- Booths featuring new products and devices
- Daily Exhibit Hall contest draw
- College Square, featuring departments from the College of Family Physicians of Canada (CFPC) and the Québec College of Family Physicians (QCFP)

And more!

Le hall d'exposition complète les activités cliniques et éducatives du FMF. Les quelque 220 kiosques d'exposition vous présenteront les renseignements sur les dernières innovations en équipement médical, en diagnostic et en logiciels de gestion de la pratique; sur les possibilités de réaffectation, les produits pharmaceutiques, les soins aux patients, la nutrition ainsi que des publications éducatives.

Une variété d'endroits et de gens à visiter :

- Agents de recrutement de partout au pays
- Organismes sans but lucratif avec leurs messages ciblés
- Représentants des programmes de résidence en médecine familiale
- Kiosques présentant les nouveaux produits et dispositifs
- Tirage quotidien dans le hall d'exposition
- Carrefour du Collège – les départements du Collège des médecins de famille du Canada (CMFC) et du Collège québécois des médecins de famille (CQMF) y seront représentés.

Et plus encore!

Silent Auction / Encan silencieux

The Research and Education Foundation La Fondation pour la recherche et l'éducation

Name-dropping at the REF Silent Auction

The ever-popular REF Silent Auction supporting our Honours and Awards program already has an amazing lineup. Be sure to visit College Square and place your bids from Thursday, November 13th, through Saturday, November 15th. If we could drop a few names from our catalog, they'd include Keurig; Swarovski; Roots Leather; and more Hollywood memorabilia from the likes of Mark Wahlberg and Andrea Martin.

De grands noms à l'encan silencieux de la FRÉ

L'encan silencieux de la FRÉ, qui appuie financièrement notre Programme des prix et bourses et jouit d'un franc succès, peut déjà compter sur des noms réputés. Du jeudi 13 novembre au samedi 15 novembre, ne manquez pas de vous rendre au Carrefour du Collège pour miser sur de nombreux articles. Parmi les noms de marque figurant à notre catalogue, mentionnons Keurig, Swarovski, et Roots Leather, ainsi que de nombreux objets sortis tout droit d'Hollywood qui proviennent d'acteurs tels Mark Wahlberg et Andrea Martin.

Accessing Your Creativity: Hands on Experience in the Open Studio

Presenter: Jeff Nachtigall

In November 2006, Jeff Nachtigall began a residency with the Saskatoon Health Region, where he implemented an Open Studio program that offered marginalized individuals the opportunity to express themselves visually. Since then, his model has been successfully implemented in communities across Canada. This inclusive, non-hierarchical, person-centered environment emphasizes creativity, collaboration, process and outcomes. This model has evolved and grown into a community-based catalyst for positive social change.

The objective of the theater is to create a hands-on “Open Studio” experience to be open during the entire FMF. As collaborative environment, it will encourage participants to throw caution to the wind and embrace their inherent creativity, and grow beyond their comfort zones.

The high energy of the Open Studio and its intuitive process will culminate in a large scale collaborative work of art that will showcase the raw energy, passion and the collective creativity of the FM community.

The Open Studio will be situated in a central location, with satellites sites where the evolution of the production will be shared.

Accéder à votre côté créatif : Expérience pratique dans l'atelier libre

Présentateur : Jeff Nachtigall

En novembre 2006, Jeff Nachtigall a commencé sa résidence au sein de l'Autorité sanitaire de Saskatoon, où il a mis sur pied un programme d'atelier libre qui offre aux personnes marginalisées une occasion de s'exprimer visuellement. Depuis, son modèle a été adopté avec succès dans plusieurs collectivités au Canada. Cet environnement inclusif, non hiérarchique et centré sur l'individu met l'accent sur la créativité, la collaboration, le processus et les résultats. Ce modèle a évolué et a grandi pour devenir un catalyseur communautaire de changement social positif.

L'objectif du théâtre est de créer une expérience pratique d'« atelier libre » qui sera ouvert pendant toute la durée du FMF. En tant qu'environnement collaboratif, il encouragera les participants à baisser leur garde et à laisser monter leur créativité intérieure, allant au-delà de leur zone de confort.

Le niveau élevé d'énergie de l'atelier libre et son processus intuitif culmineront en une œuvre d'art collaborative à grande échelle qui montrera l'énergie brute, la passion et la créativité collective de la communauté de MF. L'atelier libre sera situé à un endroit central, avec des sites satellites où il sera possible de suivre l'évolution de la production

SCIENTIFIC PROGRAM — WEDNESDAY 12 MERCREDI — PROGRAMME SCIENTIFIQUE PRE-CONFERENCE – JOURNÉE PRÉCONFÉRENCE

WEDNESDAY • MERCREDI

10th ANNUAL FAMILY MEDICINE RESEARCH DAY

10^e JOURNÉE ANNUELLE DE LA RECHERCHE EN MÉDECINE FAMILIALE

Registration for Research Day also provides access to FMEF sessions.

L'inscription à la Journée de la recherche donne accès aux séances du FÉMF.

This program meets the accreditation criteria of the College of Family Physicians of Canada and has been accredited for up to 6.0 Mainpro-M1 credits.

Ce programme satisfait aux critères d'agrément du Collège des médecins de famille du Canada et donne droit à un maximum de 6,0 crédits.

PRE-REGISTRATION IS REQUIRED / PRÉINSCRIPTION OBLIGATOIRE

07:30-08:30 Breakfast / Petit déjeuner
ROOM / SALLE : 2000 FOYER – QCCC / CCQ

08:30-08:45 Welcome / Bienvenue
ROOM / SALLE : 2000C – QCCC / CCQ

W77152 08:45-09:45 Section of Researchers Plenary / Plénière de la Section des chercheurs
On Creativity and Innovation ... Getting into the mind of creative giants
ROOM / SALLE : 2000C – QCCC / CCQ

09:45-10:00 Introduction to Posters / Introduction des affiches

10:00-10:45 Break and Poster Viewing / Pause et visite des affiches
ROOM / SALLE : 2000B – QCCC / CCQ

Presentation by the Recipient of the CFPC Outstanding Family Medicine Research Article
Présentation par le récipiendaire du Prix du CMFC pour un article exceptionnel de recherche en médecine familiale

W77453 10:45-11:00 Characteristics of Primary Care Practices Associated With High Quality of Care
Marie-Dominique Beaulieu, MD, MSc; Jeannie Haggerty, PhD; Pierre Tousignant, MD, MSc;
Janet Barnsley, PhD; William Hogg, MD, MSc; Robert Geneau, PhD; Éveline Hudon, MD, MSc;
Réjean Duplain, MD; Jean-Louis Denis, PhD; Lucie Bonin, MD, MSc; Claudio Del Grande, MSc; Natalya Dragieva, MSc
ROOM / SALLE : 2000C – QCCC / CCQ

Presentation by the Recipient of the CFP Best Original Research Article
Présentation par le récipiendaire du Prix du MFC pour le meilleur article de recherche originale

W77454 11:00-11:15 Adoption of the Chronic Care Model to Improve HIV Care in a Marginalized, Largely Aboriginal Population
David Tu, MD, CCFP; Patricia Belda, MSc, MD, CCFP; Doreen Littlejohn, RN; Jeanette Somlak Pedersen;
Juan Valle-Rivera; Mark Tyndall, MD, ScD, FRCPC
ROOM / SALLE : 2000C – QCCC / CCQ

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

SCIENTIFIC PROGRAM — WEDNESDAY 12 MERCREDI — PROGRAMME SCIENTIFIQUE PRE-CONFERENCE – JOURNÉE PRÉCONFÉRENCE

WEDNESDAY • MERCREDI

Presentation by the Recipient(s) of the Research Awards for Family Medicine Residents Présentation par les récipiendaires des Prix de recherche pour les résidents en médecine familiale

W77455 11:15-11:30	Antiviral Therapy for Genital Herpes in the Prevention of HIV Transmission <i>Carrie Ching, MD, CCFP, Vancouver, BC; Lindsay Stokvis, MD, CCFP, Vancouver, BC</i> ROOM / SALLE : 2000C – QCCC / CCQ
-------------------------------------	---

W77457 11:30-11:45	The Impact of Toronto Bicycle Lanes on Cyclist-Motor Vehicle Collisions <i>Jennifer Loo, MD, CCFP, Toronto, ON</i> ROOM / SALLE : 2000C – QCCC / CCQ
-------------------------------------	--

11:45-12:15	Lunch / Dîner
12:15-12:45	Section of Researchers Chair's Report / Rapport du président de la Section des chercheurs ROOM / SALLE : 2000C – QCCC / CCQ

2014 Family Medicine Researcher of the Year Award Presentation Remise du prix du Chercheur de l'année en médecine familiale pour 2014

W77534 12:45-13:15	From Research to Practice: A trilogy ROOM / SALLE : 2000C – QCCC / CCQ <i>Michel Labrecque, MD, PhD, CCM FCMF, Québec, QC</i>
-------------------------------------	---

13:15-13:20	Introduction to Oral Presentations / Introduction aux présentations orales
--------------------	---

Top 4 Oral Presentations / Les 4 meilleures présentations orales

W62732 13:30-13:40	Quels gestes cliniques les professionnels considèrent-ils comme de l'aide médicale à mourir ? <i>Claude Arsenault, MD, CCMF, Sherbrooke, QC; Antoine Boivin, MD, PhD, Montréal, QC; Isabelle Marcoux, PhD, Ottawa, ON; Mélanie Toupin, MD, Montréal, QC</i> ROOM / SALLE : 205A – QCCC / CCQ
-------------------------------------	--

W62685 13:30-13:40	An RCT of Supported Self-Care for Depressive Symptoms in Association With Chronic Physical Conditions <i>Mark Yaffe, MD CM, MCISc, CCFP, FCFP, Montréal, QC; Jane McCusker, PhD, Montréal, QC; Martin Cole, MD, FRCPC, Montréal, QC; Maida Sewitch, PhD, Montréal, QC; Tamara Sussman, PhD, Montréal, QC; Erin Strumpf, PhD, Montréal, QC</i> ROOM / SALLE : 205B – QCCC / CCQ
-------------------------------------	--

W63172 13:30-13:40	Development of a Clinical Decision Support Tool for the Primary Prevention of Cardiovascular Disease <i>Anton Rabien, MD, CCFP, Sooke, BC; Morgan Price, MD, PhD, CCFP, Victoria, BC</i> ROOM / SALLE : 205C – QCCC / CCQ
-------------------------------------	---

W57662 15:15-15:25	Interprofessional Learning Using Persons With Developmental Disability as Simulated Patients <i>Brian Hennen, MD, MA, CCFP, FCFP, FRCCP, Dartmouth, NS; Elizabeth Kay-Raining Bird, PhD, Halifax, NS; Paula Hutchinson, PhD, Halifax, NS; Anne Codden-Webster, MSc, Halifax, NS; Karen McNeil, MD, CCFP, FCFP, Halifax, NS; Sandra Witherbee, Halifax, NS; Judy Macdonald, PhD, Halifax, NS; Sarah Shea, MD, FRCPS, Halifax, NS; Andrea Rideout, MD, CCFP, FCFP, Halifax, NS; Dianne Mackenzie, MSc, Halifax, NS; Lisa Doucette, BScN, Yarmouth, NS; Bruce Holmes, Halifax, NS</i> ROOM / SALLE : 2101 – QCCC / CCQ
-------------------------------------	---

13:30-13:40	Free Standing Paper (Oral) Presentations / Présentations libres (orales)
--------------------	---

W62705 13:30-13:40	Caring and Communicating in Critical Cases: A resource for rural physicians <i>Antonia Johnson, MBA; Lindsey Campbell, MD; M. Firdaus; M. Mydeen, MD, CCFP</i> ROOM / SALLE : 206A – QCCC / CCQ
-------------------------------------	---

W67400 13:30-13:40	Implementation of the Expanded Chronic Care Model for the Management of Diabetes in a Community Clinic <i>Juan Soto, MD, CCFP, Spruce Grove, AB; Cecile Pasino, PhD</i> ROOM / SALLE : 206B – QCCC / CCQ
-------------------------------------	--

SCIENTIFIC PROGRAM — WEDNESDAY 12 MERCREDI — PROGRAMME SCIENTIFIQUE PRE-CONFERENCE – JOURNÉE PRÉCONFÉRENCE

WEDNESDAY • MERCREDI

13:45-13:55	Free Standing Paper (Oral) Presentations / Présentations libres (orales)
W62632 13:45-13:55	Évaluation de l'implantation d'un système de soins en HTA dans les GMF de la Montérégie Stéphane Groulx, MD, FCMF, Longueuil, QC; Jean Beaudry, MA Psy, Longueuil, QC; Yves Filion, DtP, MBA, Montréal, QC; Julie Dufort, MD, MSc, FRCPC, Longueuil, QC ROOM / SALLE : 205A – QCCC / CCQ
W63402 13:45-13:55	Screening for Red Flags in Patients With MDD During Follow-up Visits in a Group Family Practice Setorme Tsikata, MBChB, MSc, CCFP, Edmonton, AB; Justice Asomaning, PhD, Edmonton, AB; Zahra Fatehi-Hassanabad, MD, PhD, Edmonton, AB ROOM / SALLE : 205B – QCCC / CCQ
W62645 13:45-13:55	Quality of Work Life of Rural Emergency Department Nurses and Physicians: A pilot study Isabelle Bragard, PhD, Belgique; Gilles Dupuis, PhD, Montréal, QC; Patrick Archambault, MD, MSc, FRCPC, CSPQ, Lévis, QC; France Légaré, MD, PhD, CCFP, Québec, QC; Jean-Marc Chauny, MD, CSPQ, MSc, Montréal, QC; Jean-Frédéric Lévesque, MD, PhD, NSW, Australia; Mathieu Ouimet, PhD, Québec, QC; Richard Fleet, MD, PhD, CCMF(MU), Lévis, QC; Poitras, MD, CSPQ, Lévis, QC ROOM / SALLE : 206A – QCCC / CCQ
W60143 13:45-13:55	The Neighbourhood Effect of Immigration on an Urban Diabetic Population Alain Vanasse, MD, PhD, Sherbrooke, QC; Maria Gabriela Orzanco, PhD, Montréal, QC; Patrick Bergeron, PhD, Sherbrooke, QC; Alan Cohen, PhD, Sherbrooke, QC; Théophile Niyonsenga, PhD, Adelaide, Australia; Denis Leroux, PhD, Trois-Rivières, QC ROOM / SALLE : 206B – QCCC / CCQ
14:00-14:10	Free Standing Paper (Oral) Presentations / Présentations libres (orales)
W62633 14:00-14:10	Effets sur les pratiques cliniques d'un système de soins en HTA dans les GMF de la Montérégie Stéphane Groulx, MD, FCMF, Longueuil, QC; Jean Beaudry, MA Psy, Longueuil, QC; Yves Filion, DtP, MBA, Montréal, QC; Julie Dufort, MD, MSc, FRCPC Longueuil, QC ROOM / SALLE : 205A – QCCC / CCQ
W57404 14:00-14:10	The Rasouli Decision: Is the withdrawal of life-sustaining measures considered treatment? Yatri Patel, MD, Masters of Studies in Law(c); Robert Solomon, LLB, LLM ROOM / SALLE : 205B – QCCC / CCQ
W62122 14:00-14:10	Is the Recommended Use Requisition Acceptable for Bone Mineral Density Testing in Clinical Practice? Rokeni (Sumi) Ananthrajah, MD, Toronto, ON; Susana Huang, MD, Toronto, ON; Susan Jaglal, PhD, Toronto, ON; Sarah Munce, PhD, Toronto, ON; Sonya Allin, PhD, Toronto, ON; Tarik Bereket, MA, Toronto, ON ROOM / SALLE : 205C – QCCC / CCQ
W60567 14:00-14:10	Portrait of Rural Emergency Departments and Utilization of Emergency Management Guide in Québec Richard Fleet, MD, PhD, CCMF(MU), Lévis, QC; Patrick Archambault, MD, MSc, FRCPC, CSPQ, Lévis, QC; France Légaré, MD, PhD, CCFP, Québec, QC; Jean-Marc Chauny, MD, CSPQ, MSc, Montréal, QC; Jean-Frédéric Lévesque, MD, PhD, New South Wales, Australia; Mathieu Ouimet, PhD, Québec, QC ROOM / SALLE : 206A – QCCC / CCQ
W63286 14:00-14:10	Where Is Abortion Service Provided in Canada?: Results of a national survey Wendy V. Norman, MD, MHSc, Vancouver, BC; Edith Guilbert, MD, MSc, Québec, QC; Christopher Okpaleke, MBBSc, MPH(c), Vancouver, BC; E. Steven Lichtenberg, MD MPH, Chicago, IL; Maureen Paul MD, MPH, Boston, Mass; Katharine O'Connell White, MD, MPH, Tufts University School of Medicine ROOM / SALLE : 206B – QCCC / CCQ

SCIENTIFIC PROGRAM — WEDNESDAY 12 MERCREDI — PROGRAMME SCIENTIFIQUE PRE-CONFERENCE – JOURNÉE PRÉCONFÉRENCE

WEDNESDAY • MERCREDI

14:15-14:25	Free Standing Paper (Oral) Presentations / Présentations libres (orales)
W63318 14:15-14:25	Types d'avortements pratiqués au Québec et dans le reste du Canada : Une étude nationale Edith Guilbert, MD, MSc, Québec, QC; Heidi E. Jones, PhD, MPH, NY, USA; Christopher Okpaleke, MBBSc, MPH(c), Vancouver, BC; E. Steven Lichtenberg, MD, MPH, Chicago, Ill; Maureen Paul, MD, MPH, Boston, MA; Katharine O'Connell White, MD, MPH, Springfield, MA ROOM / SALLE : 205A – QCCC / CCQ
W62620 14:15-14:25	A Screening Toolkit for Early Identification of Mental Health Issues in Seniors Bonnie Dobbs, PhD, Edmonton, AB; Diane McNeil, PhD, Edmonton, AB; Anita Saini, MC, Edmonton, AB ROOM / SALLE : 205B – QCCC / CCQ
W60157 14:15-14:25	Prognostic Value of Residential Hospice Admission Priority Tool Compared to the Palliative Prognostic Index Leslie Morrison, MD, Barrie, ON; Kelly Hubbard, RN, BScN, CHPCN(C), Barrie, ON; Linda Johnston, RN, Barrie, ON; Erin Ueffing, HBHSc, MHSc; Brian Morris, MD, CCFP, Barrie, ON; Anwar Parbtani, PhD, MD, CCFP, Barrie, ON ROOM / SALLE : 205C – QCCC / CCQ
W60577 14:15-14:25	Rural Versus Urban In-Hospital Mortality Following Stroke in Canada Richard Fleet, MD, PhD, CCMF(MU), Lévis, QC; Sylvain Bussières, PhD, Québec, QC; Fatoumata-Korika Tounkara, MSc, Québec, QC; Gilles Dupuis, PhD, Montréal, QC; Patrick Archambault, MD, MSc, FRCPC, CSPQ, Lévis, QC; Julien Poitras, MD, CSPQ, Lévis, QC ROOM / SALLE : 206A – QCCC / CCQ
W57353 14:15-14:25	Shifting Tides in the Emigration Pattern of Canadian Physicians to the United States Thomas Freeman, MD, CCFP/FCFP; Stephen Petterson, PhD; Andrew Bazemore, MD; Sean Finnegan, MS ROOM / SALLE : 206B – QCCC / CCQ
14:30-14:40	Free Standing Paper (Oral) Presentations / Présentations libres (orales)
W63310 14:30-14:40	Qui pratique les avortements chirurgicaux au Québec et dans le reste du Canada? Une étude nationale Edith Guilbert, MD, MSc, Québec, QC; Heidi E. Jones, PhD, MPH, NY, USA; Christopher Okpaleke, MBBSc, MPH(c), Vancouver, BC; E. Steven Lichtenberg, MD, MPH, Chicago, Ill; Maureen Paul, MD, MPH, Boston, MA; Katharine O'Connell White, MD, MPH, Springfield, MA ROOM / SALLE : 205A – QCCC / CCQ
W63212 14:30-14:40	Discussing End-of-Life Issues in a New Model of Long-Term Care: A qualitative study Raphaëlle Thériault, MD, CCFP, Halifax, NS; Emily Card Marshall, PhD, Halifax, NS; Fred Burge, MD, FCFP, MSc, Halifax, NS; Barry Clarke, MD, CCFP, COE, Halifax, NS ROOM / SALLE : 205B – QCCC / CCQ
W62697 14:30-14:40	Addressing Medication Discrepancies at the Hospital to Community Transition Through a Community-Based Medication Reconciliation System Allan L. Bailey, MD, CCFP, Edmonton, AB; Kris McKeown PhD, Spruce Grove, AB; Grace Moe, MSc, PCMH-CCE, Spruce Grove, AB ROOM / SALLE : 205C – QCCC / CCQ
W60354 14:30-14:40	A Practice Audit Can Improve Primary Care Provider Knowledge, Attitudes, and Behaviours Towards Chronic Hepatitis B: Results of a nationwide study Hemant Shah, MD, MScCH, HPTE, Toronto, ON; Jean Palmart, Advisory Physicians, BC ROOM / SALLE : 206A – QCCC / CCQ
W62768 14:30-14:40	Effect of Intracervical Xylocaine Prior to Intrauterine System Insertion in Primary Care Carla Sterlinh, HBSc, MD; Ainsley Moore, MD, MSc, CFPC ROOM / SALLE : 206B – QCCC / CCQ

SCIENTIFIC PROGRAM — WEDNESDAY 6 MERCREDI — PROGRAMME SCIENTIFIQUE

PRE-CONFERENCE – JOURNÉE PRÉCONFÉRENCE

14:45-14:55	Free Standing Paper (Oral) Presentations / Présentations libres (orales)
W63303 14:45-14:55	What Medications Are Used for Medical Aid in Dying? A scoping review <i>Antoine Boivin, MD, PhD, Montréal, QC; Yi-Sheng Chao, PhD, Postdoctoral student, Longueuil, QC; Genevieve Gagnon, PhD(c), Longueuil, QC; Isabelle Marcoux, PhD, Ottawa, ON</i> ROOM / SALLE : 205B – QCCC / CCQ
W62640 14:45-14:55	Drug Samples Utilization in Family Medicine Teaching Units of the Québec-1 PBRN <i>Marie-Thérèse Lussier, MD, CCFP, FCFP, Montréal, QC; Michel Labreque, MD, PhD, CCFP, FCFP, Québec, QC; Andrea Lessard, MD, MSc, CCFP, Chicoutimi, QC; Pierre Pluye, MD, PhD, Montréal, QC; Roland Grad, MD, MSc, CCFP, Montréal, QC; Caroline Rhéaume, MD, CCMF, PhD, Québec, QC; Fatoumata Binta Diallo, PhD, Laval, QC</i> ROOM / SALLE : 205C – QCCC / CCQ
W55579 14:45-14:55	Profession and Conflict of Interest of Contributors to Canadian Primary Care Guidelines <i>G. Michael Allan, MD, CCFP; Michael R. Kolber, MD, CCFP, MSc; Christina Korownyk, MD, CCFP; Roni Kraut; Aven Crawshay; Ben Vandermeer</i> ROOM / SALLE : 206A – QCCC / CCQ
W57610 14:45-14:55	Perspectives About Spirometry and Knowledge of Spirometric Diagnostic Criteria Among Primary Care Physicians <i>Anthony D'Urzo, MD, MSc, BPHE, CCFP, FCFP, Toronto, ON; Prateek Sehgal, MD(c), Toronto, ON</i> ROOM / SALLE : 206B – QCCC / CCQ
15:00-15:15	Break / Pause
15:15-15:25	Free Standing Paper (Oral) Presentations / Présentations libres (orales)
W59727 15:15-15:25	Évaluation d'un atelier de formation sur l'utilisation du dossier médical électronique par les médecins de famille <i>Marie-Pierre Gagnon, PhD, Québec, QC; Jean-Paul Fortin, MD, CSPQ, MPH, MBA, Québec, QC; Réjean Roy, MSc, Montréal, QC; Liette D'Amours, BA, Montréal, QC; Marie Desmartis, MA, Québec, QC</i> ROOM / SALLE : 205A – QCCC / CCQ
W63401 15:15-15:25	Impact of the 2012 Ontario Cervical Screening Guidelines on Sexually Transmitted Infection Screening <i>Tali Bogler, MD, Toronto, ON; Allison Farber, MD, Toronto, ON; Sheila Wijayasinghe, MD, CCFP, Toronto, ON; Richard Glazier, MD, MPH, CCFP, Toronto, ON; Charlie Guiang, MD, CCFP, Toronto, ON</i> ROOM / SALLE : 205B – QCCC / CCQ
W59451 15:15-15:25	Impact of a 3-Hour Workshop on Self-Perceived Abilities and Enjoyment of Dementia Care <i>Linda Lee, MD, MCISc(FM), CCFP, FCFP, Kitchener, ON; Loretta Hillier, MA, London, ON; Wayne Weston, MD, CCFP, FCFP, London, ON</i> ROOM / SALLE : 205C – QCCC / CCQ
W63379 15:15-15:25	Impact of Patient's Online Access to Lab Results: Primary care utilization and patient experience <i>Chad A. Leaver, BA, MSc, MBA(c); Simon Hagens, MBA</i> ROOM / SALLE : 206A – QCCC / CCQ
W62835 15:15-15:25	Case Finding and Managing Chronic Obstructive Pulmonary Disease <i>Cathy Faulds, MD, CCFP, FCFP, ABPHM, London, ON; Emily Stoll, BSc, London, ON; Adriana Pietrzak, BMSc, London, ON</i> ROOM / SALLE : 206B – QCCC / CCQ
W63039 15:15-15:25	The McGill MSc Program in Family Medicine: Who are our students and where do they end up? <i>Jamie DeMore, MA, Montréal, QC ; Gillian Bartlett, PhD, Montréal, QC; Alexandra Dimmer, MSc(c), Montréal, QC; Alexandra Fletcher, MSc(c), Montréal, QC; Roland Grad, MD CM, CCFP, MSc, Montréal, QC; Peter Nugus, PhD, Montréal, QC</i> ROOM / SALLE : 2104AB – QCCC / CCQ

SCIENTIFIC PROGRAM — WEDNESDAY 6 MERCREDI — PROGRAMME SCIENTIFIQUE PRE-CONFERENCE – JOURNÉE PRÉCONFÉRENCE

WEDNESDAY • MERCREDI

15:30-15:40	Free Standing Paper (Oral) Presentations / Présentations libres (orales)
W63204	Perception des médecins sur les facteurs d'adoption de la prescription électronique au Québec
15:30-15:40	<i>Julie Payne-Gagnon, MA, Québec, QC; Marie-Pierre Gagnon, PhD, Québec, QC; Claude Sicotte, PhD, Montréal, QC</i> ROOM / SALLE : 205A – QCCC / CCQ
W57104	Equity in Colorectal Cancer Screening: Factors impacting family physician preferences and behaviours
15:30-15:40	<i>Sandy Buchman, MD, CCFP, FCFP; Richard Glazier, MD, CCFP, FCFP, MPH; Linda Rozmovits, DPhil</i> ROOM / SALLE : 205B – QCCC / CCQ
W63257	Defining a Typology of the Specialist: Primary care interface using administrative data
15:30-15:40	<i>Claire Kendall, MD, MSc, Ottawa, ON; Jaime Younger, PhD, Ottawa, ON; Monica Taljaard, PhD, Ottawa, ON; William Hogg, BSc(Hon), MSc, MCISc, MD CM, CCFP, FCFP, Ottawa, ON; Richard H. Glazier, MD, MPH, Toronto, ON; Douglas G. Manuel, MD, MSc, FRCPC, Ottawa, ON</i> ROOM / SALLE : 205C – QCCC / CCQ
W62699	How Do Patients Experience Periodic Health Exams?
15:30-15:40	<i>Aileen Roman, MD, Montréal, QC; Daniella Guindi, MD, Montréal, QC; Svetlana Puzhko, MD, MSc, Montréal, QC; Mark Yaffe, MD CM, MCISc, CCFP, FCFP, Montréal, QC</i> ROOM / SALLE : 206A – QCCC / CCQ
W59802	Addressing Childhood and Youth Obesity in the Primary Care Setting: Are we meeting the challenge?
15:30-15:40	<i>Matthew Orava, MD, MSc, BScH; Anwar Parbtani, PhD, MD, CCFP, Barrie, ON</i> ROOM / SALLE : 206B – QCCC / CCQ
W63426	Clinical Supervisors' Perceived Training Needs to Deliver Elder Care and Teach It to Their Trainees
15:30-15:40	<i>Anik Giguere, PhD, Québec, QC; Françoise Proust, PhD, Québec, QC; Philippe Karazivan, MD, MAEd, Montréal, QC; Bernard Martineau, MD, MA, DPES, Sherbrooke, QC; Charo Rodriguez, MD, PhD, Montréal, QC; Marie Meudec, PhD, Québec, QC</i> ROOM / SALLE : 2101 – QCCC / CCQ
W63424	Resident Perceptions of the Utility of a Formative Academic Benchmarking Examination
15:30-15:40	<i>Shelley Ross, PhD, Edmonton, AB; John Chmelicek, MD, CCFP, FAAFP, FAWM, Edmonton, AB; Denise Campbell-Scherer, MD, PhD, CCFP, Edmonton, AB; Tanya Barber, MA, Edmonton, AB</i> ROOM / SALLE : 2104AB – QCCC / CCQ
15:45-15:55	Free Standing Paper (Oral) Presentations / Présentations libres (orales)
M62408	Gestion des échantillons de médicaments à l'Unité de médecine de famille Saint-François d'Assise
15:45-15:55	<i>Ghislaine Tre, MSc, PhD, Québec, QC; Ulrich Ifoko, MD, CCMF, Montréal, QC; Marie-Ève Robert; Michel Labrecque, MD, CCMF, FCMF, Québec, QC</i> ROOM / SALLE : 205A – QCCC / CCQ
W63231	How Prevalent Are “Meet and Greet” Screening Appointments for New Patients? Implications for Access Equity
15:45-15:55	<i>Emily Gard Marshall, PhD, Halifax, NS; Beverley Lawson, MSc, Halifax, NS; Judy Chisholm, BN, MN, Halifax NS; Richard Gibson, MD, Halifax, NS; Nirupa Varatharasan, MSc, Halifax, NS; Frederick Burge, MD, MSc, FCFP</i> ROOM / SALLE : 206A – QCCC / CCQ
W63382	In the Loop: Primary care providers' role in newborn screening for cystic fibrosis
15:45-15:55	<i>June C. Carroll, MD, CCFP, Toronto, ON; Robin Z. Hayeems, PhD, Toronto, ON; Fiona A. Miller, PhD, Toronto, ON; Carolyn J. Barg, MSc, Toronto, ON; Yvonne Bombard, PhD, Toronto, ON; Peter Durie, MD, Toronto, ON</i> ROOM / SALLE : 206B – QCCC / CCQ
W63199	What Procedural Skills Do Clerks Perform in Family Medicine Clerkships? A CERA Survey
15:45-15:55	<i>Martina Kelly, MBCH, MA, CCFP, Calgary, AB; Lara Nixon, MD, CCFP, FCFP, Calgary, AB; Kelly Everard, PhD, Saint Louis, MI; Alec Chessman, MD, SC</i> ROOM / SALLE : 2101 – QCCC / CCQ
W58941	Timeliness of Encounter Note Review by Preceptors in Academic Family Medicine Teaching Clinics
15:45-15:55	<i>Carol Styles, RN, BN, MPH; Maria Krahm, BSc(Hon)</i> ROOM / SALLE : 2104AB – QCCC / CCQ

SCIENTIFIC PROGRAM — WEDNESDAY 6 MERCREDI — PROGRAMME SCIENTIFIQUE

PRE-CONFERENCE – JOURNÉE PRÉCONFÉRENCE

W60597 15:45-15:55	Family Physician Perception of the Usefulness of an Intervention to Improve Continuity of Cancer Care <i>Michele Aubin, MD, PhD, FCFP, CCFP, Québec, QC; Lucie Vézina, MA, Québec, QC; René Verreault, MD, PhD, FCFP, CCFP, Québec, QC; Lise Fillion, RN, PhD, Québec, QC; Éveline Hudon, MD, MA, Montréal, QC; Sébastien Simard, PhD, Québec, QC; André Tourigny, MD, MPH, Québec, QC</i> ROOM / SALLE : 205B – QCCC / CCQ
W60794 15:45-15:55	Intimate Partner Violence: Assessment of family physicians' awareness, preparedness, and approaches <i>Chris Gall, BMS(Hon), MD, Toronto, ON; J. Shaw, BSc(Hon), MD; E. Kiss, MD, CCFP; R. Raiciu, BA(Hon), MSc; A. Parbtani, MD, CCFP</i> ROOM / SALLE : 205C – QCCC / CCQ

16:00-16:10	Free Standing Paper (Oral) Presentations / Présentations libres (orales)
W62771 16:00-16:10	Bereaved Parents Break the Silence of Stillbirth: A community-based participatory research project <i>Lynn Farrales, MSc, MD, CCFP, Vancouver, BC; Jennifer Douglas, PhD, Vancouver, BC; Jaime Ascher, BSc, Vancouver, BC; John Nanson, MEd, Vancouver, BC; May Farrales, PhD(c), Vancouver, BC; Andrea McComb, EdD(c), Vancouver, BC</i> ROOM / SALLE : 206B – QCCC / CCQ
W62854 16:00-16:10	The Impact of Cultural Differences on Family Medicine Residency Education: Validating a new assessment instrument <i>Douglas Archibald, PhD, Ottawa, ON; Alison Eyre, MD, CCFP, Ottawa, ON; Dorota Szczepanik, MD, CCFP, Ottawa, ON; Lionel Laroche, PhD, Markham, ON; Simone Dahrouge, PhD, Ottawa, ON; Timothy Wood, PhD, Ottawa, ON</i> ROOM / SALLE : 2101 – QCCC / CCQ
W56524 16:00-16:10	The “Nightmares” Course: An effective simulation-based acute care training method for family medicine residents <i>Filip Gilic, CCFP(EM); Ian Sempowski, CCFP(EM); Ana Blagojevic, MD, MSc; Karen Schultz, MD, CCFP</i> ROOM / SALLE : 2104AB – QCCC / CCQ

W77460 16:00-17:00	Meet Canada's Community-Based Primary Health Care Research Teams! ROOM / SALLE : 2000C – QCCC / CCQ
-------------------------------	--

Description:

In 2012 CIHR funded 12 interdisciplinary primary healthcare research teams. This Community-based Primary Health Care (CBPHC) Signature Initiative supports highly innovative approaches to improving the delivery of high-quality community-based primary health care to Canadians. This “Lightning Round” session will allow each team 3 minutes and one slide to introduce their approach and progress. All teams will also have a poster available in a special section of the poster area, to provide further details and a chance for you to discuss these innovative and exciting leading-edge research projects with team members!

DAILY BADGE SCAN REQUIRED – PROOF OF PARTICIPATION: Remember to have your name badge scanned EACH DAY by a CFPC staff member throughout the conference. Self-scanning stations are also available throughout the conference venues. All scanned registrants will receive a letter confirming attendance at Family Medicine Forum 2014 by January 1, 2015. **Please note that these letters are not available for pick-up on-site.**

SCANNAGE QUOTIDIEN DE L'INSIGNE OBLIGATOIRE – PREUVE DE PARTICIPATION : N'oubliez pas de faire scanner votre insigne d'identité CHAQUE JOUR par un membre du personnel du CMFC durant toute la conférence. Des postes de lecteur code-barre se trouveront aussi un peu partout sur les lieux de la conférence. Tous les participants inscrits dont l'insigne aura été scanné recevront une lettre confirmant leur participation au Forum en médecine familiale 2014 avant le 1^{er} janvier 2015. **Veuillez noter que ces lettres ne seront pas disponibles sur place.**

Session cancellation: The College reserves the right to cancel session(s) due to unforeseen circumstances and cannot accept responsibility for out-of-pocket expenses incurred due to the cancellation of any session.

Annulation de séance : Le Collège se réserve le droit d'annuler une ou plusieurs séances s'il survient des événements imprévus et ne sera pas responsable de toute manue dépense encourue en raison de l'annulation d'une séance.

**Family Medicine Education Forum (FMEF)
Supporting Teachers: Working Together to Build Our Capacities**

Forum sur l'éducation en médecine familiale (FÉMF)

Soutenons les enseignants : Travaillons ensemble pour accroître nos capacités

Registration for FMEF also provides access to Research Day sessions.

L'inscription au FÉMF donne accès aux séances de la Journée de la recherche.

This program meets the accreditation criteria of the College of Family Physicians of Canada and has been accredited for up to 5.5 Mainpro-M1 credits.

Ce programme satisfait aux critères d'agrément du Collège des médecins de famille du Canada et donne droit à un maximum de 5,5 crédits.

PRE-REGISTRATION IS REQUIRED / PRÉINSCRIPTION OBLIGATOIRE

07:30–08:30 Breakfast / Petit déjeuner
ROOM / SALLE : 2000 FOYER – QCCC / CCQ

WM75322 Family Medicine Education Forum (FMEF) Plenary – The Fundamental Teaching Activities Framework
08:30–10:00 *Plénière du Forum sur l'éducation en médecine familiale (FÉMF) Référentiel d'activités pédagogiques fondamentales*
ROOM / SALLE : 2000A – QCCC / CCQ

10:00-10:45 Break and Poster Viewing / Pause et visite des affiches
ROOM / SALLE : 2000B – QCCC / CCQ

W77111 Undergraduate Education Committee (UGEC) Showcase: Resources for teachers of medical students in family medicine
10:45-12:00 **ROOM / SALLE : 304B – QCCC / CCQ**

Description:

Are you an Undergraduate Educator looking for resources to support your curriculum and programs? Join us as members of the CFPC's Undergraduate Education Committee (UGEC) showcase resources that they have produced, as well as collected. It's also an opportunity to share your own favorite resources with us

W77112 Deepening Your Understanding of the Fundamental Teaching Activities Framework (FTAF)
10:45-12:00 *Working Group on Faculty Development*
ROOM / SALLE : 309A – QCCC / CCQ

W77114 Competency-based Assessment Alchemy: Turning field notes into gold
10:45-12:00 *Members of the Working Group on the Certification Process*
ROOM / SALLE : 308B – QCCC / CCQ

Learning objectives:

1. understand how Field Notes support competency-based assessment
2. understand what constitutes a valuable Field Note
3. have an opportunity to use this information in the review of multiple Field Note examples with discussion on what makes a Field Note more effective for use in formative and later summative feedback

W77115 A Tool for Assessing the Collaborator Role Competencies: Relevance and application to teaching practice
10:45-12:00 *Steve Balkou, Deborah Kopansky-Giles, BPHE, DC, FCCS, MSc; Christie Newton, MD, CCFP, FCFP;
CFPC Working Group on the Collaborator Role*
ROOM / SALLE : 307AB – QCCC / CCQ

Learning objectives:

1. preview a tool developed by the working group to assess the collaborator role competencies
2. apply this tool to case scenarios and provide feedback on the application of the tool in practice

SCIENTIFIC PROGRAM — WEDNESDAY 12 MERCREDI — PROGRAMME SCIENTIFIQUE

PRE-CONFERENCE – JOURNÉE PRÉCONFÉRENCE

W**W77117****10:45-12:00****Accreditation: How can we improve the process?**

*Louise Nasmith, MD, CCFP, FCFP; Judith Scott, MA; Keith Wycliffe-Jones, MD, CCFP, FCFP
CFPC Accreditation Committee*

ROOM / SALLE : 309B – QCCC / CCQ*Learning objectives:*

1. provide feedback to the Accreditation Chair, past Chair, and Manager on what works and what might be changed around the accreditation process
2. share accreditation experiences, challenges, and solutions
3. help develop a series of themes around the strengths and weaknesses of the current accreditation process

W77118**10:45-12:00****Using Social Media as an Educational Tool: Our experience – First Five Years in Family Practice Journal Club**

Scott MacLean, MD, CCFP, CFPC First Five Years in Practice Committee

ROOM / SALLE : 301A – QCCC / CCQ*Learning objectives:*

1. learn how the FFYFP's online journal club was established, as well as learn about other similar social-media based journal clubs worldwide
2. reflect on the utility of a social-media based journal club and how it can enhance teaching and learning in their educational setting
3. provide feedback to the FFYFP Committee on future directions of the journal club

W77119**10:45-12:00****Residency Level Program Evaluation and You: How to use results to evaluate and improve curriculum through faculty development**

Doug Archibald, MD, Ottawa, ON; Shelley Ross, MD, Edmonton, AB

ROOM / SALLE : 308A – QCCC / CCQ

In this workshop, attendees will be provided with a mock national aggregate data demonstrating information from the Family Medicine Longitudinal Survey and mock results from program level data. Using the data, attendees will learn how to interpret the results considering how context influences interpretation and how data can be used to improve curriculum through the use of faculty development.

W77121**10:45-12:00****Reflective Learning: CME in evolution**

*Jamie Meuser, MD, CCFP, FCFP; Janice Harvey, MD, CCFP, FCFP; Roland Grad, MD, CCFP, FCFP, Montréal, QC;
Pierre Pluye, MD, Montréal, QC*

ROOM / SALLE : 303A – QCCC / CCQ*Learning objectives:*

1. residents and students can use the Information Assessment Method to stimulate (and document) their reflective learning
2. teachers can use the Information Assessment Method to engage trainees and obtain constructive feedback

W75680**10:45-12:00****How to Be a Triple C Teacher (1)**

Eric Wong, MD, CCFP, London, ON; College of Family Physicians of Canada's (CFPC's) Triple C Competency Based Curriculum Task Force

ROOM / SALLE : 303B – QCCC / CCQ*Learning objectives:*

1. describe an approach to learner supervision consistent with Triple C
2. identify CFPC resources that can support clinical teachers within a Triple C curriculum
3. identify personal or practice changes to be made to become a Triple C teacher

12:00-13:00**Lunch / Dîner****ROOM / SALLE : 2000A – QCCC / CCQ****LEGEND / LÉGENDE**

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

SCIENTIFIC PROGRAM — WEDNESDAY 12 MERCREDI — PROGRAMME SCIENTIFIQUE PRE-CONFERENCE – JOURNÉE PRÉCONFÉRENCE

WEDNESDAY • MERCREDI

W75214 Exploring FM Education Phases Across a Competency-based Learning Continuum

13:00-15:00 Presenters: CFPC-FMEC-PG Collaboration
ROOM / SALLE : 308B – QCCC / CCQ

Learning objectives:

1. consider the phases of learning and the pros and cons, challenges and benefits of enhanced transitions if competency-based approaches are adopted
2. explore different pedagogical methods emerging in the literature to mark different phases of medical education and provide reflections on what might work best for family medicine
3. provide reflections for the CFPC and our representative leaders in the FMEC Projects on transitions along the learning continuum

MW54737 Pièges et astuces lors de la supervision de l'entrevue motivationnelle

13:00-15:00 *Traps and Tricks When Supervising the Motivational Interview*
Bernard Martineau, MD, CCMF, FCMF, MA, DipES, Sherbrooke, QC; Steve Balkou, MSc, Sherbrooke, QC
ROOM / SALLE : 303B – QCCC / CCQ

Objectifs d'apprentissage :

1. identifier les embûches à appliquer à l'entrevue motivationnelle
2. aider le résident en supervision à appréhender les pièges souvent rencontrés lors du changement d'habitudes de vie
3. outiller les résidents à mieux utiliser l'entrevue motivationnelle

Learning objectives:

1. identify potential pitfalls when using the motivational interview
2. help the resident, during supervision, to recognize the traps that lie in wait for patients when changing an unhealthy lifestyle
3. supply the tools residents need to apply the motivational interview

W55101 Predicting Performance of Family Medicine Residents Using a Critical Thinking Skills Test

13:00-15:00 Shirley Schipper, MD, CCFP, Edmonton, AB; Kim Loeffler, MD, CCFP, Edmonton, AB; David Ross, MD, CCFP, Edmonton, AB; Shelley Ross, PhD, Edmonton, AB; Mike Allan, MD, CCFP, Edmonton, AB
ROOM / SALLE : 304B – QCCC / CCQ

Learning objectives:

1. describe the use and validity of the California Critical Thinking Skills Test in professional training programs
2. examine the relationship between critical thinking skills of family medicine residents and academic and clinical performance
3. debate the implications of using a critical thinking skills test in residency programs, including the selection of trainees and critical thinking skills teaching

W55800 Teaching Professionalism: Collegial conversations with our learners

13:00-15:00 James Coertzen, MD, MClSc, CCFP, FCFP, Thunder Bay, ON
ROOM / SALLE : 309B – QCCC / CCQ

Learning objectives:

1. discuss the contextual nature of professionalism and the critical role of preceptors in the development of professionalism by their learners
2. demonstrate professionalism to learners in clinical practice by role modeling and purposeful preceptoring
3. apply effective strategies for dealing with unprofessional behaviour during a clinical placement

M56031 La position d'apprentissage : un incontournable pour le développement des compétences

13:00-15:00 Cynthia Cameron, MD, CCMF, St-Romuald, QC; Christian Rheault, MD, CCMF, Québec, QC; Marie Giroux, MD, FCMF, Sherbrooke, QC; Danielle Saucier, MD, CCMF, FCMF, MA(Ed), Québec, QC
ROOM / SALLE : 309A – QCCC / CCQ

Objectifs d'apprentissage :

1. différencier « position d'apprentissage » et « position d'évaluation »
2. connaître les stratégies possibles pour adopter ou faire adopter une meilleure position d'apprentissage
3. discuter des impacts d'une telle approche sur l'enseignement et la relation superviseur-supervisé

W56280 Supporting Residents: A national discussion

13:00-15:00 Willa Henry, MD, CCFP, FCFP, Vancouver, BC; Steven Beerman, MD, CCFP, Nanaimo, BC
ROOM / SALLE : 307AB – QCCC / CCQ

Learning objectives:

1. share experiences across programs regarding resident stress
2. identify factors that affect residents' well-being and explore methods of quantifying resident stress and stress impact
3. discuss interventions or advocacy needs that programs can use to support residents

SCIENTIFIC PROGRAM — WEDNESDAY 12 MERCREDI — PROGRAMME SCIENTIFIQUE PRE-CONFERENCE – JOURNÉE PRÉCONFÉRENCE

WEDNESDAY • MERCREDI

W57082 13:00-15:00	Helping the Good Resident Reach His or Her Full Potential: The use of the individualized learning plan Aider le bon résident à atteindre son plein potentiel : utilisation du plan d'apprentissage individualisé Luce Pélissier-Simard, MD, CCMF, MSc, FCFM, Sherbrooke, QC; Carole Bernier, MD, CCMF, FCFM, Sherbrooke, QC
ROOM / SALLE : 301A – QCCC / CCQ	

Learning objectives:

1. compare different learning plans implemented in different postgraduate family medicine programs and identify best practices
2. accompany a resident through his or her learning and reflective process, including documentation of goals and progress using a learning plan
3. use the learning plan as a communication tool and link between the different residency environments, contexts, and different preceptors

M57582 13:00-15:00	Évaluation axée sur les compétences : stratégies et outils dans le programme de l'Université Laval <i>Laurence Arena-Daigle, MD, CCMF, Québec, QC; Miriam Lacasse, MD, MSc, CCMF, Québec, QC; Marie-Hélène Dufour, MD, CCMF, Québec, QC; Josette Castel, MD, MSc, CCMF, Québec, QC</i>
ROOM / SALLE : 303A – QCCC / CCQ	

Objectifs d'apprentissage :

1. expliquer la stratégie d'implantation de l'évaluation par compétences du programme de médecine familiale de l'Université Laval
2. analyser les outils d'évaluation par compétences développés par le programme
3. échanger sur les stratégies de formation professorale à favoriser pour faciliter l'utilisation des outils sur le terrain

W75177 13:00-15:00	Conversations That Are “Crucial” to Resident Progression: The periodic assessment of progress <i>Cheri Bethune, MD, CCFP, FCFP, St. John's, NL; Theresa van der Goes, MD, CCFP, Nanaimo, BC; and other members of the CFPC Working Group on the Certification Process</i>
ROOM / SALLE : 301B – QCCC / CCQ	

Learning objectives:

1. describe concept of coaching, the tasks of the “competency coach,” and the important steps in preparation and follow-up to the periodic review by the resident/faculty advisor and program administration
2. share strategies and tips to enhance the effectiveness of the periodic review of learners’ progress and share the tools they have developed in their individual programs to assist residents in reflection on their learning progression
3. explore ways to evaluate the effectiveness of a program of progress reviews on learner achievement

W75180 13:00-15:00	Setting Yourself Up for Success: Strategic leadership development <i>David Keegan, MD, CCFP(EM), FCFP, Calgary, AB</i>
ROOM / SALLE : 308A – QCCC / CCQ	

Learning objectives:

1. describe common leadership pitfalls and corresponding solutions experienced by people with personalities similar to their own
2. describe and conduct a personal wellness wheel audit and a personal leadership skill audit
3. describe and start to develop a personal leadership strategic plan (including mentorship and academic scholarship success)

15:00-15:15	Break / Pause
15:15-16:10	Free Standing Paper (Oral) Presentations / Présentations libres (orales)

DAILY BADGE SCAN REQUIRED – PROOF OF PARTICIPATION: Remember to have your name badge scanned EACH DAY by a CFPC staff member throughout the conference. Self-scanning stations are also available throughout the conference venues. All scanned registrants will receive a letter confirming attendance at Family Medicine Forum 2014 by January 1, 2015. **Please note that these letters are not available for pick-up on-site.**

SCANNAGE QUOTIDIEN DE L'INSIGNE OBLIGATOIRE – PREUVE DE PARTICIPATION : N'oubliez pas de faire scanner votre insigne d'identité CHAQUE JOUR par un membre du personnel du CMFC durant toute la conférence. Des postes de lecteur code-barre se trouveront aussi un peu partout sur les lieux de la conférence. Tous les participants inscrits dont l'insigne aura été scanné recevront une lettre confirmant leur participation au Forum en médecine familiale 2014 avant le 1^{er} janvier 2015. **Veuillez noter que ces lettres ne seront pas disponibles sur place.**

Session cancellation: The College reserves the right to cancel session(s) due to unforeseen circumstances and cannot accept responsibility for out-of-pocket expenses incurred due to the cancellation of any session.

Annulation de séance : Le Collège se réserve le droit d'annuler une ou plusieurs séances s'il survient des événements imprévus et ne sera pas responsable de toute menue dépense encourue en raison de l'annulation d'une séance.

SCIENTIFIC PROGRAM — THURSDAY 13 JEUDI — PROGRAMME SCIENTIFIQUE

T79849 **Residency PBSG Networking Breakfast**
07:00-08:00 **ROOM / SALLE : 303B – QCCC / CCQ**

Looking for tips for running PBSG sessions in your residency program? Interested in how PBSG can be used to help residents with transition to practice? Learn from others who are using residency PBSG across the country. Dr. Sarah Kinzie, Residency Director for the Foundation for Medical Practice Education will be leading this session. Please join us in room 303B for an open discussion about using PBSG in residency programs

T67256 **Global Health Breakfast Networking Breakfast Discussion: Would you like a Certificate of Added Competency (CAC) in Global Health?**
07:00-08:00 **ROOM / SALLE : 303A – QCCC / CCQ**

T75683 **Researchers in Education Breakfast**
07:00-08:00 **ROOM / SALLE : 301A – QCCC / CCQ**

Please join us for our Third Annual Family Medicine Educators/Researchers Networking Breakfast to connect with colleagues conducting like-minded research and to share your current and prospective research ideas.

T80776 **Dal/MUN Breakfast Meeting** **BY INVITATION ONLY**
07:00-08:00 **ROOM / SALLE : 304B – QCCC / CCQ**

T75403 **Mainpro+ ... A New Look, With New Ways to Learn (1)**
07:00-08:00 **Janice Harvey, MD, CCFP, FCFP, Dundas, ON; Dominique Tessier, MD, CCMF, FCMF, Montréal, QC;**
Jim Thorsteinson, MD, CCFP, FCFP, Vancouver, BC; Khurram Jahangir, MD, CCFP(EM), FCFP, Edmonton, AB;
Teresa Wawrykow, MD, CCFP(EM), Winnipeg, MB; Eric Wong, MD, CCFP, London, ON;
Scott MacDonald, MD, CCFP(EM), FCFP, Bedford, NS
ROOM / SALLE : 308A – QCCC / CCQ

Join us for an informative session on the updates to Mainpro coming soon. Get to know who your Regional Educator is and hear about the exciting changes, which will offer more intuitive, self-directed learning opportunities. You will learn how easy it is to earn credits for practice activities you do on a daily basis. The CFPC is committed to providing quality CPD to meet your changing interests and learning needs.

Participants may claim an additional Mainpro-M1 credit for this session.

JT100  **DISCOURS D'OUVERTURE / KEYNOTE ADDRESS**
08:00-09:30 **« L'art peut-il changer le monde ? »**
“Can Art Change the World?”
Gil Favreau, Directeur, Action et responsabilité sociales / Director, Social Action and Community Relations Service Citoyenneté / Global Citizenship Service, Montréal, QC
ROOM / SALLE : 200ABC – QCCC / CCQ

T52641 **Smoking in Chronic Pain: Should they butt out?**
10:00-10:30 **Alan Kaplan, MD, CCFP(EM), FCFP, Richmond Hill, ON**
ROOM / SALLE : 306A – QCCC / CCQ

Learning objectives:

1. understand how cigarette smoking is linked to chronic pain
2. incorporate smoking cessation strategies into chronic pain treatment
3. integrate smoking cessation strategies with chronic pain therapy in clinical practice

T57363 **Setting up Antimicrobial Stewardship in a Geriatric Facility: The Baycrest experience**
10:00-10:30 **Nina Kassett, BScPhm, RPh, Toronto, ON; Aidlee Craft, MD, CCFP, FCFP, Toronto, ON;**
Michael P. Kirzner, MD, CCFP, Toronto, ON
ROOM / SALLE : 309A – QCCC / CCQ

Learning objectives:

1. analyze the development of an antimicrobial stewardship program and apply basic principles to their institution
2. select an appropriate priority project for their institution

3. utilize appropriate metrics to measure the success of the program

T57514 Women and Cardiovascular Disease: Unique risk factors across the lifespan
10:00-10:30 Karen Fleming, MD, MSc, CCFP, FCFP, Toronto, ON
ROOM / SALLE : 309B – QCCC / CCQ

Learning objectives:

1. identify unique risk factors across the lifespan that identify women at future risk of CVD
2. understand barriers faced by physicians and women in implementing risk reduction programs in primary care
3. develop strategies to implement screening and risk factor reduction in their practice settings for high-risk women

J68873 Les problèmes de jeux de hasard et d'argent au Québec : épidémiologie, déterminants, prévention et intervention
10:00-11:00 Elisabeth Papineau, PhD, Montréal, QC; Isabelle Giroux, PhD, Québec, QC
ROOM / SALLE : 2104AB – QCCC / CCQ

Objectifs d'apprentissage :

1. sensibiliser les médecins aux problèmes de jeux de hasard et d'argent
2. familiariser les médecins avec les principales données épidémiologiques et les déterminants des problèmes de jeu
3. familiariser les médecins avec les meilleures pratiques préventives et cliniques

T51333 Simple Approach to Red Eye: Evidence, pearls, and medicolegal pitfalls
10:00-11:00 Simon Moore, MD, CCFP, Vancouver, BC
ROOM / SALLE : 306B – QCCC / CCQ

Learning objectives:

1. confidently differentiate various red eye diagnoses, avoiding common medicolegal pitfalls
2. safely prescribe therapeutics for red eye, including antibiotics, according to recent evidence
3. quickly identify simplified red eye red flags requiring urgent referral

T55640 How Poverty, Intellectual Disability, and Cultural Factors Can Impact Health Outcomes: A look at social determinants of health
10:00-11:00 Patricia Mousmanis, MD, CCFP, FCFP, Richmond Hill, ON; Liz Grier, MD, CCFP, FCFP, Kingston, ON; Katherine Rouleaux, MD, CCFP, FCFP, Toronto, ON; Lisa Graves, MD, CCFP, FCFP, Ancaster, ON; Ruth Elwood Martin, MD CCFP, FCFP, Vancouver, BC; Tom Gabruch, MD, CCFP, FCFP, Regina, SK; Stephen Cashman, Winnipeg, MB
ROOM / SALLE : 202 – QCCC / CCQ

Learning objectives:

1. distinguish how social determinants of health (poverty, lack of education, lack of social supports) can impact clinical health and child developmental outcomes
2. demonstrate strategies to be used in screening proactively and summarize how to modify high-risk social factors in families, teens, children, and pregnancy
3. generate an action plan for families at high risk for management of medical conditions and link them to community resources to improve clinical outcomes

T56825 A Clinical Algorithm for the Detection, Monitoring, and Management of Chronic Kidney Disease in Primary Care
10:00-11:00 Allan Grill, MD, CCFP, MPH, Toronto, ON
ROOM / SALLE : 2000B – QCCC / CCQ

Learning objectives:

1. identify which patients in a typical family practice are at higher risk for chronic kidney disease (CKD)
2. clarify which investigations to order for patients at high risk for CKD and how to interpret the results

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

3. present a practical clinical algorithm that outlines the role of the primary care practitioner in managing patients with CKD and the criteria for appropriate referral to nephrology

TJ68840 10:00-11:00	What's New? The top ten research studies that will impact clinical practice for family physicians <i>Quoi de neuf? Les dix meilleures études de recherche qui changeront la pratique clinique pour les médecins de famille</i> David Kaplan, MD, CCFP, Toronto, ON; David White, MD, CCFP, Toronto, ON; Moderator / Modératrice, Wendy Norman, MD, CCFP, FCFP, Vancouver, BC ROOM / SALLE : 2000A – QCCC / CCQ
--------------------------------	---

Learning objectives:

1. synthesize clinically relevant research presented at the primary care annual research meeting (NAPCRG)
2. stimulate the interest of practicing family physicians in primary care research

Objectifs d'apprentissage :

1. synthétiser des recherches cliniquement pertinentes qui ont été présentées lors de la conférence annuelle du NAPCRG
2. stimuler l'intérêt des médecins de famille praticiens en matière de recherche en soins primaires

T57448 10:00-11:00	Weaving Art and Creativity Into Your Practice and Community Jeff Nachrigall, Saskatoon, SK ROOM / SALLE : 307AB – QCCC / CCQ
-------------------------------	--

Medical Humanities Theatre / Théâtre des sciences humaines de la santé**Learning objectives:**

1. identify ways in which art can be more accessible to family physicians as a resource to their patients and communities

T57604 10:00-11:00	Turning Fieldnotes Upside Down: Learner feedback to preceptors Kevin Desmarais, BSc, MD, Edmonton, AB; Sudha Koppula, BSc(Hon), MD, MCISc, CCFP, Edmonton, AB ROOM / SALLE : 303A – QCCC / CCQ
-------------------------------	--

Learning objectives:

1. reinforce the utility of field notes as a valuable form of immediate feedback
2. describe the use of field notes created by learners as a tool to provide feedback to preceptors
3. discuss the potential of this feedback as a form of reflection and improvement on teaching practices

T57903 10:00-11:00	Social Media: Leveraging the network to enhance your practice community Naheed Dosani, MD, CCFP, Toronto, ON; Stephen Pomedli, MD, MSc, CCFP, Toronto, ON ROOM / SALLE : 206B – QCCC / CCQ
-------------------------------	--

Learning objectives:

1. review basic elements of managing social media streams such as Twitter, Facebook, and LinkedIn
2. learn about and describe a network of Canadian physicians on Twitter
3. develop a plan to take advantage of existing social media networks to meet your practical goals, whether they relate to continuing medical education, advocacy, or professional networking

T75237 10:00-11:00	Updates From the Future of Medical Education in Canada Postgraduate Project FMEC-PG Management Consortium (The College of Family Physicians of Canada [CFPC], The Royal College of Physicians and Surgeons of Canada [RCPSC], Association of Faculties of Medicine of Canada [AFMC] and Collège des médecins du Québec [CMQ]) ROOM / SALLE : 303B – QCCC / CCQ
-------------------------------	--

Learning objectives:

1. understand progress made on FMEC-PG recommendations related to aligning accreditation, enhancing transitions, and advancing new models of governance for postgraduate education
2. share feedback to inform the FMEC-PG consortium on family medicine's perspectives on these recommendations

J57789 10:00-12:15	Unités d'enseignement interprofessionnelles en soins de première ligne pour les personnes âgées Paule Lebel, MD, MSc, Montréal, QC; Louise Authier, MD, CCFM, FCFM, Montréal, QC; Hugues de Lachevrotière, MD, Montréal, QC ROOM / SALLE : 304B – QCCC / CCQ
-------------------------------	---

Objectifs d'apprentissage :

1. discuter des besoins sociétaux et éducatifs qui mènent au développement de compétences chez les futurs professionnels de première ligne
2. clarifier le concept des unités d'enseignement interprofessionnelles de première ligne en soins aux personnes âgées, en contextes de

pratique de bureau, de soins à domicile, de soins en CHSLD

3. identifier les facteurs facilitants et les obstacles à l'implantation de ces unités d'enseignement interprofessionnelles et proposer des solutions concrètes

T57326 Advanced Field Note Use: The next generation
10:00-12:15

Tom Laughlin, MD, CCFP, FCFP, Moncton, NB; Sasha Cormier, MD, Moncton, NB; Tim Allen, MD, MCFP(EM), FRCPC, MA(Ed), Toronto, ON; Tom Crichton, MD, CCFP, FCFP, Sudbury, ON; Kathrine Lawrence, Bsc, MD, CCFP, FCFP, Regina, SK; Cheri Bethune, MD, MCISc, CCFP, FCFP, St. John's, NL; Carlos Brailovsky, MD, MA(Ed), MCFPC, Québec, QC; Michel Donoff, MD, CCFP, FCFP, Edmonton, AB; Karen Schultz, MD, CCFP, FCFP, Kingston, ON; Theresa Van Der Goes, MD, CCFP, Nanaimo, BC;

ROOM / SALLE : 301A – QCCC / CCQ
Learning objectives:

1. refresh your familiarity with an effective tool (field note) and its use in gathering behaviour-based information in the workplace
2. use the gathered information in formative and summative assessment with effective coaching and narrative reporting
3. use the CFPC Evaluation Objectives to identify areas for focus and clarification to facilitate assessment and coaching

T57184 Accreditation of Postgraduate Programs: Demystifying the process
10:00-12:15

Louise Nasmith, MD CM, CCFP, FCFP, Vancouver, BC; Keith Wycliffe-Jones, MD, CCFP, Calgary, AB; Judith Scott, Mississauga, ON

ROOM / SALLE : 304A – QCCC / CCQ

This 2-hour workshop is meant to assist programs as well as potential surveyors on better understanding the elements of an accreditation survey visit.

Learning objectives:

1. acquire knowledge about the PG accreditation process that is relevant to their situation and role
2. be better equipped to prepare for an accreditation survey and its various components (eg, PSQ completion; local preparation)
3. develop specific skills needed as a surveyor (interviewing; deliberating)

T57517 Training Pathways for Family Physician Researchers in Canada
10:00-14:45

Wendy Norman, MD, CCFP, FCFP, Vancouver, BC

BY INVITATION ONLY
ROOM / SALLE : 301B – QCCC / CCQ
T55576 Benign vs Cancerous Skin Lesions: How to tell the difference
10:30-11:00

Christie Freeman, MD, CCFP, DipPDERM, MSc, Peterborough, ON

ROOM / SALLE : 200A – QCCC / CCQ
Learning objectives:

1. take a focused history and perform a directed physical exam when faced with a skin lesion
2. recognize clinical patterns common to benign lesions and differentiate these from patterns of malignant lesions
3. identify which of these lesions can be treated in the office, which should be referred, and understand which lesions require more urgent referral

T56518 Positive Thinking and Effective Communication: An approach to improved pain management
10:30-11:00

Lydia Hatcher, MD, CCFP, FCFP, Ancaster, ON

ROOM / SALLE : 306A – QCCC / CCQ
Learning objectives:

1. learn basic skills in an approach to using positive thinking for your patients and yourself as caregiver
2. discuss appropriate communication techniques for different patient scenarios, including therapeutic listening and goal setting
3. incorporate acceptance of chronic pain and commitment to therapy as part of routine pain management

T57810 Getting Briefed on Infectious Disease Trends in Canada
10:30-11:00

Patricia Huston, MD, MPH, CCFP, Ottawa, ON

ROOM / SALLE : 206A – QCCC / CCQ
Learning objectives:
LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

SCIENTIFIC PROGRAM — THURSDAY 13 JEUDI — PROGRAMME SCIENTIFIQUE

1. identify key trends on emerging infectious diseases in Canada, such as Lyme disease, including the latest on diagnosis and treatment
2. know when to call local public health in managing an infectious disease
3. describe the information cycle for reportable diseases and identify a new resource on infectious diseases in Canada

T57849 Anemia in the Elderly

10:30-11:00 Amy Freedman, MD, CCFP, Toronto, ON
ROOM / SALLE : 2000D – QCCC / CCQ

Learning objectives:

1. review the most common presentations and causes of anemia in the elderly
2. apply a step-wise approach to the work-up of anemia based on a limited number of laboratory tests
3. effectively manage microcytic, normocytic, and macrocytic anemias

T49635 The Importance of Narratives in Family Medicine

11:15-11:45 Magbule Doko, MD, BSc, Windsor, ON
ROOM / SALLE : 307AB – QCCC / CCQ

Medical Humanities Theatre / Théâtre des sciences humaines de la santé

Learning objectives:

1. define narrative medicine
2. discuss the three movements of narrative medicine
3. discuss how narrative medicine benefits the medical profession and patients

T53501 Preschool Pediatric Asthma: Who needs treatment?

11:15-11:45 Alan Kaplan, MD, CCFP(EM), FCFP, Richmond Hill, ON; John Li MD, MCFP, Moncton, NB
ROOM / SALLE : 200B – QCCC / CCQ

Learning objectives:

1. review the different types of "asthma" seen in a preschooler
2. identify which children need longer-term treatment and which will "outgrow" their asthma
3. review treatment approaches for these children

T57868 Prevention of Chronic Pain

11:15-11:45 Bruce Hollett, MD, CCFP, St. John's, NL
ROOM / SALLE : 306A – QCCC / CCQ

Learning objectives:

1. understand the pathophysiology concerning chronic pain to develop potential treatment targets
2. identify and address potential situation to prevent chronic pain
3. develop a therapeutic strategy for prevention of chronic pain

T76319 Emerging Perspectives Impacting Family Medicine: The Future of Medical Education in Canada Postgraduate Project

FMEC-PG Management Consortium (The College of Family Physicians of Canada [CFPC], The Royal College of Physicians and Surgeons of Canada [RCPSC], Association of Faculties of Medicine of Canada [AFMC], and Collège des médecins du Québec [CMQ])

ROOM / SALLE : 303B – QCCC / CCQ

Learning objectives:

1. explore in detail one of FMEC-PG's 10 recommendations
2. provide reflections on this recommendation and consider how it will influence the CFPC and family medicine education in general

J54358 Comment gérer la douleur en soins palliatifs

11:15-12:15 Golda Tradounsky, MD, CCMF, Montréal, QC
ROOM / SALLE : 306B – QCCC / CCQ

Objectifs d'apprentissage :

1. être capable de prescrire des opiacés et des adjutants analgésiques
2. ficelles du métier : être capable d'éviter, de reconnaître et de gérer les effets secondaires des opiacés
3. connaître les nouveaux médicaments analgésiques

JT68835 ♀ Stratégies préventives pour une pratique médicale durable

11:15-12:15 Preventative Strategies for a Viable Medical Practice

Sandra Roman, MD, CCMF, Montréal, QC

ROOM / SALLE : 200C – QCCC / CCQ

Objectifs d'apprentissage :

1. discuter des données de littérature sur la santé des médecins
2. définir la résilience dans le contexte de la pratique médicale
3. mettre en place des stratégies préventives tant sur le plan individuel qu'organisationnel

Learning objectives:

1. discuss evidence on physician health from literature
2. define resilience in the context of medical practice
3. implement preventative strategies both on an individual and an organizational level

T53046 Commonly Missed Orthopedic Injuries in the ED**11:15-12:15** Vu Kiet Tran, MD, CCFP(EM), FCFP, MHSc, MBA, Richmond Hill, ON**ROOM / SALLE : 200A – QCCC / CCQ****Learning objectives:**

1. recognize the pitfalls of missing an orthopedic injury on radiography
2. enumerate the most commonly missed orthopedic injuries on radiography
3. recognize some common radiographic signs of occult orthopedic injuries

T56625 The 6 for 6 Program: Building a scholarly research program for rural and remote family medicine faculty**11:15-12:15** Cheri Bethune, MD, MCISc, CCFP, FCFP, St. John's, NL; Patti McCarthy, MSc, PhD(c), St. John's, NL**ROOM / SALLE : 303A – QCCC / CCQ****Learning objectives:**

1. recognize barriers to engaging in scholarly research activity that exist for rural and remote family medicine physicians
2. describe the planning, design, and implementation phases of the 6 for 6 Program
3. explore strategies for designing and implementing a scholarly research curriculum for rural and remote faculty

T57603 From Swordfish to Skydiving: Common patient questions during pregnancy**11:15-12:15** Sudha Koppula, BSc(Hon), MD, MCISc, CCFP, Edmonton, AB; Sonya Lee, MD, CCFP, Calgary, AB**ROOM / SALLE : 2000B – QCCC / CCQ****Learning objectives:**

1. consider how family physicians should discuss exposure and activity risk with patients
2. explore common questions patients ask during normal pregnancy, and therefore discuss current evidence for safety-related topics in pregnancy
3. present useful resources for clinical practice

T57854 From Afghanistan to Zimbabwe: Addressing the health needs of refugees in Canada**11:15-12:15** Praseedha Janakiram, MD, CCFP, Toronto, ON; Vanessa Redditt, MD, CCFP, Toronto, ON;

Vanessa Wright, NP-PHC, MScN, Toronto, ON; Roseanne Hickey, NP-PHC, Toronto, ON;

Meb Rashid, MD, CCFP, Toronto, ON

ROOM / SALLE : 202 – QCCC / CCQ**Learning objectives:**

1. implement key preventative health screening and primary care interventions relevant to refugee populations in Canada
2. identify key resources to guide clinical care of refugee patients
3. explore barriers to access to care for refugees

T57867 Chronic Kidney Disease in the Elderly**11:15-12:15** Amy Freedman, MD, CCFP, Toronto, ON; Vanita Jassal, MD, FRCPC**ROOM / SALLE : 2000D – QCCC / CCQ****Learning objectives:**

1. identify those elderly at risk for CKD and initiate appropriate tests for screening and staging
2. recognize the most common comorbid and medication issues in patients with CKD
3. provide key points that lead to effective discussions around initiating dialysis versus a symptom management approach in end-stage renal disease in the elderly

T57895 Follow the LEADer: LEADING practices applying digital health to primary care**11:15-12:15** Rashaad Bhyat, MD, CCFP, Toronto, ON**ROOM / SALLE : 206B – QCCC / CCQ****LEGEND / LÉGENDE**

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

SCIENTIFIC PROGRAM — THURSDAY 13 JEUDI — PROGRAMME SCIENTIFIQUE

Learning objectives:

1. recognize how EMRs, along with EHRs and other digital applications, help to coordinate complex care across the care continuum
2. formulate strategies to engage interdisciplinary care teams to optimally use information systems—technology is a team sport
3. identify three clinical decision support tools that have contributed to positive outcomes for patients and high-risk populations

T54298 The Nonpharmacological Chronic Pain Toolbox: Self-management and mindfulness meditation

11:45-12:15 Ruth Dubin, PhD, MD, CCFP, FCFP, Kingston, ON

ROOM / SALLE : 306A – QCCC / CCQ

Learning objectives:

1. understand how the Stanford self-management program and mindfulness meditation for chronic pain reduce patients' depression and improve function
2. recognize the benefits of these inexpensive group programs to the health care system
3. learn how to bring these programs to your community

T54363 Adult Asthma: Clinical pearls for diagnosis and management

11:45-12:15 Robert Hauptman, BMSc, MD, MCFP, St. Albert, AB

ROOM / SALLE : 200B – QCCC / CCQ

Learning objectives:

1. review the problem of adult asthma in Canada
2. discuss diagnostic challenges when patients present with symptoms of asthma
3. discuss effective management strategies for adult asthma

T57767 Volunteer Engagement in Primary Care: Lessons learned from the TAPESTRY pilot study

11:45-12:15 Doug Oliver, MSc, MD, CCFP, Hamilton, ON

ROOM / SALLE : 307AB – QCCC / CCQ

Medical Humanities Theatre / Théâtre des sciences humaines de la santé

Learning objectives:

1. share the processes used to recruit and train volunteer pairs to visit older adults in their homes
2. describe how volunteers can be used to support information sharing to and from the primary care team
3. generate feedback and ideas about the use of volunteers within primary care

T57881 Screening, Brief Intervention, and Referral of Adolescents or Young Adults With Substance Misuse

11:45-12:15 Ramm Hering, MD, CCFP, Toronto, ON

ROOM / SALLE : 206A – QCCC / CCQ

Learning objectives:

1. review diagnostic criteria for DSM-V substance use disorders (SUDs)
2. review tools useful for screening adolescents for SUDs
3. describe approaches to initial management of adolescents with suspected SUDs

12:30-13:30 CFPC Annual Meeting of Members / Assemblée annuelle des membres du CMFC

ROOM / SALLE : 2000A – QCCC / CCQ

J57782 Enseigner le rôle du médecin de famille face à la dimension spirituelle de ses patients

13:45-14:15 Sharon Hatcher, MD, CCMF, FCMF, Chicoutimi, QC; Christian Bouchard, Chicoutimi, QC

ROOM / SALLE : 307AB – QCCC / CCQ

Théâtre des sciences humaines de la santé / Medical Humanities Theatre

Objectifs d'apprentissage :

1. mieux comprendre les répercussions psycho-spirituelles chez le patient qui rencontre son médecin
2. s'approprier quelques outils pratiques d'intervention auprès des patients relativement à leur dimension spirituelle
3. partager quelques pistes d'approche pédagogique concernant nos résidents qui se préparent pour leur pratique future

T54378 The Asthma/COPD Overlap Syndrome: Another disease?

13:45-14:15 Alan Kaplan, MD, CCFP(EM), FCFP, Richmond Hill, ON

ROOM / SALLE : 200B – QCCC / CCQ

Learning objectives:

1. learn about the newly defined asthma/COPD overlap syndrome (ACOS)
2. list the five diagnostic steps for ACOS
3. demonstrate the use of an algorithmic approach to understand how to treat and assess success of the ACOS

J54232**Espoir : peut-on l'enseigner ?****13:45-14:45**

Yves Lambert, MD, CCMF, FCFM, Longueuil, QC; Thérèse Baribeau, BA, Longueuil, QC

ROOM / SALLE : 303B – QCCC / CCQ**Objectifs d'apprentissage :**

1. définir les composantes de l'espoir
2. voir comment ces composantes s'appliquent à la pratique médicale
3. explorer comment on peut appliquer la pédagogie de l'espoir à notre environnement professionnel

TJ57252**Test Your Contraception IQ****13:45-14:45****Mettez à l'épreuve vos connaissances sur la contraception**

Mathieu Leboeuf, MD, Québec, QC

ROOM / SALLE : 200C – QCCC / CCQ**Learning objectives:**

1. separate fact from myth with respect to common beliefs about birth control
2. identify opportunities to change contraceptive practices, reduce failure, and improve satisfaction
3. reassure patients about the relative safety of contraception and provide information with confidence

Objectifs d'apprentissage :

1. distinguer les faits des mythes concernant les croyances courantes sur les contraceptifs
2. identifier des occasions de changer les pratiques en matière de contraception, réduire les échecs et améliorer la satisfaction
3. rassurer les patientes sur l'innocuité relative de la contraception et offrir de l'information avec assurance

J57575**Le Centre de médecine de famille : une vision d'excellence qui soutient votre expertise au quotidien****13:45-14:45**

Maxine Dumas Pilon, MD, CCMF, Montréal, QC; Paul Sawchuk, MD, MBA, CCFP, FCFP, Winnipeg, MB Eric Mang, MPA, Mississauga, ON; Claude Rivard, MD, CCFP, St-Bruno, QC

ROOM / SALLE : 206B – QCCC / CCQ**Objectifs d'apprentissage :**

1. décrire comment les dossiers médicaux électroniques (DMÉ) contribuent à améliorer l'efficacité des services offerts aux patients
2. discuter de l'importance de l'accès adapté
3. clarifier des enjeux complémentaires des soins complets et globaux centrés sur le patient, des besoins populationnels et de la santé publique

T53861**Diagnosing the Learner in Difficulty****13:45-14:45**

Christie Newton, MD, CCFP, FCFP, Port Moody, BC; Willa Henry, MD, CCFP, FCFP, Vancouver, BC

ROOM / SALLE : 304B – QCCC / CCQ**Learning objectives:**

1. list common signs of a learner in difficulty
2. identify causal factors that influence a learner in difficulty
3. diagnose a learner in difficulty from a given case study and recommend relevant strategies to support this learner

T55639**Reefer Madness From Cradle to Grave: Information on new Canadian legislation for comprehensive care family physicians****13:45-14:45**

Patricia Mousmanis, MD, CCFP, FCFP, Richmond Hill, ON; Lisa Graves, MD, CCFP, FCFP, Ancaster, ON;

Ruth Dubin, PhD, MD, CCFP, FCFP, Kingston, ON; Ruth Elwood Martin, MD, CCFP, FCFP, Vancouver, BC;

Sharon Cirone, MD, CCFP(EM), ASAM(Cert), FCFP, Toronto, ON; Roxanne McKnight, MD, CCFP, FCFP, Fredericton, NB

ROOM / SALLE : 2000B – QCCC / CCQ**Learning objectives:**

1. describe the evidence for use of marijuana in treatment of medical conditions
2. outline the risks of marijuana use for teens, young children, pregnant women, and breastfeeding mothers
3. understand a harm reduction approach to patient education about safer marijuana use

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

T57473 To Peanut or Not to Peanut: Age of introduction of allergenic foods13:45-14:45 *Elissa Abrams, MD, FRCPC, Winnipeg, MB***ROOM / SALLE : 200A – QCCC / CCQ*****Learning objectives:***

1. understand the evidence that led to a revision of the AAP (and subsequently the CPS) guidelines recommending earlier food introduction
2. provide an approach to counseling families on maternal diet, breastfeeding, and food introduction and their relation to atopic disease in the young child
3. understand the evidence that led to the original AAP guidelines recommending a delay in allergenic food introduction

TJ77011 Back to the Future: The family physicians of today meet the family doctors of tomorrow13:45-14:45 *« Retour vers le futur » : Les médecins de famille d'aujourd'hui rencontrent les médecins de famille de demain**Pierre-Paul Tellier, MD, CCMF, FCFMF, Montréal, QC; Cheri Bethune, MD, CCFP, FCFP, St. John's, NL***ROOM / SALLE : 301A – QCCC / CCQ*****Learning objectives:***

1. gain valuable insight and advice about careers in family medicine
2. discuss practice opportunities in family medicine
3. ease the transition into primary care

Objectifs d'apprentissage :

1. obtenir des renseignements et des conseils judicieux sur une carrière en médecine familiale
2. discuter des possibilités de pratiquer la médecine familiale
3. faciliter la transition vers les soins primaires

T57572 Deep Vein Thrombosis and Pulmonary Embolism: Diagnosis and management in the family medicine setting13:45-14:45 *Pascal Bastien, MD, Toronto, ON; James Douketis, MD, FRCPC, Hamilton, ON***ROOM / SALLE : 202 – QCCC / CCQ*****Learning objectives:***

1. confirm or rule out the diagnosis of deep vein thrombosis and/or pulmonary embolism with appropriate diagnostic tests and imaging
2. treat deep vein thrombosis with the most effective pharmacologic and non-pharmacologic strategies, in a timely manner, and for the appropriate duration
3. identify and treat patients with pulmonary embolism who can receive effective pharmacologic treatment without the need for hospitalization

T57574 Delivering Accountability to Patients: Alternatives to litigation13:45-14:45 *Florin Padeanu, LLB, MD, CCFP, Winnipeg, MB***ROOM / SALLE : 306A – QCCC / CCQ*****Learning objectives:***

1. recognize the legal implications of adverse patient outcomes
2. consider the role of compensation, accountability, and resolution from the physician and patient perspectives
3. explore the alternatives to the adversarial legal system in resolving medical legal disputes

T57887 Integrating a Palliative Care Philosophy Into the Care of Frail Older Adults13:45-14:45 *Irene Ying, MD, MHSc, CCFP, Toronto, ON; Amy Freedman, MD, CCFP, Toronto, ON; Lorna McDougall, NP, Toronto, ON; Jordane Holland, MSW, RSW, Toronto, ON;**Di Wang BScPhm, PharmD, RPh, Toronto, ON***ROOM / SALLE : 306B – QCCC / CCQ*****Learning objectives:***

1. describe frailty and the relationship of frailty to function and life expectancy
2. use case examples to review a goal of care-based approach to the care of frail seniors
3. apply practical tools and resources to help guide conversations around treatment decisions and advance directives

T57898 Conflicts of Interest in Medical Education13:45-14:45 *Stephen Hawrylyshyn, MD, MSc, Toronto, ON***ROOM / SALLE : 303A – QCCC / CCQ*****Learning objectives:***

1. characterize external influences and conflicts of interest within Canadian medical education
2. understand changes in conflict-of-interest policies and attitudes over time
3. provide change management and conflict-of-interest minimization strategies

T58167	First Five Years in Family Practice: Stress and resilience in early career
13:45-14:45	Cinq premières années en médecine familiale : Le stress et la résilience en début de carrière
	Scott MacLean, MD, CCFP, Edmonton, AB; Kevin Garneau-Begin, MD, CCFP, Comox, BC;
	Ainslie Mihalchuk, MD, CCFP, Winnipeg, MB; Nermine Gorguy, MD, CCFP, Toronto, ON;
	Isabelle Hébert, MD, CCMF, Montréal QC; Colette Dawson, MD, CCFP, Conception Bay, NL;
	Aisling Campbell, MD, Calgary, AB
	ROOM / SALLE : 2000D – QCCC / CCQ

Learning objectives:

1. recognize the major contributors to new physicians' distress
2. identify helpful strategies to reduce the level of stress and prevent its consequences
3. describe ways to improve satisfaction regarding professional/personal life balance

Objectifs d'apprentissage :

1. reconnaître les principaux contributeurs au stress chez les nouveaux médecins
2. identifier des stratégies aidantes visant à réduire le niveau de stress et à prévenir ses conséquences
3. décrire les moyens d'améliorer la satisfaction en matière d'équilibre vie professionnelle / vie personnelle

T57533	When Mental Health Care and Employment Intersect
13:45-16:15	ROOM / SALLE : 206A – QCCC / CCQ

Learning objectives:

1. identify the key topics to be addressed when mental health concerns occur in employed patients
2. recognize the essential information and nomenclature (DSM-V) required for insurance forms, and the importance and limits of confidentiality in disability reporting
3. learn about and practise using the WHODAS 2.0 approach to disability assessment

T75239	Rural Educator's Forum
13:45-17:30	ROOM / SALLE : 304A – QCCC / CCQ

This year's Forum will be focussing on "Competencies for Community Practice," and will discuss issues around what family medicine residents need to learn to practice effectively and what it means to be a family physician. The Forum is intended to examine the background and attitudes that enable a physician to recognize, adapt, and respond to the clinical needs of patients regardless of the physical community within which they practice. It will also explore successful models of family practice and how they are tailored to meet a community's need.

J54404	MPOC : Gestion pour l'avenir
14:15-14:45	Suzanne Levitz, MD, CCMF, Montréal, QC
	ROOM / SALLE : 200B – QCCC / CCQ

Objectifs d'apprentissage :

1. classifier les patients atteints de MPOC dans une pratique typique
2. comprendre les nouveaux traitements pour la MPOC
3. prescrire le traitement qui convient à chaque stade de la maladie

T53398	Smoking Cessation Tools to Make a Difference in Your Practice
15:15-15:45	Alan Kaplan, MD, CCFP(EM), FCFP, Richmond Hill, ON; Elaheh Amadi, MD, Edmonton, AB
	ROOM / SALLE : 200B – QCCC / CCQ

Learning objectives:

1. review the epidemiology of smoking in your practice
2. classify patients' readiness to make changes in their smoking
3. prescribe effective therapies and support to help promote these changes

JT67456	Des préparatifs du voyage au retour / Preparing the Return Trip
15:15-16:15	Suzanne Gagnon, MD, CCMF, FCFM, Québec, QC
	ROOM / SALLE : 200C – QCCC / CCQ

Objectifs d'apprentissage :

1. évaluer les risques à la santé selon le voyageur et la destination
2. prescrire les médicaments et/ou les vaccins en prophylaxie ou en auto-traitement pour les problèmes de santé les plus fréquents
3. conseiller le voyageur adéquatement et reconnaître les symptômes des principales pathologies reliées au voyage chez le voyageur qui est malade au retour

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

Learning objectives:

1. assess health risks based on the traveller and their destination
2. prescribe medication and/or vaccines administered on a prophylactic basis or self-administered for the most common health problems
3. adequately advise the traveler and recognize symptoms of the major illnesses linked to the traveler

T53863 Supporting the Learner in Difficulty

15:15-16:15 Christie Newton, MD, CCFP, FCFP, Port Moody, BC; Willa Henry, MD, CCFP, FCFP, Vancouver, BC

ROOM / SALLE : 304B – QCCC / CCQ

Learning objectives:

1. list typical strategies to prevent and address learner difficulties
2. create a learning plan based on a clinical scenario
3. engage learners in developing and reviewing learning plans that identify skills dimensions and CanMEDS-FM Roles

T55642 FASD: How fetal alcohol spectrum disorder impacts the life course trajectory of children, teens, and young adults

Patricia Mousmanis, MD, CCFP, FCFP, Richmond Hill, ON; Courtney Green, PhD, Kingston, ON; Jaceylynn Cook, MD, RCPSC; Nancy Poole, PhD; Murray Trusler, MD, CCFP, FCFP, Fairmont Hot Springs, BC; Ken Trusler, Fairmont Hot Springs, BC; Lisa Graves, MD, CCFP, FCFP, Ancaster, ON;

Ruth Elwood Martin, MD, CCFP, FCFP; Vancouver, BC; Elizabeth Grier, MD, CCFP, FCFP, Kingston, ON

ROOM / SALLE : 202 – QCCC / CCQ

Learning objectives:

1. describe how FASD impacts development from infancy through to young adulthood
2. implement clinical strategies to improve communication with, and management issues in, clients with FASD
3. recognize key characteristics of clinical tools for diagnosis of FAD in young children, teens, and pregnant women in a timely fashion

T56698 Clinical Decision-Making With Frail Patients: Home to hospital and back again

15:15-16:15 Chris Frank, MD, CCFP, FCFP, Kingston, ON; Michael Kates, MD, CCFP, Toronto, ON; Mireille Lecours, MD, CCFP, Charlottetown, PE; Rob Lam, MD, CCFP, Toronto, ON; Doreen Oneschuk, MD, CCFP, Edmonton, AB

ROOM / SALLE : 306B – QCCC / CCQ

Learning objectives:

1. identify when discussion of goals of care is relevant and when change to palliative focus should be considered
2. balance polypharmacy and prevention and quality of life in people with limited life expectancy
3. improve transitions in and out of hospital for frail patients

T56856 Identifying, Targeting, and Managing Dyslipidemia: A clinical application of the Canadian Cardiovascular Society Guidelines

Paul Poirier, MD, PhD, FRCPC, FACC, FAHA, Québec, QC

ROOM / SALLE : 200A – QCCC / CCQ

Learning objectives:

1. apply the CCS guidelines and discuss challenging obstacles for dyslipidemia diagnosis, treatment, and management
2. describe the impact of alternate targets in the diagnosis, treatment, and management of dyslipidemia
3. interpret the CCS Guidelines in light of the 2013 AHA/ACC blood cholesterol guidelines

T56982 Vasectomy for the Non-Vasectomist: From guidelines to practice

15:15-16:15 Michel Labrecque, MD, PhD, CCMF, FCMF, Québec, QC

ROOM / SALLE : 306A – QCCC / CCQ

Learning objectives:

1. correctly inform men, and women seeking contraception, about male sterilization
2. identify surgical consultants offering evidence-based vasectomy services
3. interpret results of semen analysis and manage complications after vasectomy

TJ57513  Dangerous Ideas Soapbox / Tribune aux idées dangereuses

15:15-16:15 **ROOM / SALLE : 2000A – QCCC / CCQ**

Learning objectives:

1. acquire new perspectives on the scope of and approach to primary care practice, innovation, and research
2. understand new leading-edge or unusual issues in family practice
3. engage in discussion and idea generation with national and international colleagues on the breadth and scope of family practice and primary care

Objectifs d'apprentissage :

1. obtenir de nouvelles perspectives et de nouvelles approches sur la prestation de soins primaires, l'innovation et la recherche
2. comprendre les enjeux d'actualité ou inhabituels dans l'exercice de la médecine familiale
3. discuter avec des collègues nationaux et internationaux et générer des idées sur l'étendue et la portée de la pratique de médecine familiale et la prestation de soins primaires

T57531 Cancer Prevention: Learning more about radon gas and your practice**15:15-16:15** Michael Dworkind, MD, CCFP, FCFP, Montréal, QC**ROOM / SALLE : 309B – QCCC / CCQ****Learning objectives:**

1. understand the epidemiology and pathophysiology of radon-induced lung cancer and other diseases
2. learn the ways the risks of radon exposure effect harm in primary care
3. describe the appropriate ways to reduce the risks of radon gas for patients

T57550 Resident and Physician Wellness: A book of "BASICS"**15:15-16:15** Todd Hill, PhD, Calgary, AB; Joan Horton, MD, CCFP, Calgary, AB**ROOM / SALLE : 303B – QCCC / CCQ****Learning objectives:**

1. identify different spheres of wellness which can be integrated into daily life
2. learn a number of wellness activities through individual, paired, small group, and large group activities
3. set goals for integrating wellness activities into day-to-day life

T57783 Flipping Assessment: Using field notes to improve teaching**15:15-16:15** Shelley Ross, PhD, Edmonton, AB; Paul Humphries, MD, CCFP; Shirley Schipper, MD, CCFP**ROOM / SALLE : 303A – QCCC / CCQ****Learning objectives:**

1. identify ways in which field notes can be used as evidence of teaching performance
2. explain how targeted coaching to improve teaching can be based on existing field notes
3. apply targeted coaching in any program with field notes or other documented formative feedback

T55157 Developing a Global Health Curriculum at NOSM**15:15-16:15** Basia, Siedlecki, MD, PhD, CCFP, Midland, ON**ROOM / SALLE : 301A – QCCC / CCQ****Learning objectives:**

1. describe the curricular components necessary for a global health curriculum
2. describe how service-learning can promote social accountability and global citizenship in medical learners
3. describe how global health helps prepare medical learners to practice in Canadian under-serviced communities

T58170 First Five Years in Family Practice: What type of practice is ideal for you?**15:15-16:15 Cinq premières années en médecine familiale : Quel type de pratique est idéal pour vous ?**

Scott MacLean, MD, CFPC, Edmonton, AB; Kevin Garneau-Bégin, MD, CCFP, Comox, BC;

Nermine Gorguy, MD, CCFP, Toronto, ON; Isabelle Hébert, MD, CCMF, Montréal QC;

Colette Dawson, MD, CCFP, Conception Bay, NL; Aisling Campbell, MD, Calgary, AB

ROOM / SALLE : 2000D – QCCC / CCQ**Learning objectives:**

1. become familiar with three different types of family practice: locum, traditional, and academic
2. perform a self-assessment in order to help determine which type of practice may suit participants' needs
3. participate in discussion of the challenges and stressors associated with each type

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

Objectifs d'apprentissage :

1. se familiariser avec trois différents types de pratique de la médecine familiale : dépannage, traditionnelle et académique
2. effectuer une auto-évaluation afin d'aider à déterminer quel type de pratique peut répondre à leurs besoins
3. participer aux discussions sur les défis et les facteurs de stress associés à chaque type

J57611	Intégrer la vision du Centre de médecine de famille pour assurer une efficacité dans notre travail quotidien
15:15-17:30	<i>Maxine Dumas Pilon, MD, CCMF, Montréal, QC; Eric Mang, MPA, Mississauga, ON</i>
	ROOM / SALLE : 206B – QCCC / CCQ

Objectifs d'apprentissage :

1. évaluer sa pratique, à l'aide d'un outil d'autoévaluation, afin d'établir un domaine prioritaire d'amélioration continue de la qualité de ses actes
2. identifier les obstacles à ces changements de pratique
3. déterminer les étapes concrètes requises pour instaurer l'implantation d'un nouvel objectif

T57622	General Surgery Emergencies: Pearls for the family physician
15:45-16:15	<i>Stephanie Chartier-Plante, MD, CCFP, Vancouver, BC</i>
	ROOM / SALLE : 2000B – QCCC / CCQ

Learning objectives:

1. recognize diverse forms of gallstone disease and know which patients need to be referred to a surgeon
2. describe the most common causes of bowel obstruction and initiate investigations and treatment in those patients in the emergency department
3. describe presentation and initial management of patients with diverticular disease and recognize who to refer to a surgeon

TJ55568	An Approach to Common and Not So Common Rashes in the Office Setting
16:30-17:30	<i>Une approche pour traiter les éruptions courantes et moins courantes en cabinet</i>
	<i>Christie Freeman, MD, CCFP, DipPDer, MSc, Peterborough, ON</i>

Learning objectives:

1. take a focused history in a patient with a rash
2. identify some common skin conditions based on clinical signs and symptoms as well as the results of investigations easily performed in the office
3. briefly discuss treatment options for various inflammatory skin conditions

Objectifs d'apprentissage :

1. effectuer l'anamnèse ciblée d'un patient qui présente une éruption
2. cerner les affections cutanées courantes en fonction des signes et symptômes cliniques, de même que des résultats des investigations pouvant facilement être effectuées en cabinet
3. discuter brièvement des options thérapeutiques pour diverses affections cutanées inflammatoires

JT57732	Des innovations québécoises tissent des liens entre la pratique de la médecine familiale et la recherche
16:30-17:30	<i>Québec Innovations Linking Family Medicine Practice and Research</i>
	<i>Pierre Pluye, MD, PhD, Montréal, QC; Jeannine Haggerty, PhD, Montréal, QC;</i>
	<i>Serge Dumont, PhD, MSRC, Québec, QC; Marie-Thérèse Lussier, MD, CCMF, Montréal, QC;</i>

ROOM / SALLE : 2000A – QCCC / CCQ**Objectifs d'apprentissage :**

1. le réseau de connaissances
2. les nouvelles opportunités pour la recherche clinique et la gestion des cas dans les milieux de soins primaires
3. le plan Alzheimer du Québec

Learning objectives:

1. knowledge network
2. new opportunities for clinical research and case management in primary care settings
3. Québec Alzheimer plan

T51661	Prescribing Buprenorphine for Outpatient Addiction
16:30-17:30	<i>Claudette Chase, MD, CCFP, FCFP, Shuniah, ON</i>
	ROOM / SALLE : 309B – QCCC / CCQ

Learning objectives:

1. list the benefits and risks of prescribing buprenorphine to treat opioid dependency
2. list the major side effects of buprenorphine
3. know the steps involved in safely prescribing buprenorphine for induction, maintenance, and tapering

- T55102** **Onions and Parfaits: Embracing the layers of teaching multilevel learners**
16:30-17:30 *Shirley Schipper, MD, CCFP, Edmonton, AB*
ROOM / SALLE : 303A – QCCC / CCQ

Learning objectives:

1. discuss best evidence and strategies for multilevel learning in rural, distributed, and urban settings
2. recognize best practice from end-users, including teachers and residents
3. employ usable tips to successfully incorporate medical students and residents into family medicine practice—at the same time

- T55122** **Urologic Emergencies for the Office Practitioner**
16:30-17:30 *Vu Kiet Tran, MD, CCFP(EM), FCFP, MHSc, MBA, Richmond Hill, ON*
ROOM / SALLE : 200A – QCCC / CCQ

Learning objectives:

1. recognize some of the most common urologic emergencies
2. enumerate the criteria for urgent referral to a urologist
3. elaborate on a treatment plan for these urologic emergencies

- T55152** **So, You Want to Teach Using Simulation: A primer and lessons learned from the Queen's "Nightmares"**
16:30-17:30 **family medicine acute care training program**
Filip Gilic, CCFP(EM), Kingston, ON
ROOM / SALLE : 304B – QCCC / CCQ

Learning objectives:

1. devise a medical simulation training program
2. write effective simulation scenarios
3. debrief simulated scenarios effectively

- T56963** **Medication Safety 101 for Physicians**
16:30-17:30 *Michael Hamilton, BSc, BEd, MD, CCFP, Toronto, ON*
ROOM / SALLE : 200B – QCCC / CCQ

Learning objectives:

1. review the evidence that medication errors are a significant health care problem
2. outline factors in the medication use process that contribute to error and harm
3. identify and implement strategies that reduce the likelihood of medication error

- T57069** **Residents as Teachers: An interactive workshop for family medicine resident teaching skills development**
16:30-17:30 *Jamie Wickett, MD, CCFP, London, ON; Julie Copeland, MD, CCFP, Mount Brydges, ON*
ROOM / SALLE : 303B – QCCC / CCQ

Learning objectives:

1. understand and use the one-minute preceptor model with junior learners
2. provide effective feedback to junior learners
3. use effective questioning techniques with junior learners

- T57279** **Implementing Lifestyle Intervention in Primary Care: Tips and tools**
16:30-17:30 *Doug Klein, MD, CCFP, MSc, Edmonton, AB*
ROOM / SALLE : 306A – QCCC / CCQ

Learning objectives:

1. understand the importance of effective lifestyle interventions in primary care
2. learn some of the methods to support patients becoming more active both in the clinic and in the community
3. participate in a demonstration of strength and flexibility exercises applicable to primary care

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

T57474	Diabetic Muslim Patient While Fasting in Ramadhan
16:30-17:30	<i>Irfan Majid, MBBS, MRCPG, MPH, Diploma Cardiology, MCFP, Walsall, UK</i>
	ROOM / SALLE : 202 – QCCC / CCQ

Learning objectives:

1. understand the facts about how Muslims fast during the holy month of Ramadhan
2. understand how fasting affects diabetic Muslim patients and its medical implications
3. modify medications, oral or insulin, for fasting diabetic patients, and provide further relevant health advice to these patients

T57525	When Things Go Wrong: Learning from significant events
16:30-17:30	<i>Keith Wycliffe-Jones, MBChB, FRCPG, CCFP, Calgary, AB</i>
	ROOM / SALLE : 306B – QCCC / CCQ

Learning objectives:

1. describe the methodology of significant event audit
2. list the prerequisites for successful significant event audit
3. carry out significant event audit in practice

T57773	Critical Appraisal of Practice Guidelines
16:30-17:30	<i>Sarah Jennings, BSc, BScPhm, RPh, PharmD, Ottawa, ON; Janice Mann, BSc, MD, Ottawa, ON</i>
	ROOM / SALLE : 2000D – QCCC / CCQ

Learning objectives:

1. appreciate the importance of critical appraisal
2. understand potential sources of bias in clinical practice guidelines
3. learn practical methods for evaluating the quality of clinical practice guidelines

T75405	Mainpro+ ... A New Look, With New Ways to Learn (2)
17:30-18:30	<i>Janice Harvey, MD, CCFP, FCFP, Dundas, ON; Dominique Tessier, MD, CCMF, FCMF, Montréal, QC; Jim Thorsteinson, MD, CCFP, FCFP, Vancouver, BC; Khurram Jahangir, MD, CCFP(EM), FCFP, Edmonton, AB; Teresa Wawrykow, MD, CCFP(EM), Winnipeg, MB; Eric Wong, MD, CCFP, London, ON; Scott MacDonald, MD, CCFP(EM), FCFP, Bedford, NS</i>
	ROOM / SALLE : 308A – QCCC / CCQ

Join us for an informative session on the updates to Mainpro coming soon. Get to know who your Regional Educator is and hear about the exciting changes which will offer more intuitive, self-directed learning opportunities. You will learn how easy it is to earn credits for practice activities you do on a daily basis. The CFPC is committed to providing quality CPD to meet your changing interests and learning needs.

Participants may claim an additional Mainpro-M1 credit for this session.

DAILY BADGE SCAN REQUIRED – PROOF OF PARTICIPATION: Remember to have your name badge scanned EACH DAY by a CFPC staff member throughout the conference. Self-scanning stations are also available throughout the conference venues. All scanned registrants will receive a letter confirming attendance at Family Medicine Forum 2014 by January 1, 2015. **Please note that these letters are not available for pick-up on-site.**

SCANNAGE QUOTIDIEN DE L'INSIGNE OBLIGATOIRE – PREUVE DE PARTICIPATION : N'oubliez pas de faire scanner votre insigne d'identité CHAQUE JOUR par un membre du personnel du CMFC durant toute la conférence. Des postes de lecteur code-barre se trouveront aussi un peu partout sur les lieux de la conférence. Tous les participants inscrits dont l'insigne aura été scanné recevront une lettre confirmant leur participation au Forum en médecine familiale 2014 avant le 1^{er} janvier 2015. **Veuillez noter que ces lettres ne seront pas disponibles sur place.**

Session cancellation: The College reserves the right to cancel session(s) due to unforeseen circumstances and cannot accept responsibility for out-of-pocket expenses incurred due to the cancellation of any session.

Annulation de séance : Le Collège se réserve le droit d'annuler une ou plusieurs séances s'il survient des événements imprévus et ne sera pas responsable de toute menue dépense encourue en raison de l'annulation d'une séance.

F79795 A Incretin Therapy Roundtable: Putting recommendations into practice
06:45-07:45 ROOM / SALLE : 2000C – QCCC / CCQ

Learning objectives:

1. summarize relevant updates to the 2013 CDA guideline recommendations for the management of type 2 diabetes
2. differentiate between DPP-4 inhibitors and GLP-1 receptor agonists
3. explain how to optimally incorporate DPP-4 inhibitors and GLP-1 receptor agonists into clinical practice for better patient outcomes

F75406 Mainpro+.... A New Look, With New Ways to Learn (3)

07:00-08:00 Janice Harvey, MD, CCFP, FCFP, Dundas, ON; Dominique Tessier, MD, CCMF, FCMF, Montréal, QC;
 Jim Thorsteinson, MD, CCFP, FCFP, Vancouver, BC; Khurram Jahangir, MD, CCFP(EM), FCFP, Edmonton, AB;
 Teresa Wawrykow, MD, CCFP(EM), Winnipeg, MB; Eric Wong, MD, CCFP, London, ON;
 Scott MacDonald, MD, CCFP(EM), FCFP, Bedford, NS
ROOM / SALLE : 308A – QCCC / CCQ

F67109 Chronic Pain Networking Breakfast
07:00-08:00 Ruth Dubin, PhD, MD, CCFP, FCFP, Kingston, ON
ROOM / SALLE : 2104AB – QCCC / CCQ

F56783 Occupational Medicine SIPP Networking Breakfast Session: Returning Your Patient to Work
07:00-08:00 Avram Whiteman, MD, MPH, CCFP, FCBOM, FACOEM, Westmount, QC
ROOM / SALLE : 303A – QCCC / CCQ

Learning objectives:

1. understand the role of the family doctor in returning patients to work
2. appreciate return to work as a therapeutic modality
3. identify barriers to return to work and review strategies and solutions

F57010 Networking Breakfast: Sharing educational training for child and adolescent scope of practice
07:00-08:00 Patricia Mousmanis, MD, CCFP, FCFP, Richmond Hill, ON; Anita Greig, MD, CCFP, FCFP, Toronto, ON;
 Marisa Collins, MD, CCFP, FCFP, Vancouver, BC; Alain Pavilanis, MD, CCFP, FCFP, Montréal, QC;
 Susan Philips, MD, CCFP, FCFP, Kingston, ON; Yves Lambert, MD, CCFP, FCFP, Montréal, QC
ROOM / SALLE : 207 – QCCC / CCQ

Learning objectives:

1. describe how to develop skills required to create a focused practice in child and adolescent medicine
2. outline specific educational programs across Canada that can be accessed for further training
3. share tips and pearls on how to integrate a special interest in child and adolescent medicine into comprehensive care practice

F57042 Addiction Medicine Program Committee Breakfast Meeting
07:00-08:00 Sharon Cirone, MD, CCFP(EM), ASAM (Cert), FCFP, Toronto, ON; Meldon Kahan, MD, CCFP, FCFP, FRCPC, Toronto, ON
ROOM / SALLE : 204B – QCCC / CCQ

Learning objectives:

1. become familiar with the activities of the Addiction Medicine Program Committee at the CFPC
2. take the opportunity to discuss any topics of clinical interest with respect to alcohol and substance use or behavioural addictions
3. learn more about the option to establish membership with the Section of Special Interests or Focused Practices (SIPP) Addiction Medicine Program and to explore their options for networking and membership engagement

F57505 GP Psychotherapy Networking Breakfast
07:00-08:00 Victoria Winterton, MD, CCFP, FCFP, Owen Sound, ON
ROOM / SALLE : 2101 – QCCC / CCQ

Learning objectives:

1. identify the challenges of integrating psychotherapy into comprehensive care family practice
2. identify specific learning needs of physicians who wish to integrate psychotherapy into their practices
3. meet and share with colleagues who have a special interest in providing psychotherapy as part of mental health care in family practice

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

F57535 07:00-08:00	Networking Breakfast: Create a Practical Inventory of Mental Health Resources in Your Community (Mental Health SIFP) J. Ellen Anderson, MD, MHSC, MCFP, Chair MH, SIFP, Sooke, BC; Victoria Winterton, MD, CCFP, Owen Sound, ON ROOM / SALLE : 2105 – QCCC / CCQ
-------------------------------------	--

Learning objectives:

1. identify the multiple domains of useful formal and informal mental health supports/resources in their local community that are accessible to family practice patients
2. use the template provided and the assistance of office staff and patients to locate and update mental health resources in their community
3. practice using the MH resource tool to aid physicians and patients in navigating their local mental health resources

F57588 07:00-08:00	Maternity and Newborn Care Networking Breakfast Lisa Graves, MD, CCFP, FCFP, Ancaster, ON ROOM / SALLE : 2102AB – QCCC / CCQ
-------------------------------------	--

Learning objectives:

1. identify current issues in maternity care for family physicians
2. share successes and challenges of maternity care
3. network with colleagues who share similar interests

F57747 07:00-08:00	Sport and Exercise Medicine SIFP Breakfast Networking Session – Concussion: The management of persistent symptoms Lisa Fischer, MD, BScPT, CCFP, Dip Sport Med, London, ON ROOM / SALLE : 308B – QCCC / CCQ
-------------------------------------	---

Learning objectives:

1. be able to describe persistent symptoms of post-traumatic brain injury (TBI)/concussion
2. have an understanding of rehabilitation and management strategies, including the role of allied health professionals
3. prescribe appropriate therapy

F57888 07:00-08:00	Developmental Disabilities / Palliative Care Networking Breakfast: Providing palliative care for patients with communication and cognitive difficulties Liz Grier, MD, CCFP, Kingston, ON; Brian Hennen, MD, CCFP, FCFP, Halifax, NS; Ian Casson, MD, CCFP, FCFP, Kingston, ON; Paolo Mazzotta, MD, HBSc, MSc, CCFP, Toronto, ON; Kyle Sue, MD, St. John's, NL; Mark Kristjanson, MD, CCFP, FCFP, Hamiota, MB; Donna Lougheed, MD, CCFP, Ottawa, ON; David Joyce, MD, CCFP(EM), Vancouver, BC ROOM / SALLE : 302A – QCCC / CCQ
-------------------------------------	--

Learning objectives:

1. explore the issues related to care for patients with communication and cognitive difficulties receiving palliative and/or end-of-life care using a case example of a patient with developmental disability and complex care needs
2. formulate an approach to palliative symptom management in adults with developmental disabilities and apply care strategies

F57952 07:00-08:00	Prison Medicine SIFP Breakfast Networking Session: What you need to know to become a prison physician Ruth Elwood Martin, MD, CCFP, FCFP, Vancouver, BC; Josiane Cyr, MD, CCFP, Montréal, QC; Margaret (Peg) Robertson, MD, CCFP, Kingston, ON; Chris Goodall, MD, CCFP, St. John's, NL ROOM / SALLE : 2103 – QCCC / CCQ
-------------------------------------	--

Learning objectives:

1. network with others who are interested in prison health
2. increase understanding of the steps involved in becoming a prison physician

F63100 07:00-08:00	Hospital Medicine SIFP Breakfast Networking Session ROOM / SALLE : 301B – QCCC / CCQ
-------------------------------------	---

Learning objectives:

1. understand the risk of transition from hospital to home
2. identify patients at high risk for readmission
3. understand the benefits of technology in facilitating and improving transition

F66321 07:00-08:00	Health Care of the Elderly SIFP Breakfast Networking Session: Older patients with multi-comorbidities – using your expertise to develop a guideline ROOM / SALLE : 303B – QCCC / CCQ
-------------------------------------	---

F66772	Respiratory Medicine SIFP Breakfast Networking Session: A pro/con debate on the value of e-cigarettes in assisting with smoking cessation
07:00-08:00	<i>Alan Kaplan, MD, CCFP(EM), FCFP, Richmond Hill, ON</i>
	ROOM / SALLE : 304A – QCCC / CCQ

F68877	Dermatology SIFP Breakfast Networking Session
07:00-08:00	<i>Christie Freeman, MD, CCFP, DipPDer, MSc, Peterborough, ON</i>
	ROOM / SALLE : 304B – QCCC / CCQ

F68885	Family Practice Anesthesiology SIFP Breakfast Networking Session
07:00-08:00	<i>Anthony V. Wiens, MD, CCFP, Dauphin, MB; Annie Lu, MD, CCFP, Elora, ON</i>
	ROOM / SALLE : 302B – QCCC / CCQ

F57763	Networking for IMG Teachers and Co-ordinators: An opportunity to exchange ideas with a group of peers, learn about programs and initiatives across the country, and generate new directions
07:00-08:00	<i>Inge Schabot, MB ChB, CCFP, Hamilton, ON; Susan Phillips, MD, CCFP, Montréal, QC</i>
	ROOM / SALLE : 309A – QCCC / CCQ

Learning objectives:

1. have the opportunity to review the relevant international medical graduate (IMG) literature and recent research findings
2. exchange ideas with a group of peers, learn about IMG programs across the country, and generate new directions
3. review and contribute to available resources to provide ongoing support to IMG teachers and learners at the national, institutional, departmental, faculty, and student levels

FV100	KEYNOTE ADDRESS / DISCOURS D'OUVERTURE
08:00-09:30	“Delivering on the Promise of Medicare”
	« Concrétiser les promesses du régime d'assurance-maladie »
	<i>Danielle Martin, BSc, MD, CCFP, MPP, Toronto, ON</i>
	ROOM / SALLE : 200ABC – QCCC / CCQ

F57607	Revitalizing Inpatient Family Medicine
10:00-10:30	<i>Brenda Catchpole, BA, MHA, Winnipeg, MB; Amanda Condon, MD, CCFP, Winnipeg, MB</i>
	ROOM / SALLE : 206B – QCCC / CCQ

Learning objectives:

1. identify key factors most likely to impact on recruiting and retaining family physicians to participate in inpatient care
2. understand the impact that has been achieved through several key recruitment strategies
3. take away a strategy for defining, measuring, and influencing specific aspects of physician inpatient practice

FV57709	Sport and Exercise Medicine: Injuries you don't want to miss / Médecine du sport et de l'exercice : Blessures à ne pas oublier
10:00-10:30	<i>Lisa Fischer, MD, BScPT, CCFP, DipSportMed, London, ON; Pierre Frémont, MD, CCMF, Québec, QC</i>
	ROOM / SALLE : 2000A – QCCC / CCQ

Learning objectives:

1. recognize the clinical presentation of common, but easily missed, musculoskeletal injuries in sport medicine
2. list the short- and long-term sequelae of these injuries
3. plan an initial management strategy including appropriate focused follow-up

Objectifs d'apprentissage :

1. reconnaître le tableau clinique des blessures musculo-squelettiques courantes, mais facilement omises en médecine du sport
2. nommer les séquelles à court et à long terme de ces blessures
3. planifier une stratégie initiale de prise en charge, y compris un suivi ciblé approprié

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

F49182	Whose Death Is It Anyway? Legalized euthanasia and end-of-life care
10:00-11:00	<i>Benjamin Schiff, MD, CCFP, DDO, QC; Isabelle LeBlanc, MD, CCMF, Montréal, QC</i>
	ROOM / SALLE : 306A – QCCC / CCQ

Learning objectives:

1. develop an appreciation of the controversial aspects surrounding euthanasia and assisted suicide
2. become familiar with the proposed Québec law on end-of-life care
3. become comfortable engaging patients and/or families in end-of-life care discussions

F54398	Healing the Wounds: Stories from the street
10:00-11:00	<i>Susan Phillips, MD, CCFP, Kingston, ON</i>
	ROOM / SALLE : 307AB – QCCC / CCQ

Medical Humanities Theatre / Théâtre des sciences humaines de la santé**Learning objectives:**

1. understand and intervene to correct inequalities that shape illness
2. be inspired by colleagues' stories of bringing social activism into clinical practice
3. become an advocate

F55138	Ventilate, Don't Intubate! Non-invasive respiratory management strategies for the rural and hospitalist GP
10:00-11:00	<i>Filip Gilic, MD, CCFP(EM), Kingston, ON</i>
	ROOM / SALLE : 306B – QCCC / CCQ

Learning objectives:

1. develop a consistent approach to patients with respiratory difficulties
2. demonstrate advanced oxygenation therapies such as combined nasal/oral and apneic oxygenation
3. use non-invasive positive pressure ventilation effectively, including novel indications such as asthma and delayed sequence induction

F57390	Alcohol Screening, Brief Intervention, and Referral: An alcohol care pathway
10:00-11:00	<i>Peter Butt, MD, CCFP(EM), FCFP, Saskatoon, SK</i>
	ROOM / SALLE : 202 – QCCC / CCQ

Learning objectives:

1. talk to patients about alcohol, with evidence-based information on low-risk drinking
2. identify and address elevated risk use, as well as abuse or mild dependency (as per DSM-V)
3. develop an approach to appropriate, focused follow-up

F57821	Should Our Children Run Away With the Circus?
10:00-11:00	<i>Patrice Aubertin, Montréal, QC</i>
	ROOM / SALLE : 301A – QCCC / CCQ

Learning objectives:

1. describe what is physical literacy and how it relates to circus arts
2. describe the results of a research project relating to circus arts and physical literacy in children

F57461	Becoming a Resident: It's not as bad as you think!
10:00-11:00	<i>Michelle van Walraven, BSc, MD, Barrie, ON</i>
	ROOM / SALLE : 302B – QCCC / CCQ

Learning objectives:

1. understand the steps of transition from being a medical student to a resident
2. use tips and recommendations to prepare for residency including CaRMS, financial concerns, and self-wellness
3. share questions and answers regarding being a new resident in family medicine

F57872	Team and Patient-Centred Communication for the Patient's Medical Home (PMH): An overview
10:00-11:00	<i>Rob Boulay, MD, CCFP, Miramichi, NB</i>
	ROOM / SALLE : 206A – QCCC / CCQ

Learning objectives:

1. explore evidence-based reasons why communication is important in a patient-centred medical home (PMH) practice
2. review a sample of communication tools to increase effectiveness in PMH interactions and with your patients
3. apply communication tools to sample video case study

F57830	Medical Education Research 101: An introduction to basics of methodology and design
10:00-11:00	<i>Shelley Ross, PhD, Edmonton, AB; Douglas Archibald, PhD, Ottawa, ON</i>
ROOM / SALLE : 301B – QCCC / CCQ	

Learning objectives:

1. describe some of the more common methodologies and research designs for medical education research
2. identify which methodologies and designs would be most appropriate to answer participants' own research questions
3. apply ideas and examples from the workshop to participants' own medical education projects

F54586	I Am the Team: Multidisciplinary pain management for the community family doctor
10:00-11:45	<i>Lori Montgomery, MD, CCFP, Calgary, AB; Chris Spanswick, MB, ChB, FRCA, FFPMRCA, Calgary, AB; Todd Hill, PhD, RPsych, Calgary, AB</i>
ROOM / SALLE : 309B – QCCC / CCQ	

Learning objectives:

1. identify patients who would benefit from a multidisciplinary approach
2. develop a toolkit of skills and resources to make best use of community providers
3. incorporate some simple changes in practice to help fill the gap if a patient can't access non-physician providers

F77156	How to Be a Triple C Teacher (2)
10:00-12:15	<i>College of Family Physicians of Canada's (CFPC's) Triple C Competency Based Curriculum Task Force</i>
ROOM / SALLE : 309A – QCCC / CCQ	

Learning objectives:

1. describe an approach to learner supervision consistent with Triple C
2. identify CFPC resources that can support clinical teachers within a Triple C curriculum
3. identify personal or practice changes to be made to become a Triple C teacher

V57547	Réseau collaboratif des UMF de l'U. de Montréal : joies et défis
10:00-12:15	<i>Jean Pelletier, MD, CCMF, FCMF, Montréal, QC; Mathieu Trépanier, MSc, MBA, Montréal, QC</i>
ROOM / SALLE : 304B – QCCC / CCQ	

Objectifs d'apprentissage :

1. acquérir quelques concepts sur les réseaux collaboratifs
2. discuter des enjeux de la formalisation du Réseau collaboratif des Cliniques universitaires de soins de première ligne de l'Université de Montréal
3. partager leurs expériences respectives quant à l'implantation ou l'animation d'un réseau collaboratif

F57834	Selecting IMGs for Residency Programs: Myths and shibboleths
10:00-12:15	<i>Sandra Banner, Ottawa, ON; Ian Bowmer, MD, CCFP, Ottawa, ON</i>
ROOM / SALLE : 303A – QCCC / CCQ	

Learning objectives:

1. review the 2014 CaRMs match results to know the competitive process that international medical graduates (IMGs) face when applying for postgraduate education in Canada
2. review all factors that were considered important by colleagues when selecting residents into their program and be able to interpret the Medical Council of Canada (MCC) and National Assessment Collaboration (NAC) OSCE test scores
3. understand the rationale for developing the NAC OSCE for entry into postgraduate education

F75187	Teaching 101: Introducing a medical learner into your office
10:00-12:15	<i>Mark Robinson, MD, MSc, BSc, BEd, CCFP, North York, ON; Risa Bordman, MD, CCFP, FCFP, Toronto, ON; Colin Newman, MD, CCFP, Twillingate, NL</i>
ROOM / SALLE : 207 – QCCC / CCQ	

Learning objectives:

1. overview basic educational principles applicable to ambulatory teaching
2. address the needs of the group, focusing on teaching in the office
3. improve time management, learner knowledge, and teacher satisfaction

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

V54561 L'outil diagnostique : Portrait réflexif de la pratique clinique des médecins de famille du Québec
10:30-11:00 François Dubé, MSc, Québec, QC; Alexis Guilbert-Couture, Québec, QC
ROOM / SALLE : 2104AB – QCCC / CCQ

- Objectifs d'apprentissage :*
1. informer les médecins de famille de l'existence de l'outil diagnostique
 2. décrire les composantes de l'outil diagnostique
 3. expliquer l'usage de l'outil diagnostique et véhiculer l'impact de son utilisation

F55529 Non-invasive Prenatal Testing
10:30-11:00 Bill Ehman, MD, Nanaimo, BC
ROOM / SALLE : 2000B – QCCC / CCQ

- Learning objectives:*
1. define and describe the current status of non-invasive prenatal testing (NIPT) in Canada
 2. describe the role of NIPT as part of an integrated system of prenatal testing
 3. describe some of the evolving ethical and legal issues involved in NIPT

F57600 Pediatric UTIs: What's the latest evidence in diagnosis and management?
10:30-11:00 April Kam, MD, DTM&H, MScPH, FRCPC, Hamilton, ON
ROOM / SALLE : 200A – QCCC / CCQ

- Learning objectives:*
1. list high-yield questions when considering which infant or child has a urinary tract infection
 2. prescribe antibiotics appropriately to infants and children with urinary tract infections
 3. apply the latest evidence when deciding which children will require follow-up diagnostic testing after a urinary tract infection

FV57631 Self-Diagnosis of Practice Risks
10:30-11:00 Randall Sargent, MD, CCFP, MSc, Canmore, AB
ROOM / SALLE : 200C – QCCC / CCQ

- Learning objectives:*
1. identify cases from office practice that require reflection
 2. plan a course of continuing care with identified decision points
 3. appropriately review patient status in primary and secondary care, and offer continuous care

FV57726 How to Adapt and Implement a Concussion Management Protocol in Your Community's Organized Sports
10:30-11:00 / Adapter et mettre en pratique un protocole de prise en charge des commotions cérébrales dans les sports communautaires organisés
Pierre Frémont, MD, PhD, CCMF, Québec, QC; Lisa Fischer, MD, CCFP, London, ON
ROOM / SALLE : 2000A – QCCC / CCQ

- Learning objectives:*
1. understand the basic principles of concussion management according to the current expert consensus recommendations
 2. be able to assist organizations in the process of adapting and implementing a structured concussion management approach with consideration for the available resources of each specific context
 3. understand the implicit value of concussion education to athletes, coaches, educators, and parents for the purpose of improving concussion prevention, detection, and basic management

- Objectifs d'apprentissage :*
1. comprendre les principes de base de la prise en charge des commotions cérébrales selon les recommandations actuelles de consensus
 2. pouvoir prêter main-forte aux organisations qui adaptent et mettent en pratique une approche structurée de prise en charge des commotions cérébrales en tenant compte des ressources disponibles dans chaque contexte précis
 3. comprendre la valeur implicite de la formation sur les commotions cérébrales auprès des athlètes, des entraîneurs, des éducateurs et des parents afin d'améliorer la prévention, le dépistage et la prise en charge de base des commotions cérébrales

F57089 Management of Vaginal Birth After Cesarean
11:15-11:45 Emmanuel Bujold, MD, MSc, FRCSC, Saint-Augustin-De-Desmaures, QC
ROOM / SALLE : 2000B – QCCC / CCQ

- Learning objectives:*
1. describe the relative and absolute contraindications for vaginal birth after cesarean (VBAC)
 2. understand the role of low uterine segment thickness measurement in the management of women with prior cesarean
 3. understand the role of labour management in the prevention of uterine rupture and adverse outcomes during a trial of labour after a previous cesarean

F79349 Transitioning Into Practice

11:15-12:15 Presented by the CFPC Section of Residents, in collaboration with the First Five Years in Family Practice Committee
ROOM / SALLE : 206A – QCCC / CCQ

This session will address key issues involving transitioning from residency into practice including licensing, financial concerns, location and relocation, contracts, and other considerations.

F75242 FMF Pearls: Clinically relevant research from Research Day

11:15-12:15 Martin Dawes, MD, MB, BS, DRCOG, FRCCP, Vancouver, BC
ROOM / SALLE : 301A – QCCC / CCQ

Description:

We're excited to let you know about this year's "Top 4 Oral Abstracts" session at the Family Medicine Forum. We received 203 abstract submissions. Of those, the Family Medicine Forum – Research Committee, Chaired by Dr Richard Fleet, selected 53 for oral presentations and the Top 4 will be showcased in this special session.

FV57806 ♀ Test Your Menopause IQ / Mettez à l'épreuve vos connaissances sur la ménopause

11:15-12:15 Jennifer Blake, MD, CCFP, Ottawa, ON
ROOM / SALLE : 200C – QCCC / CCQ

Learning objectives:

1. separate fact from myth with respect to common beliefs about menopause and hormones
2. tailor treatment of symptoms to women throughout perimenopause, menopause, and post menopause
3. use the latest evidence to counsel about risks, benefits, and relative safety of menopause therapies

Objectifs d'apprentissage :

1. distinguer la réalité de la fiction en ce qui concerne les opinions courantes au sujet de la ménopause et des hormones
2. adapter la prise en charge des symptômes aux femmes en péréménopause, en ménopause et en postménopause
3. utiliser les données les plus récentes pour offrir aux patientes des conseils au sujet des risques, des avantages et de l'innocuité relative des traitements ménopausiques

F49235 Nutritional Counseling for Patients With Metabolic Syndrome

11:15-12:15 Pat Poon, MD, PhD, Thornhill, ON
ROOM / SALLE : 306B – QCCC / CCQ

Learning objectives:

1. give dietary counseling to patients with obesity-related diseases
2. read and understand the nutritional information on the food label
3. write an exercise prescription

F49363 Driving and Dementia: Practical tips for the family physician

11:15-12:15 Linda Lee, MD, MClSc(FM), CCFP, FCFP, Kitchener, ON
ROOM / SALLE : 200A – QCCC / CCQ

Learning objectives:

1. list findings in the cognitively impaired patient that might indicate that fitness to drive is a concern
2. explain office-based tests that can help in the assessment of the potentially unsafe cognitively impaired driver and the role of on-road driving assessments
3. discuss ways of communicating concerns about driving fitness that are less likely to harm the patient-physician relationship

F55809 Borderline Personality Disorder: Moving management challenges to joys

11:15-12:15 James Goertzen, MD, MClSc, CCFP, FCFP, Thunder Bay, ON
ROOM / SALLE : 306A – QCCC / CCQ

Learning objectives:

1. apply strategies for effective management of patients with a borderline personality disorder
2. increase the resilience of family physicians providing care to patients with a borderline personality disorder
3. develop physician-patient relationships that encourage borderline personality disorder patients to increase their self-management skills

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

F57578	Primary Care Management of At-Risk Drinking and Alcohol Use Disorders
11:15-12:15	<i>Sheryl Spithoff, MD, CCFP, Toronto, ON; Meldon Kahan, MD, CCFP, FCFP, FRCPC, Toronto, ON</i>
ROOM / SALLE : 202 – QCCC / CCQ	

Learning objectives:

1. diagnose at-risk drinking and alcohol use disorder (mild, moderate, severe)
2. describe an approach to counseling the at-risk drinker and the patient with an alcohol use disorder
3. describe the indications, dosing, and contraindications of anti-craving medications

F57590	Top 10 Papers to Change Your Practice in EM
11:15-12:15	<i>Peter Toth, CCFP(EM), Toronto, ON; Robert Primavesi, MD, CCFP(EM), FCFP, Montréal, QC; Jean Villeneuve, MD, CCMF(MU), Québec, QC; Danielle Blouin, MD, CCFP(EM), FCFP, Kingston, ON; Isobel Fleming, Simon Pulfrey, MD, CCFP(EM), FCFP, North Vancouver, BC</i>
ROOM / SALLE : 200B – QCCC / CCQ	

Learning objectives:

1. apply both absolute and relative data that are new in the emergency medicine literature
2. adapt the new evidence to the practice population
3. integrate new evidence into clinical practice in emergency medicine

F57717	Small “r” Research for Community Docs
11:15-12:15	<i>Alan Katz, MB ChB, CCFP, MSc, FCFP, Winnipeg, MB</i>
ROOM / SALLE : 301B – QCCC / CCQ	

Learning objectives:

1. explore possible roles for community docs in the research process
2. address barriers to participation in the research process for community docs
3. discuss the advantages of participation in research for community docs

FV57719	The ABCs of Exercise Assessment and Prescription for Chronic Disease Prevention and Management in Primary Care / L'ABC de l'évaluation et de la prescription d'exercice dans la prévention et la prise en charge des maladies chroniques en soins primaires
11:15-12:15	<i>Pierre Frémont, MD, PhD, CCMF, Québec, QC</i>
ROOM / SALLE : 2000A – QCCC / CCQ	

Learning objectives:

1. understand the scientific basis of the spectacular potential of exercise for the prevention and management of chronic diseases
2. integrate the "exercise vital sign" as part of the periodic health examination
3. be able to use the exercise referral and prescription tool developed by "Exercise is Medicine Canada" for exercise assessment and basic prescription

Objectifs d'apprentissage :

1. comprendre le fondement scientifique de l'extraordinaire potentiel de l'exercice dans la prévention et la prise en charge des maladies chroniques
2. intégrer le « signe vital de l'exercice » dans l'examen périodique de santé
3. être en mesure d'utiliser l'outil de prescription d'exercice et d'orientation mis au point par « L'exercice : un médicament Canada » pour évaluer l'exercice et en rédiger une ordonnance de base

F57739	Extreme Family Practice 2.1: Case histories from Nunavut
11:15-12:15	<i>W. Alexander Macdonald, MD, CCFP, FCFP, Iqaluit, NU; Cathy Rose RN, OPN, Resolute Bay, NU</i>
ROOM / SALLE : 307AB – QCCC / CCQ	

Medical Humanities Theatre / Théâtre des sciences humaines de la santé**Learning objectives:**

1. explore options for long-term care for post-stroke patients from remote communities
2. learn about multidisciplinary collaboration to repatriate a seriously disabled patient and to support the family once home in a remote Inuit community in Nunavut
3. learn about the relevance of cultural factors in the long-term management of a seriously disabled patient in a remote Inuit community

F67121	Building Relationships: The key to success as a family doctor and family medicine leader
11:15-12:15	<i>Calvin L. Gutkin, MD, CCFP(EM), FCFP, Mississauga, ON</i>
ROOM / SALLE : 206B – QCCC / CCQ	

Learning objectives:

1. have an enhanced understanding of the importance of excellent communication skills in both medical practice and organizational leadership
2. be able to define the core elements that help build strong interpersonal and interorganizational relationships
3. be able to identify the facilitators and barriers one may encounter in trying to develop strong interorganizational relationships

F57090 Low-dose Aspirin for the Prevention of Adverse Perinatal Outcomes**11:45-12:15 Emmanuel Bujold, MD, MSc, FRCSC, Saint-Augustin-de-Desmaures, QC****ROOM / SALLE : 2000B – QCCC / CCQ*****Learning objectives:***

1. describe the goals and benefits of the use of low-dose aspirin during pregnancy for the prevention of adverse perinatal outcomes
2. identify which women should receive low-dose aspirin for the prevention of adverse perinatal outcomes
3. describe and understand the optimal posology for low-dose aspirin during pregnancy

12:30-13:30  Section of Teachers Annual Meeting / Assemblée annuelle de la Section des enseignants**ROOM / SALLE : 2000A – QCCC / CCQ****F75509 A Breathing New Life Into Multidisciplinary COPD Management****12:30-13:30 ROOM / SALLE : 2000C – QCCC / CCQ*****Learning objectives:***

1. discuss the use of spirometry and objective measures in the diagnosis and management of chronic obstructive pulmonary disease (COPD)
2. recognize the importance of early diagnosis and treatment of COPD and implement appropriate treatment options to maximize symptom management for patients from mild through all severities of disease
3. recognize the impact of acute exacerbations in patients with COPD and synthesize pharmacological and non-pharmacological management

F57792 Revoir nos stratégies pour aider un adolescent à cesser de fumer**13:45-14:15 Lucie Rochefort, MD, CCMF, FCMF, Québec, QC****ROOM / SALLE : 202 – QCCC / CCQ*****Objectifs d'apprentissage :***

1. discuter des interventions cliniques en arrêt tabagique chez les adolescents
2. présenter le projet pilote en cours d'expérimentation dans trois régions du Québec
3. enrichir notre pratique clinique par les échanges avec les participants

F75243 Manuscript Writing: Finding the writer in you**13:45-14:45 Cheryl Levitt, MB BCh, CCFP, FCFP, Hamilton, ON****ROOM / SALLE : 301A – QCCC / CCQ*****Learning objectives:***

1. have discuss the common road blocks and successes we all have in writing
2. learn about some simple ways to overcome some writing difficulties
3. feel inspired to write

F49330 Helping Your Patient Cope With an Unplanned Pregnancy**13:45-14:45 Ellen Wiebe, MD, CCFP, FCFP, Vancouver, BC; Konia Trouton, MD, CCFP, FCFP, Victoria, BC****ROOM / SALLE : 206B – QCCC / CCQ*****Learning objectives:***

1. help patients explore their options when faced with an unplanned pregnancy
2. offer specific resources to patients dealing with the religious or relationship issues related to unplanned pregnancies
3. provide accurate information about the risks of abortion compared to birth

F52534 Insurance and Genetics: The real deal**13:45-14:45 Bruce Empringham, BA, MD, CCFP, certificant BIM, London, ON****ROOM / SALLE : 206A – QCCC / CCQ*****Learning objectives:***

1. understand how genetic testing is viewed by the insurance industry
2. understand the depth of knowledge that exists in the insurance industry
3. understand how insurance works, and how clinicians can help patients understand the issues

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

F56687	Surfing the “Silver Tsunami”: The “do’s, “don’t”s, and “maybe”s of prescribing for the elderly
13:45-14:45	<i>Suzanne Singh, BScPhm, PharmD, RPh, Toronto, ON</i>
ROOM / SALLE : 2000D – QCCC / CCQ	

Learning objectives:

1. outline medication-related and patient-specific factors that increase the risk of clinically significant adverse events in elderly adults
2. discuss a practical evidence-based approach to safe and effective medication use in at-risk seniors
3. implement an office-based medication safety checklist to guide challenging prescribing decisions in the elderly

F57507	Priorities for Family Medicine Research: Questions that matter
13:45-14:45	<i>Susan Phillips, MD, CCFP, Kingston, ON; Katarina Hamberg, MD, PhD, Umea, Sweden; Inge Schabot, MB ChB, CCFP, Hamilton, ON;</i>
ROOM / SALLE : 301B – QCCC / CCQ	

Learning objectives:

1. translate everyday dilemmas into research questions that are begging for answers that will improve our practice
2. identify how to answer such questions without enormous resources
3. focus family medicine research on studying areas both essential and unique to family practice rather than on the diffuse and enormous scope of primary care

F57584	Am I Safe to Take This Pill? Assessment of thrombotic risk in hormone therapy, contraception, and pregnancy
13:45-14:45	<i>Vivien Brown, MD CM, CCFP, FCFP, NCMP, Toronto, ON; Susan Kahn, MD, Montréal, QC</i>
ROOM / SALLE : 306A – QCCC / CCQ	

Learning objectives:

1. recognize and risk-stratify patients with and without a history of coagulation issues, for use in contraception and hormone therapy as well as in pregnancy
2. evaluate the need for further testing and understand guidelines (Thrombosis Canada Guides, WHO Criteria, SOGC statements) to assess risk
3. increase confidence in decision making involving elective therapies and/or avoidance of increased risk of thrombosis, with the proper referrals when necessary

F57593	ECG Workshop: Getting more out of ST and T waves
13:45-14:45	<i>Constance LeBlanc, CCFP(EM), FCFP, MAEd, Halifax, NS; Janet MacIntyre</i>
ROOM / SALLE : 200B – QCCC / CCQ	

Learning objectives:

1. interpret ST and T wave changes that impact clinical decision making in the ED
2. recognize the emergent and “must-know” ST and T wave changes
3. effectively integrate information from clinical presentation and ECG

F57602	Obstetrical Biomechanics: APORB De Gasquet overview
13:45-14:45	<i>Nadine Dubois, MD, CCMF, Québec, QC</i>
ROOM / SALLE : 200B – QCCC / CCQ	

Learning objectives:

1. learn the bases of obstetrical biomechanics developed by Dr Bernadette de Gasquet
2. explore the different labour and delivery postures other than the traditional gynecologic postures
3. understand the impact of posture during labour and delivery in regards to the mother’s breathing, comfort, and fetus descent

V57705	Stratégies et outils pour les lombalgies – dans la « vraie vie »
13:45-14:45	<i>Claude-André Gauthier, Chiropraticien, Ottawa, ON; Pierre Frémont, MD, PhD, CCMF, Québec, QC</i>
ROOM / SALLE : 200A – QCCC / CCQ	

Objectifs d’apprentissage :

1. reconnaître les lombalgies mécaniques les plus fréquentes
2. définir les approches basées sur des données probantes
3. utiliser la trousse d’outil d’examen clinique du dos (Clinically Organized Relevant Examination)

- V57714** **Le cinéma : un outil pédagogique pour l'enseignement des compétences en médecine de famille**
13:45-14:45 Karine Boucher, MD, CCMF, Montréal, QC; Isabelle Hébert, MD, CCMF, Montréal, QC;
Geneviève Agoues, MSc ps-ed, TCF, OPPQ, OPQ, Montréal, QC
ROOM / SALLE : 307AB – QCCC / CCQ

Théâtre des sciences humaines de la santé / *Medical Humanities Theatre*

Objectifs d'apprentissage :

1. connaître les principes de base de l'usage du cinéma en pédagogie médicale et des sciences de la santé
2. définir les avantages de l'usage du cinéma pour l'enseignement des compétences en médecine de famille
3. découvrir les applications possibles de cet outil pédagogique dans son milieu d'enseignement

- F57762** **Green Prescriptions and SCRIPS: Using prescription pads to promote healthier living**
13:45-14:45 Michael Kalin, MD, MA, CCFP, FCFP, Côte Saint-Luc, QC; Jennifer Reoch, RN, MSc-A
ROOM / SALLE : 309B – QCCC / CCQ

Learning objectives:

1. learn about the innovative New Zealand green prescription project to promote exercise in the community
2. expand on the New Zealand model to apply green prescription principles by way of SCRIPS for other diet and lifestyle interventions
3. equip participants with practical ideas for green prescriptions and SCRIPS for immediate implementation, to promote health and wellness in their practices

- F75241** **SOT/SOR Symposium**
13:45-16:15 **Educational Research in Family Medicine: Where we have been – Where we should be going**
ROOM / SALLE : 309A – QCCC / CCQ

Learning objectives:

1. describe what educational research has been carried out by family medicine researchers and the 'pearls' of educational research that are particularly relevant to family medicine educators
2. explore the challenges in medical education research and highlight solutions to these challenges
3. explore research areas and issues that are critical to the needs of family medicine educators as well as areas and issues in medical education research that family medicine is particularly well situated to address

- F75183** **How to Have Difficult Conversations**
13:45-16:15 Wayne Weston, MD, CCFP, FCFP, London, ON; David Keegan, MD, CCFP(EM), FCFP, Calgary, AB
ROOM / SALLE : 302B – QCCC / CCQ

Learning objectives:

1. by the end of this session, participants will be able to hold effective and respectful conversations about challenging topics

- F55758** **Spin the Wheel to Better Communicate**
13:45-16:15 Sophie Galarneau, MD, CCMF, Montréal, QC; Marie-Thérèse Lussier, MD, BSc, MSc, CCMF, FCMF, Montréal, QC; Olivier Jamouille, MD, FRCR, CSPQ, Montréal, QC
ROOM / SALLE : 304B – QCCC / CCQ

Learning objectives:

1. grasp the wider conceptual model of professional health communication and its components
2. experiment with the Professional Health Communication Wheel Chart in different teaching activities
3. adapt the Professional Health Communication Wheel Chart to their own teaching setting

- F57369** **Innovations in the Practice and Teaching of the Patient-Centred Clinical Method**
13:45-16:15 Judith Belle Brown, PhD, London, ON; Tom Freeman, MD, CCFP, London, ON; Julie Copeland, MD, CCFP, London, ON
ROOM / SALLE : 303A – QCCC / CCQ

Learning objectives:

1. describe the four new interactive components of the patient-centred clinical method
2. describe how prevention and health promotion are integrated into the four components of the patient-centred clinical method
3. describe the learner-centred method of education that illustrates many parallels with the patient-centred clinical method

SCIENTIFIC PROGRAM — FRIDAY 14 VENDREDI — PROGRAMME SCIENTIFIQUE

F57500	Creating and Maintaining the Therapeutic Relationship When Providing Mental Health Care
13:45-16:15	<i>Victoria Winterton, MD, CCFP, FCFP, Owen Sound, ON; Ellen Anderson, MD, CCFP, FCFP, Sooke, BC</i>
	ROOM / SALLE : 306B – QCCC / CCQ

Learning objectives:

1. define the importance of an effective therapeutic alliance in outcomes in mental health care
2. recognize patient, physician, and other common factors and how these factors are integrated into the therapeutic alliance
3. acquire skills in self-reflection and self-awareness, recognizing how these skills improve the therapeutic relationship

F57023	Family Medicine Resident and Medical Student Leadership Workshop
13:45-17:30	<i>Louise Nasmith, MD, CCFP, FCFP, Vancouver, BC; Ian M. Scott, MD, CCFP, FCFP, Vancouver, BC; Guillaume Charbonneau, MD, CCMF, Messines, QC</i>
	ROOM / SALLE : 207 – QCCC / CCQ

Learning objectives:

1. leadership attributes and skills
2. model for analyzing change
3. leadership career development

F73456	Becoming A Reflexive Triple C Preceptor: Addressing challenges and creating strategies
13:45-17:30	<i>Diane Clavet, MD, CCMF, FCMF, Saint-Denis-de-Brompton, QC; Ivy Oandasan, MD, CCFP, FCFP, Toronto, ON</i>
	ROOM / SALLE : 303B – QCCC / CCQ

Learning objectives:

1. share and create strategies to help learners to develop competencies to support comprehensive and continuity of care
2. reflect and create a personal learning plan to enhance their role as clinical preceptors, focusing on tasks involved in being a competency coach
3. use a Fundamental Teaching Activities Framework to help teachers become excellent Triple C preceptors

Dr Clavet and Dr Oandasan are the recipients of the DI Rice Award.
Dʳ Clavet et Dʳ Oandasan sont les récipiendaires du Prix DI Rice.

VF68875	Surdiagnostic en clinique : le rôle du médecin de famille
13:45-14:45	Overdiagnoses in the Clinic Setting: The role of the family physician
	<i>Fernand Turcotte, MD, MPH, FRCPC, Montréal, QC</i>

ROOM / SALLE : 200C – QCCC / CCQ

Objectifs d'apprentissage :

1. identifier les situations cliniques à risques de surdiagnostic
2. saisir les impacts sur la santé des patients
3. identifier les implications du surdiagnostic pour la responsabilité professionnelle du médecin

Learning objectives:

1. identify clinical situations influencing the occurrence of over diagnosis
2. define the impact of over diagnosis on the health of patients
3. identify the impact of over diagnosis on the physician's professional responsibility

F75244	Hoping to Be a Better Scientific Writer? Learn how to be a peer reviewer!
15:15-16:15	<i>Nick Pimlott, MD, CCFP, Toronto, ON</i>
	ROOM / SALLE : 301A – QCCC / CCQ

Learning objectives:

1. learn about the strengths and limitations of the peer review process
2. begin to develop a systematic and structured approach to peer reviewing manuscripts
3. enhance their confidence, have more fun peer reviewing manuscripts, and learn tips to improve their own research and scientific writing

FV56705	The Yin and Yang of Clinical Decision-Making Before Prescribing Medical Marijuana
15:15-16:15	Soupeser la décision clinique de prescrire la marijuana à des fins médicales
	<i>Meldon Kahan, MD, CCFP, FCFP, FRCPC, Toronto, ON; Sharon Cirone, MD, CCFP(EM), ASAM (Cert), FCFP, Toronto, ON; Ruth Dubin, PhD, MD, CCFP, FCFP, Kingston, ON</i>
	ROOM / SALLE : 200C – QCCC / CCQ

Learning objectives:

1. understand the potential impact of the new marijuana prescribing legislation
2. conduct an assessment of the potential risks and harms of medical marijuana
3. develop a patient-centred, evidence-based decision about safe marijuana prescribing

Objectifs d'apprentissage :

1. comprendre l'impact potentiel de la nouvelle législation en matière de prescription de marijuana
2. évaluer les risques et méfaits potentiels de la marijuana à des fins médicales
3. arriver à une décision axée sur le patient et fondée sur les données probantes de prescrire la marijuana de façon sûre

F51699 Happy Feet: Feeling good about diabetic foot screening and prevention

15:15-16:15 Michael Yan, MD, CCFP, Edmonton, AB
ROOM / SALLE : 306A – QCCC / CCQ

Learning objectives:

1. list five common foot complications in the diabetic patient
2. learn and demonstrate a quick, easy, and validated approach to screening and classification for the high-risk foot
3. identify resources within the community for high-risk individuals

F54438 Immunizations After 50: Are we protecting adequately the most vulnerable adults?

15:15-16:15 Dominique Tessier, MD, CCMF, FCMF, Montréal, QC
ROOM / SALLE : 206B – QCCC / CCQ

Learning objectives:

1. recognize changes in the guideline for immunizations of adults over 50
2. integrate new vaccines into the immunization schedule of adults over 50
3. integrate vaccines counseling into the practice for adults over 50

F55610 Adopting an Interprofessional Shared Decision-Making Approach (IP-SDM) in the Home Care Context

15:15-16:15 France Légaré, MD, PhD, Québec, QC; Dawn Stacey, RN, PhD, RNOA, Ottawa, ON; Nathalie Brière, PhD, Québec, QC
ROOM / SALLE : 202 – QCCC / CCQ

Learning objectives:

1. explain key elements of interprofessionally shared decision making (IP-SDM)
2. use evidence- and theory-based tools to support individuals making difficult decisions
3. demonstrate skills in supporting clients making difficult health-related decisions in the context of an interprofessional home care team

F57297 La biomécanique obstétricale : méthode APORB De Gasquet, un aperçu

15:15-16:15 Myriam Tremblay, MD, Québec, QC; Nadine Dubois, MD, CCMF, Québec, QC
ROOM / SALLE : 2000B – QCCC / CCQ

Objectifs d'apprentissage :

1. connaître les bases de la biomécanique obstétricale développée par D^r Bernadette de Gasquet
2. explorer différentes postures de travail et d'accouchement autres que la position gynécologique traditionnelle
3. comprendre l'impact de la posture durant le travail et l'accouchement sur la respiration, le confort de la mère et la descente du bébé

F57542 Intrapartum Skills: A refresher of specific skills

15:15-16:15 Lisa Graves, MD, CCFP, FCFP, Ancaster, ON; Bill Ehman, MD, Nanaimo, BC;
Shanna Fenton, MD, CCFP, Saskatoon, SK; Anne Biringer, MD, CCFP, FCFP, Toronto, ON;
Andrée Gagnon, MD, CCMF, Blainville, QC; Sharon Northorp, MD, CCFP, Moncton, NB
ROOM / SALLE : 206A – QCCC / CCQ

Learning objectives:

1. perform hands-on intrapartum skills such as vacuum-assisted birth, release of shoulder dystocia, somersault manoeuvre for tight cord
2. demonstrate Foley catheter insertion for induction
3. show how to manage postpartum hemorrhage

V57708 Points d'actualités sur la maladie cœliaque et la gestion du SII

15:15-16:15 Andréanne Martin, Québec, QC
ROOM / SALLE : 2000D – QCCC / CCQ

Objectifs d'apprentissage :

1. maîtriser les recommandations des nouvelles lignes directrices 2013-2014 concernant le dépistage de la maladie cœliaque
2. énumérer les principales hypothèses pouvant expliquer la perturbation du système nerveux entérique et les manifestations extra-intestinales du SII
3. discerner la sensibilité non cœliaque au gluten (SNCG) et l'intolérance aux fructans (FODMAP)

LEGEND / LÉGENDE

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

SCIENTIFIC PROGRAM — FRIDAY 14 VENDREDI — PROGRAMME SCIENTIFIQUE

F57803	Endometriosis Diagnosis and Management: Applying current Canadian guidelines in clinical practice
15:15-16:15	Diane Francoeur, MD, FRCSC, Montréal, QC
	ROOM / SALLE : 200A – QCCC / CCQ

Learning objectives:

1. accurately assess and diagnose endometriosis
2. select appropriate patients for diagnostic laparoscopy and treatment
3. use a decisional algorithm for treatment of endometriosis using medical and/or surgical approaches

F57841	You've Intubated: Now what?
15:15-16:15	Gavin Parker, BSc, MSc (Med Ed), MD, CCFP, Pincher Creek, AB
	ROOM / SALLE : 200B – QCCC / CCQ

Learning objectives:

1. describe principles of monitoring of an intubated patient in the emergency room environment
2. describe the basics of ventilator settings and the use of neuromuscular blocking agents, and understand the need for adequate analgesia and sedation
3. develop an approach to the deteriorating intubated patient and apply strategies to prevent ventilator associated pneumonia (VAP)

FV57757	Stories in Family Medicine / Récits en médecine familiale
15:15-17:30	Joyce Zazulak, MD, CCFP, FCFP, Hamilton, ON
	ROOM / SALLE : 2000A – QCCC / CCQ

Medical Humanities Session / Séance des sciences humaines de la santé**Learning objectives:**

1. hear stories that bear witness to the physician-patient relationship and the power of humanity in care delivery
2. learn how stories can help family physicians communicate their values and beliefs to students, residents, and colleagues
3. find inspiration that can help them put thoughts on paper and submit stories to the project

Objectifs d'apprentissage :

1. écouter les histoires qui témoignent de la relation médecin-patient et le pouvoir de l'humanité dans la prestation des soins
2. apprendre la façon dont les récits peuvent aider les médecins de famille à communiquer leurs valeurs et croyances aux étudiants, résidents et collègues
3. trouver l'inspiration pour l'aider à mettre ses idées sur papier et le pousser à soumettre ses propres récits au projet

FV53567	Bisphosphonate Drug Holiday: Who, when, and how long?
16:30-17:30	Congé thérapeutique des bisphosphonates : Quand, pour qui et pour combien de temps?
	Suzanne Morin, MD, MSc, FRCPC, Montréal, QC

ROOM / SALLE : 200C – QCCC / CCQ**Learning objectives:**

1. discuss fracture risk assessment and treatment options for patients at high risk for fracture
2. describe adverse clinical events that have been associated with long-term use of bisphosphonates
3. review the evidence to support a strategy toward optimal duration of therapy and drug holiday for patients on bisphosphonates

Objectifs d'apprentissage :

1. discuter de l'évaluation du risque de fracture et des options thérapeutiques pour les patients dont le risque de fractures est élevé
2. décrire les manifestations cliniques indésirables ayant été associées à l'emploi prolongé de bisphosphonates
3. examiner les données probantes établissant une stratégie visant la durée optimale du traitement et du congé thérapeutique pour les patients sous bisphosphonates

V55319	Troubles du langage et de la parole chez l'enfant : parlons-en
16:30-17:30	Caroline Fiset, MD, CCMF, BSc, MPO, Québec, QC
	ROOM / SALLE : 2000D – QCCC / CCQ

Objectifs d'apprentissage :

1. énoncer les étiologies et les facteurs de risque d'une atteinte langagièrre
2. énumérer les étapes du développement normal du langage et les signes d'appel selon l'âge
3. donner des conseils de stimulation aux parents et savoir quand référer

F51120	Why Do We Let Mothers Suffer? Comparing exposure to antidepressants versus perinatal depression
16:30-17:30	Sanjeev Bhatla, MD, CCFP, FCFP, Calgary, AB
	ROOM / SALLE : 2000B – QCCC / CCQ

Learning objectives:

1. acquire an evidence-based approach for assessing the risk-benefit ratio of antidepressants in pregnancy
2. feel less fearful of prescribing antidepressants in pregnancy
3. initiate psychosocial and medical treatment for depression in pregnancy

F57679 Building Knowledge and Resiliency in a Distributed Teaching Base

16:30-17:30 Susan Goldstein, MD, CCFP, FCFP, NCMP, Toronto, ON; Adam Dwosh, MD, CCFP, FCFP, Toronto, ON

ROOM / SALLE : 309A – QCCC / CCQ

Learning objectives:

1. understand some of the challenges of providing faculty development to a distributed teaching base
2. develop strategies for engagement and faculty development for distributed faculty
3. consider strategies for retention in this teaching demographic

F51288 Using Misoprostol in Your Practice for Early Pregnancy Loss

16:30-17:30 Konia Trouton, MD, CCFP, FCFP, Victoria, BC; Ellen Wiebe, MD, CCFP, FCFP, Vancouver, BC

ROOM / SALLE : 206B – QCCC / CCQ

Learning objectives:

1. choose appropriate spontaneous abortion patients for treating with misoprostol
2. describe the risks and side effects of misoprostol and methotrexate in spontaneous and induced abortions
3. safely use protocols for treating early ectopic pregnancies with methotrexate

F53839 Transgender Health and Hormone Therapy in Primary Care

16:30-17:30 Nili Kaplan-Myrth, MD, CCFP, PhD, Ottawa, ON

ROOM / SALLE : 309B – QCCC / CCQ

Learning objectives:

1. describe the barriers to accessing health care for transgender youth and adults
2. review the World Professional Association for Transgender Health guidelines for hormone assessments and therapy
3. build capacity for collaborative transgender health networks

F55112 It's Only Syncope: No need to pass out!

16:30-17:30 Vu Kiet Tran, MD, CCFP(EM), FCFP, MHSc, MBA, Richmond Hill, ON

ROOM / SALLE : 200A – QCCC / CCQ

Learning objectives:

1. elaborate on a primary care investigative strategy for the patient presenting with syncope
2. efficiently identify the patient with syncope of cardiac origin
3. efficiently apply clinical tools to risk-stratify the patient with syncope

F57318 Bringing Home Care Teaching Into the Mainstream: A competency-based curriculum for family medicine residents

16:30-17:30 John Kirk, CCFP, FCFP, Montréal, QC; Fanny Hesson, MD, CCFP, Montréal, QC

ROOM / SALLE : 303A – QCCC / CCQ

Learning objectives:

1. describe the composition of a longitudinal home care teaching program
2. develop a competency-based curriculum tailored to the setting
3. set up a quality improvement process to evolve and refine the overall program

F57599 Adverse Childhood Experiences Affect Adult Health Outcomes: Evidence and tools for busy docs

16:30-17:30 Wendy Tink, MD, BSc(Dist), CCFP, FCFP, Calgary, AB; Jessica Tink, BSc, Calgary, AB

ROOM / SALLE : 306B – QCCC / CCQ

Learning objectives:

1. define adverse childhood experiences (ACEs) and appreciate actual prevalence
2. describe how enduring altered neurobiology of the developing brain exposed to recurrent ACEs can affect adult physical, mental, and behavioural health outcomes
3. recognize when to ask about an ACE history, why to ask, how to ask, and how to address a positive history and still get home on time!

LEGEND / LÉGENDE

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

SCIENTIFIC PROGRAM — FRIDAY 14 VENDREDI — PROGRAMME SCIENTIFIQUE

F57829 Using Evidence Triangulation to Help Residents in Difficulty

16:30-17:30 *Paul Humphries, MD, CCFP, FCFP, Edmonton, AB; Shelley Ross, PhD, Edmonton, AB; Shirley Schipper, MD, CCFP, Edmonton, AB; Mike Donoff, MD, CCFP, FCFP, Edmonton, AB*
ROOM / SALLE : 304B – QCCC / CCQ

Learning objectives:

1. explain how existing assessment tools can be modified to help with early detection of residents in difficulty
2. identify how assessment tools can be used for identification of residents in difficulty and for remediation
3. identify how field notes can be used as a tool for identification of residents in difficulty and for remediation

F57846 Procedural Sedation in the Rural ER

16:30-17:30 *Gavin Parker, BSc, MSc (Med Ed), MD, CCFP, Pincher Creek, AB*
ROOM / SALLE : 200B – QCCC / CCQ

Learning objectives:

1. describe the choices of different agents and combinations thereof for procedural sedation
2. describe the monitoring principles of procedural sedation, as adapted for different clinical situations
3. describe the anticipation and management of complications of procedural sedation

F57853 Evaluating the Effectiveness of a Quality Improvement Program for Family Medicine Residents

16:30-17:30 *Karen Hall Barber, BSc(Hon), MScHQ(c), MD, CCFP, Kingston, ON; Danyal Martin, BAH, BEd, MA, MScHQ(c), Kingston, ON; Abigail Scott, BAH, Dip HIM, CHIM, Kingston, ON*
ROOM / SALLE : 302B – QCCC / CCQ

Learning objectives:

1. describe different models and approaches to incorporating quality improvement (QI) teaching into a medical education program
2. recognize and address barriers and limitations to incorporating QI teaching and experiential QI projects into a busy education program and clinical practice
3. describe different approaches to evaluating the effectiveness of a QI teaching program

F75407 Mainpro+ ... A New Look, With New Ways to Learn (4)

17:30-18:30 *Janice Harvey, MD, CCFP, FCFP, Dundas, ON; Dominique Tessier, MD, CCMF, FCMF, Montréal, QC; Jim Thorsteinson, MD, CCFP, FCFP, Vancouver, BC; Khurram Jahangir, MD, CCFP(EM), FCFP, Edmonton, AB; Teresa Wawrykow, MD, CCFP(EM), Winnipeg, MB; Eric Wong, MD, CCFP, London, ON; Scott MacDonald, MD, CCFP(EM), FCFP, Bedford, NS*
ROOM / SALLE : 308A – QCCC / CCQ

Join us for an informative session on the updates to Mainpro coming soon. Get to know who your Regional Educator is and hear about the exciting changes which will offer more intuitive, self-directed learning opportunities. You will learn how easy it is to earn credits for practice activities you do on a daily basis. The CFPC is committed to providing quality CPD to meet your changing interests and learning needs.

Participants may claim an additional Mainpro-M1 credit for this session.

DAILY BADGE SCAN REQUIRED – PROOF OF PARTICIPATION: Remember to have your name badge scanned EACH DAY by a CFPC staff member throughout the conference. Self-scanning stations are also available throughout the conference venues. All scanned registrants will receive a letter confirming attendance at Family Medicine Forum 2014 by January 1, 2015. **Please note that these letters are not available for pick-up on-site.**

Session cancellation: The College reserves the right to cancel session(s) due to unforeseen circumstances and cannot accept responsibility for out-of-pocket expenses incurred due to the cancellation of any session.

SCANNAGE QUOTIDIEN DE L'INSIGNE OBLIGATOIRE – PREUVE DE PARTICIPATION : N'oubliez pas de faire scanner votre insigne d'identité CHAQUE JOUR par un membre du personnel du CMFC durant toute la conférence. Des postes de lecteur code-barre se trouveront aussi un peu partout sur les lieux de la conférence. Tous les participants inscrits dont l'insigne aura été scanné recevront une lettre confirmant leur participation au Forum en médecine familiale 2014 avant le 1^{er} janvier 2015. **Veuillez noter que ces lettres ne seront pas disponibles sur place.**

Annulation de séance : Le Collège se réserve le droit d'annuler une ou plusieurs séances s'il survient des événements imprévus et ne sera pas responsable de toute manue dépense encourue en raison de l'annulation d'une séance.

S57397 **La vie après les soins intensifs**
08:30-09:00 *Mathieu Moreau, MD, CCMF, Laval, QC*
ROOM / SALLE : 200B – QCCC / CCQ

Objectifs d'apprentissage :

1. connaître les effets à long terme de la ventilation mécanique
2. connaître les effets à long terme du delirium des soins intensifs
3. reconnaître l'état de stress post-traumatique chez les survivants des soins intensifs

S57540 **High-Altitude Medicine: Current trends and prevention**
08:30-09:00 *Eric Mercier, MD, Québec, QC*
ROOM / SALLE : 309B – QCCC / CCQ

Learning objectives:

1. understand the physiologic aspects of acclimatization during high-altitude exposure
2. explore the current trends regarding high-altitude medicine screening tools and prophylaxis
3. prescribe the appropriate prophylaxis for high-altitude travelers

S57840 **How to Reduce the Impact of Poverty in Primary Care: A simple three-step office-based tool**
08:30-09:00 **Comment réduire l'impact de la pauvreté en pratique générale : Un outil simple en trois étapes à utiliser au bureau du médecin**
Larisa Hausmanis, MD, CCFP, MPH, Toronto, ON; Danyaal Raza, MD, CCFP, Toronto, ON
ROOM / SALLE : 306B – QCCC / CCQ

Learning objectives:

1. discuss a simple, three-step tool, endorsed by the OCFP and targeted at family physicians in office-based practice, for intervening in poverty as a health risk
2. explore examples of interventions family physicians can employ to address poverty as a risk to health at individual, community, and societal levels
3. briefly review Canadian evidence linking poverty to health issues including diabetes, heart disease, mental illness, and children's health

S57978 **Maternal and Newborn Prison Health**
08:30-09:00 *Ruth Elwood Martin, MD, CCFP, FCFP, Vancouver, BC; Josiane Cyr, MD, CCFP, Montréal, QC;*
Bill Ehman, MD, Nanaimo, BC; Lisa Graves, MD, CCFP, FCFP, Ancaster, ON
ROOM / SALLE : 2014AB – QCCC / CCQ

Learning objectives:

1. increase knowledge about maternal and newborn health among prison populations
2. engage in dialogues about how to provide prison health care for incarcerated women and their newborns
3. become familiar with charter and legal rights of Canadian newborns to stay with their incarcerated mother

S53036 **Anaphylaxis: From the emergency department to the primary care office /**
08:30-09:30 **Anaphylaxie : du service d'urgence au cabinet en soins**
Vu Kiet Tran, MD, CCFP(EM), FCFP, MHSc, MBA, Richmond Hill, ON
ROOM / SALLE : 2000A – QCCC / CCQ

Learning objectives:

1. recognize anaphylaxis
2. enumerate the limitations of the literature on the different treatments of anaphylaxis
3. elaborate a treatment plan for the emergency department and the office

Objectifs d'apprentissage :

1. reconnaître l'anaphylaxie
2. dresser la liste des limites de la documentation sur les différents traitements de l'anaphylaxie
3. élaborer un plan de traitement pour le service d'urgence et le bureau

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

S57040	Untangling the Helix: Genomics for primary care providers
08:30-09:30	June Carroll, MD, CCFP, FCFP, Toronto, ON; Shawna Morrison, MS, CGC, Ottawa, ON; Judith Allanson, MB, ChB, FRCPC, FCCMG, DABMG, Ottawa, ON
	ROOM / SALLE : 306A – QCCC / CCQ

Learning objectives:

1. refer to genetics centre or order genetic testing appropriately for developmental delay and autism, sudden death or bleeding disorder
2. discuss and address patient concerns regarding family history of Alzheimer disease and multiple sclerosis
3. find high-quality genomics educational resources appropriate for primary care

S57396	Practical Evidence-Based Medicine for Clinical Practice
08:30-10:15	David Chan, MD, CCFP, MSc, FCFP, Ancaster, ON; Henry Siu, MD, MSc, CCFP, Oakville, ON
	ROOM / SALLE : 202 – QCCC / CCQ

Learning objectives:

1. perform common EBM calculations such as specificity, sensitivity, likelihood ratios, and NNT
2. apply EBM principles to history taking, physical examinations, ordering diagnostic tests, and selecting treatment options
3. identify EBM resources and online tools that can help patients better understand risk of disease, diagnosis, and treatment

S57045	Pulse Oximetry Screening in Newborns to Detect Congenital Heart Disease
09:00-09:30	Kenny Wong, MD, FRCPC, Halifax, NS; Hilary Kinnear, MD, CCFP, Halifax, NS
	ROOM / SALLE : 206A – QCCC / CCQ

Learning objectives:

1. describe how pulse oximetry screening can be used to detect critical congenital heart disease in newborns
2. list the benefits and limitations of pulse oximetry screening
3. support the development and/or implementation of a pulse oximetry program in the participants' regions

S57532	DD Health Checks: Knowledge to action in developmental disabilities
09:00-09:30	Ian Casson, MD, MSc, CCFP, FCFP, Kingston, ON
	ROOM / SALLE : 307AB – QCCC / CCQ

Learning objectives:

1. discuss a stepwise process to put into practice clinical guidelines for the care of adults with developmental disabilities
2. identify components of annual health checks that would enhance the care of adults with developmental disabilities
3. develop strategies to identify patients with developmental disabilities in family practices

S57620	Office Processes Facilitating Responsible Chronic Opioid Prescribing
09:00-09:30	Saadia Hameed, MBBS, CCFP, MCISc-FM(c), London, ON
	ROOM / SALLE : 2000B – QCCC / CCQ

Learning objectives:

1. identify the medicolegal and evidence-based requirements around chronic opioid prescribing
2. implement consistent standard office processes to facilitate safe and responsible opioid prescribing
3. use the EMR to increase efficiency around prescription of narcotic medications

S57969	Elder Care in Prison
09:00-09:30	Ruth Elwood Martin, MD, CCFP, FCFP, Vancouver, BC; Vipul Zparekh
	ROOM / SALLE : 2104AB – QCCC / CCQ

Learning objectives:

1. brainstorm common eldercare clinical scenarios facing prison health practitioners and some "best practice" responses
2. contribute to the development of a "tool box" of prison health best practices, which will become an e-resource for prison health practitioners
3. network with other physicians, medical students, and residents who wish to foster prison health best practices in Canada

S49367	Family Doctors Treating Adolescent Depression? Yes, we can!
09:00-10:30	Sanjeev Bhatla, MD CM, CCFP, FCFP, Calgary, AB
	ROOM / SALLE : 206B – QCCC / CCQ

Learning objectives:

1. feel more confident about assessing adolescents for mental health issues
2. diagnose depression in adolescents
3. have the tools necessary to initiate psychosocial and medical treatments for adolescent depression

S57519 Preconception and Postpartum Care for High-Risk Women**09:45-10:15** Karen Fleming, MD, MSc, CCFP, FCFP, Toronto, ON**ROOM / SALLE : 206A – QCCC / CCQ****Learning objectives:**

1. describe the current gaps in care for preconception counseling and postpartum screening in women with obesity, diabetes, and hypertension during pregnancy
2. understand the role of the family physician in improving preconception planning and care for women with obesity, previous gestational diabetes, and previous hypertensive disorders of pregnancy
3. understand the role of the family physician in improving postpartum screening and prevention in women with gestational diabetes, obesity, and hypertensive disorders of pregnancy

S57899 Alcohol-Related Syndromes in the ER: Differentiating the many possibilities**09:45-10:15** Phil McGuire, MD, CCFP(EM), FCFP, Midland, ON**ROOM / SALLE : 309B – QCCC / CCQ****Learning objectives:**

1. recognize common alcohol syndromes that present to the emergency room
2. identify potential confounders or comorbidities
3. manage alcohol-affected patients safely and confidently

S57975 Primary Care and Hepatitis C in Prison**09:45-10:15** Ruth Elwood Martin, MD, CCFP, FCFP, Vancouver, BC; Chris Goodall, MD, FCFP, St. John's, NL**ROOM / SALLE : 2104AB – QCCC / CCQ****Learning objectives:**

1. increase knowledge about primary care and hepatitis C in prison
2. engage in dialogues about how to provide primary care and hepatitis C care that is equivalent to health care provided in the outside community
3. become familiar with a variety of ways to address hepatitis C issues that commonly face prison health practitioners

S68947 🎧 Plaies chroniques : mieux diagnostiquer et mieux traiter !**09:45-10:45 Chronic Wounds: Better diagnosis, better treatment!**

Marie-Françoise Mégie, MD, CCMF, Laval, QC

ROOM / SALLE : 200C – QCCC / CCQ**Objectifs d'apprentissage :**

1. effectuer l'évaluation globale d'un patient souffrant d'une plaie chronique
2. déterminer le type de plaie et sa phase de cicatrisation
3. élaborer un plan de traitement approprié dans un contexte multidisciplinaire

Learning objectives:

1. conduct a comprehensive assessment of a patient with a chronic wound
2. identify wound type and phase of scarring
3. develop an appropriate treatment plan within a multidisciplinary context

S56536 Teaching in the Long-Term Care Setting: More than a guided tour**09:45-10:45** Vivian Ewa, MBBS, MRCP(UK), CCFP, CoE, Calgary, AB**ROOM / SALLE : 303A – QCCC / CCQ****Learning objectives:**

1. describe core competencies in the long-term care rotation
2. integrate the Triple C curriculum into the design of the long-term care curriculum
3. evaluate and use effective teaching and learning strategies to facilitate active learning in the long-term care setting

LEGEND / LÉGENDE

Simultaneous interpretation / Interprétation simultanée

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

S57354 Approach to Psychotherapy in Primary Care

09:45-10:45 Jon Davine, MD, CCFP, FRCPC, Hamilton, ON

ROOM / SALLE : 200B – QCCC / CCQ

Learning objectives:

1. differentiate between models of supportive and cognitive behavioural psychotherapy
2. identify when to use specific psychotherapies at specific times
3. learn how to apply the principles of cognitive behavioural therapy, through the use of case examples

S57494 Evaluating What We Value: Assessing postgraduate trainees in advocacy and manager roles

09:45-10:45 Perle Feldman, MD, CCFP, FCFP, North York, ON

ROOM / SALLE : 302B – QCCC / CCQ

Learning objectives:

1. use a framework to assess postgraduate trainees using the CanMEDS–FM roles and the CFPC skills dimensions
2. utilize the field note as an approach to the assessment of the learning trajectory in family medicine residency
3. practise assessing residents via field notes with the use of video simulated cases

S57581 Less Is More in Medicine: Avoiding pitfalls of overtesting and overtreatment /

09:45-10:45 Moins c'est mieux en médecine : Éviter le piège des surtests et du surtraitement

Jessica Otte, MD, CCFP, Vancouver, BC

ROOM / SALLE : 2000A – QCCC / CCQ

Learning objectives:

1. understand the concept of "appropriateness in medicine"
2. review pitfalls in overtesting and overtreating, including case examples of common areas for avoidable iatrogenic harm
3. learn and integrate techniques and shared decision-making tools in discussions with patients to achieve appropriateness in care

Objectifs d'apprentissage :

1. comprendre le concept de « pertinence en médecine »
2. revoir le piège des surtests et du surtraitement, y compris des exemples de cas dans des domaines courants pour éviter les effets iatrogènes néfastes
3. apprendre et intégrer les techniques et outils de prise de décision partagée avec le patient afin de pratiquer la pertinence des soins

S57585 Management of Chronic Pain in High-Risk Patients

09:45-10:45 Robert Hauptman, BMSc, MD, MCFP, St. Albert, AB; Alan Kaplan, MD, CCFP(EM), FCFP, Richmond Hill, ON

ROOM / SALLE : 306A – QCCC / CCQ

Learning objectives:

1. recognize the problem of pain and addiction in Canada
2. complete a comprehensive assessment for addiction in a chronic pain patient
3. develop management strategies for managing chronic pain in high-risk patients

S57833 Review of Current Medical Education Literature

09:45-10:45 Fred Janke, BSc, MSc, MD, FCFP, FRRMS, Edmonton, AB; Sudha Koppula, BSc, MD, MCISc, CCFP, Edmonton, AB

ROOM / SALLE : 304A – QCCC / CCQ

Learning objectives:

1. provide an overview of important and useful papers in the recent medical education literature with a priority on the learner in difficulty, high achievers, and distributed medical education
2. explore the evidence available for clinical teaching approaches, and use this to create transformation in medical education
3. provide a venue to share and discuss other interesting literature among medical educators

S57890 Autism Spectrum Disorder: Screening, diagnosis, and management of psychiatric and physical comorbidities

Liz Grier, MD, CCFP, Kingston, ON; David Joyce, MD, CCFP(EM), Vancouver, BC; Donna Lougheed, FRCPC, Ottawa, ON

ROOM / SALLE : 307AB – QCCC / CCQ

Learning objectives:

1. learn screening strategies for early recognition of ASD
2. become familiar with early intervention for ASD and on advising parents on simple strategies they can start right away
3. learn how to anticipate and manage common psychiatric and physical comorbidities for patients with ASD, especially in adulthood

S57529	Planning and Facilitating Effective Workshops: Moving from lacklustre to superb
09:45-12:15	Brent Kvern, MD, CCFP, FCFP, Winnipeg, MB; James Goertzen, MD, MSc, CCFP, FCFP, Thunder Bay, ON
ROOM / SALLE : 304B – QCCC / CCQ	

Learning objectives:

1. utilize active learning principles within a workshop group of any size
2. learn 10 common reasons participants get bored in workshops
3. manage behaviours often exhibited by difficult participants without detriment to group process

S55530	Towards a High-Performance Medical Home: A roadmap to optimal patient-centred care
10:15-10:45	Shauna Wilkinson, BMgt, Calgary, AB; Chris Bockmuehl, MD, CCFP, FCFP, Calgary, AB
ROOM / SALLE : 309A – QCCC / CCQ	

Learning objectives:

1. foster a collaborative and patient-focused health team that emphasizes trusting relationships, supportive communication, a cadence of accountability, and measurement of outcomes
2. successfully integrate an interdisciplinary team of health professionals within the primary health team
3. incorporate proactive care strategies, panel management initiatives, and management of care gaps through the expansion and empowerment of the medical office assistant

S57438	The Involuntary Patient: Use and abuse of the Mental Health Act in the emergency room
10:15-10:45	Phil McGuire, MD, CCFP(EM), FCFP, Midland, ON
ROOM / SALLE : 306B – QCCC / CCQ	

Learning objectives:

1. apply mental health legislation effectively and humanely
2. recognize situations requiring medical intervention that are not governed by mental health legislation
3. be aware of patient rights to representation and review

S57577	Fetal Origins of Adult Diseases: Does it all begin in the womb?
10:15-10:45	Karen Fleming, MD, MSc, CCFP, FCFP, Toronto, ON
ROOM / SALLE : 204B – QCCC / CCQ	

Learning objectives:

1. describe the fetal origins of adult disease hypothesis
2. review evidence for fetal programming for diabetes, obesity, cardiovascular disease, and certain cancers
3. discuss implications for pre-pregnancy and prenatal care in preventing future diseases

10:15-10:45	Prison Health Educational Opportunities for Medical Students and Residents
	Ruth Elwood Martin, MD, CCFP, FCFP, Vancouver, BC; John Koehn, MD, CCFP, New Westminster, BC
ROOM / SALLE : 2104AB – QCCC / CCQ	

Learning objectives:

1. review CanMED competencies and roles that prison health educational opportunities can foster for learners
2. understand the variety of prison health educational opportunities that are currently offered in undergraduate and postgraduate programs in Canada
3. network with others who are interested in fostering prison health educational opportunities

S57673	Improving Outcomes for Concussion/Mild Traumatic Brain Injury: Testing the quick screen symptom management tool in family practice
11:15-11:45	Donna Ouchterlony, MD, Toronto, ON; Cindy Hunt, PhD, RN, Toronto, ON; Alicja Michalak, RN, MSc (Psych), BScN, MSN, Toronto, ON
ROOM / SALLE : 301B – QCCC / CCQ	

Learning objectives:

1. describe common data elements used in the St. Michael's Hospital Head Injury Clinic
2. describe the quick screen symptom management tool and the tool scoring system
3. discuss, using a SWOT analysis (strengths, weaknesses, opportunities, and threats), the quick screen tool and scoring system in participants' clinical settings

LEGEND / LÉGENDE

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

S50971 Sex and Birth Control: Are they related?
11:15-12:15 Ellen Wiebe, MD, CCFP, FCFP, Vancouver, BC
ROOM / SALLE : 306B – QCCC / CCQ

Learning objectives:

1. name the possible sexual side effects of hormonal, intrauterine, and barrier contraception in order to help patients choose contraception that does not interfere with sexual pleasure
2. understand the different motivations to have sex and to have children, in order to help patients avoid unintended pregnancies while they enjoy sex
3. use good questions when asking about sexual side effects

S51338 The Basics of Starting Insulin in Type 2 Diabetes, Without Losing Sleep at Night
11:15-12:15 Simon Moore, MD, CCFP, Vancouver, BC
ROOM / SALLE : 306A – QCCC / CCQ

Learning objectives:

1. understand a safe, simple, easy-to-remember technique for confidently starting insulin in patients with type 2 diabetes, consistent with 2013 guidelines
2. eliminate the prevailing misconception that “insulin is a terrifying drug, for use only by experts, and only in end-stage diabetes”
3. review practical clinical tools and common pitfalls, to help family physicians meet glycemic targets

S51979 The Computable Patient Record: Electronic Medical Record 5.0, the next generation
11:15-12:15 John Hughes, MD CM, Montréal, QC
ROOM / SALLE : 206A – QCCC / CCQ

Learning objectives:

1. define informatics and its application to achieve safer and more effective and efficient clinical practice
2. recognize the difference between computable and non-computable clinical record content
3. articulate the informatics requirements necessary for an EMR to be a computable medical record

S54007 Teaching Perineal Repair Skills by Using Low-Fidelity Simulation
11:15-12:15 Jolanda Turley, MD, CCFP, Ottawa, ON; Kristine Whitehead, MD, CCFP, Ottawa, ON
ROOM / SALLE : 303A – QCCC / CCQ

Learning objectives:

1. demonstrate the use of a simple perineal model used to teach repair skills at the University of Ottawa
2. share our experiences of postgraduate teaching workshops using this model, and engage participants to share their own successes
3. offer the participants an opportunity to use the model and share feedback around usefulness, drawbacks, and possible improvements

S54399 Building Resilience and Fostering Health Among Children and Youth
11:15-12:15 Susan Phillips, MD, CCFP, Kingston, ON; nge Schabot, MB ChB, CCFP, Hamilton, ON;
ROOM / SALLE : 206B – QCCC / CCQ

Learning objectives:

1. describe what resilience is and how it fosters health
2. identify resilience in children and youth
3. identify educational and community resources that build resilient children and youth

S55099 Pearls for Prevention and Health Promotion: What's new and what's still important in 2014
11:15-12:15 Perles de prévention et de promotion de la santé : quoi de neuf et qu'est-ce qui persiste en 2014
Lisa Freeman, BSc(Hon), MD, Edmonton, AB
ROOM / SALLE : 200C – QCCC / CCQ

Learning objectives:

1. be familiar with new guidelines for preventive care in 2014
2. be comfortable integrating evidence-based preventive care manoeuvres into an office visit
3. have strategies to prioritize preventive care delivery and use existing systems, such as EMRs, to enhance prevention and health promotion

Objectifs d'apprentissage :

1. se familiariser avec les nouvelles lignes directrices sur les soins préventifs en 2014
2. intégrer avec aisance les manœuvres de soins préventifs fondées sur les données probantes durant une visite en cabinet
3. disposer de stratégies de priorisation en matière de prestation des soins préventifs et utiliser les systèmes en place, comme le DMÉ, pour améliorer la prévention et la promotion de la santé

S55114	Complex Diagnoses in the ED Made From Far Away
11:15-12:15	<i>Vu Kiet Tran, MD, CCFP(EM), FCFP, MHSc, MBA, Richmond Hill, ON</i>
ROOM / SALLE : 2000B – QCCC / CCQ	

Learning objectives:

1. recognize the physical signs of some of the most complex entities diagnosed in the ED
2. identify the seriously ill patient efficiently
3. elaborate treatment plans for some of these serious conditions

S55499	A Blind Spot: Modeling advocacy with residents
11:15-12:15	<i>Rowland Nichol, MD, CCFP, FCFP, MBA, CEC, Calgary, AB</i>
ROOM / SALLE : 304A – QCCC / CCQ	

Learning objectives:

1. explain the scope of advocacy as defined by CFPC's CanMEDS-Family Medicine
2. reflect on personal and shared stories of physicians acting as advocates
3. draft a personal action that will change the advocacy modeling experienced by participants' residents

S56624	Management of Heart Failure: A practical approach for family physicians
11:15-12:15	<i>Adam Grzeslo, MD, CCFP, FCFP, Burlington, ON; Anique Ducharme, MD, MSc, FRCP, Montréal, QC</i>
ROOM / SALLE : 2000A – QCCC / CCQ	

Learning objectives:

1. articulate typical diagnostic testing essential for diagnosis and management of heart failure
2. demonstrate ability to deal with complex issues, including when to refer, underpinning heart failure management in primary care
3. integrate Canadian evidence-based heart failure practice guidelines, recommendations, and practical tips in clinical practice

Objectifs d'apprentissage :

1. nommer les tests diagnostiques typiquement essentiels pour poser un diagnostic d'insuffisance cardiaque et prendre en charge le patient
2. démontrer la capacité de composer avec des problèmes complexes, y compris le moment de recommander un patient, étayer la prise en charge de l'insuffisance cardiaque en soins primaires
3. intégrer dans la pratique clinique les lignes directrices, recommandations et conseils canadiens fondés sur les données probantes sur le traitement de l'insuffisance cardiaque

S56676	Depression With Medical Illness: Challenges in management
11:15-12:15	<i>Pallavi Nadkarni, MD, MRCPsych, MMedSc, Kingston, ON</i>
ROOM / SALLE : 200B – QCCC / CCQ	

Learning objectives:

1. state the relationship between depression and medical illness
2. correctly identify a depressive episode in the medically ill patient
3. demonstrate nuances in prescribing for the medically ill

S57864	Practical and Proven Ways to Integrate QI Into Your Academic Family Medicine Program
11:15-12:15	<i>Elizabeth Muggah, MD, MPH, CCFP, FCFP, Ottawa, ON; Philip Ellison, MD, MBA, CCFP, FCFP, Toronto, ON; Patricia O'Brien, RN, MA, CNeph(C), Toronto, ON</i>
ROOM / SALLE : 302B – QCCC / CCQ	

Learning objectives:

1. explore the drivers for integrating QI into an academic family medicine program
2. demonstrate specific ways that QI has been integrated into a residency program
3. share best evidence and experience in QI with faculty leaders from across the country

S57979	CFPC Health Advocacy for Sterile Injection Equipment Inside Canadian Prisons
11:15-12:15	<i>Ruth Elwood Martin, MD, CCFP, FCFP, MPH, Vancouver, BC; Richard Cloutier, Québec, QC</i>
ROOM / SALLE : 2104AB – QCCC / CCQ	

Learning objectives:

1. become familiar with established international evidence regarding health benefits of prison sterile needle programs
2. review the current situation regarding the risks of blood-borne disease transmission within Canadian correctional populations
3. engage in dialogues regarding ways that the CFPC and Canadian health care providers might advocate for harm reduction programs, including sterile needle exchange, inside Canadian correctional facilities

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

S57838	Applying PAR Principles and a QI Approach to Enhance Access to Health Services in Rural Northern BC
11:45-12:15	<i>Dan Horvat, BSc, MD, MCFP, Prince George, BC; Tammy Klassen-Ross, BA, MSc, PhD(c), Prince George, BC</i>
	ROOM / SALLE : 301B – QCCC / CCQ
<i>Learning objectives:</i>	
	1. impart understanding of how Northern Partners in Care (NPiC) is working to improve access and quality of health services in Northern BC by improving relationships between physicians 2. explain the use of and interaction between a quality improvement (QI) approach to implementation, evaluation, and the use of participatory action research (PAR) principles to the work of NPiC 3. explore with the audience the potential of this approach as well as the concept of Triple Aim measurement to health services improvement and research
12:15-13:45	Assemblée annuelle des membres du CQMF / QCFP Annual Meeting Of Members
	SALLE : 308AB – CCQ
S50965	Caring for Patients by Video Telemedicine: How does this fit into family practice?
13:45-14:45	<i>Ellen Wiebe, MD, CCFP, FCFP, Vancouver, BC</i>
	ROOM / SALLE : 206B – QCCC / CCQ
<i>Learning objectives:</i>	
	1. describe which patients and which situations are best suited to video telemedicine visits 2. troubleshoot scheduling, billing, and technical issues 3. address privacy concerns
S54373	Teaching Multimorbidity to Our Learners
13:45-14:45	<i>William Osmun, MD, MClSc, CCFP, FCFP, Mount Brydges, ON; George Kim, MD, CCFP, London, ON</i>
	ROOM / SALLE : 304B – QCCC / CCQ
<i>Learning objectives:</i>	
	1. review the concept of multimorbidity and a family physician's approach to helping patients with multimorbidity 2. demonstrate an innovative teaching method that highlights for learners the "how" of managing patients with multimorbidity 3. explore other methods of teaching multimorbidity to learners
S54962	Optimal Prescribing of Anticoagulants in the Elderly With Atrial Fibrillation: The "do's" and "don'ts"
13:45-14:45	<i>Michelle Hart, MD, CCFP, MScCH, Toronto, ON; Pauline Santora, BScPhm, RPh, ACPR, PharmD</i>
	ROOM / SALLE : 206A – QCCC / CCQ
<i>Learning objectives:</i>	
	1. integrate when to use warfarin vs. the new oral anticoagulants with the current guidelines 2. recognize the challenges in warfarin management and apply optimization strategies in dosing and monitoring 3. differentiate between the new oral anticoagulants and apply practical recommendations to ensure safe and effective prescribing of each agent
S56679	Team-Based Teaching: Tips from the trenches
13:45-14:45	<i>Cleo Haber, BSW, MSW, RSW, LCSW, Toronto, ON; Lauren Davidson, RD, CDE, Toronto, ON; Suzanne Singh, BScPhm, PharmD, RPh, Toronto, ON; Milena Forte, MD, CCFP, Toronto, ON</i>
	ROOM / SALLE : 304A – QCCC / CCQ
<i>Learning objectives:</i>	
	1. outline the benefits of team-based teaching for both learners and educators 2. describe learner-centred (educational) strategies to promote interprofessional teachable moments 3. anticipate and address challenges that may arise from interprofessional collaboration, including potential "de-skilling" of medical trainees
S57311	New Priorities and Advances in Well-Baby/Well-Child Care: Launching the 2014 Rourke Baby Record
13:45-14:45	<i>Leslie Rourke, MD, CCFP, MClSc, FCFP, St. John's, NL; Denis Leduc, MD, CCFP, FAAP, FRCPC, Montréal, QC</i>
	ROOM / SALLE : 2000B – QCCC / CCQ
<i>Learning objectives:</i>	
	1. describe new preventive care information for infants and young children, including growth monitoring, timely introduction of solid foods, healthy sleep habits, etc. 2. demonstrate the most efficient use of the new 2014 Rourke Baby Record and its related resources 3. gain knowledge of related initiatives in early childhood

- S57312** "Procedures" iPad App as a Teaching Tool for Family Medicine Residents
13:45-14:45 Jeremy Rezmovitz, MD, CCFP, Toronto, ON; Ian MacPhee, MD, MSc, PhD, CCFP, Guelph, ON
ROOM / SALLE : 303A – QCCC / CCQ

Learning objectives:

1. differentiate between a stand-alone application and an Internet-based application
2. integrate technological advances (eg, iPad) into daily learning and teaching
3. improve confidence in performing common office procedures in family medicine, eg, biopsies, joint injections, van den Bos, etc.

- S57455** Implementing the Starfield Model for High-Quality Primary Care: Using data to systematically improve patient outcomes
13:45-14:45 Noah Ivers, MD, CCFP, PhD, Toronto, ON; George Southey, MD, CCFP, Oakville, ON;
 Rick Glazier, MD, MPH, CCFP, FCFP, Toronto, ON
ROOM / SALLE : 301A – QCCC / CCQ

Learning objectives:

1. understand how improving quality in primary care is a cornerstone for high-functioning health systems
2. review how measuring and reporting quality metrics can result in better patient care
3. develop a plan to assess quality in a comprehensive yet feasible way in practice

- S57665** Are You Running on Empty? Keeping compassion in your family practice
13:45-14:45 Rupa Patel, MD, CCFP, FCFP, Kingston, ON; Françoise Mathieu, MEd, CCC, Kingston, ON
ROOM / SALLE : 202 – QCCC / CCQ

Learning objectives:

1. be able to clearly establish the difference between burnout, compassion fatigue, indirect trauma and moral distress
2. become familiar with the most recent findings on effective management of burnout and compassion fatigue for physicians
3. acquire a compassion fatigue management toolkit with 5 essential skills for best practice

- S57815** Diagnostic et prise en charge de l'endométriose : mise en application des directives cliniques courantes dans la pratique clinique / Endometriosis Diagnosis and Management: Applying Current Clinical Guidelines
13:45-14:45 Diane Francoeur, MD, FRCSC, Montréal, QC
ROOM / SALLE : 2000A – QCCC / CCQ

Objectifs d'apprentissage :

1. évaluer et diagnostiquer avec précision l'endométriose
2. sélectionner les patientes de façon appropriée aux fins de diagnostic, de laparoscopie et de traitement
3. utiliser un algorithme décisionnel pour le traitement de l'endométriose au moyen d'approches médicales et/ou chirurgicales

Learning objectives:

1. evaluate and diagnose endometriosis accurately
2. properly select patients for diagnostic testing, laparoscopy, and treatment
3. use a decision-making algorithm to determine the appropriate treatment of endometriosis through medical and/or surgical means

- S57852** Learning to Lead: Developing leadership skills for new physicians
13:45-14:45 Scott MacLean, MD, CCFP, Edmonton, AB; Victor Ng, MD, CCFP(EM), Toronto, ON
ROOM / SALLE : 306B – QCCC / CCQ

Learning objectives:

1. learn and apply a systematic approach to problem solving within a practice management and clinic leadership setting
2. describe ways in which leadership skills can be developed and fostered in the primary care setting
3. discuss leadership development and the role of a physician-leader in a small group setting

- S57901** More Than Screening: Giving voice to the family physician's experience of physical exam
13:45-14:45 Martina Kelly, MBChB, MA, CCFP, Calgary, AB; Lara Nixon, MD, BEd, CCFP, FCFP, Calgary, AB;
 Wendy Tink, MD, CCFP, FCFP, Calgary, AB
ROOM / SALLE : 309A – QCCC / CCQ

Learning objectives:

1. identify competing demands of patient-centredness and population-based practice guidelines in relation to physical examination
2. describe family physicians' beliefs and practices regarding physical examination
3. develop key messages for learners about physical exam in the care of the individual

LEGEND / LÉGENDE

Pre-Registration Required / Préinscription obligatoire

QCCC / CCQ Québec City Convention Centre / Centre des congrès de Québec

SCIENTIFIC PROGRAM — SATURDAY 15 SAMEDI — PROGRAMME SCIENTIFIQUE

S57668 13:45-14:45	Teaching Family Medicine Residents Motivational Interviewing Skills Using an 8-Hour Innovative Curriculum Design <i>Kim Lazare, MD, CCFP, Toronto, ON</i> ROOM / SALLE : 302B – QCCC / CCQ
-------------------------------------	--

Learning objectives:

1. learn the basic principles of motivational interviewing and how they can be applied successfully to a variety of health concerns
2. learn about different motivational interviewing teaching methods and how they work best for different resident learners
3. learn how to create your own motivational interviewing curriculum for family medicine residents

S67461 13:45-14:45	La gestion des arrêts de travail à caractère psychologique <i>Lyne Laurendeau, MD, CCMF, FCMF, Boucherville, QC</i> ROOM / SALLE : 309B – QCCC / CCQ
-------------------------------------	--

Objectifs d'apprentissage :

1. utiliser de bonnes stratégies pour gérer de façon optimale les arrêts de travail à caractère psychologique
2. compléter les formulaires d'assurance de façon optimale
3. identifier les facteurs de moins bon pronostic de retour au travail

S57787 13:45-15:30	Discutons santé : un site Web pour améliorer l'efficacité des rencontres entre patients et médecins <i>Marie-Thérèse Lussier, MD, BSc, MSc, CCMF, FCMF, Montréal, QC; Claude Richard, PhD, MA, Laval, QC</i> ROOM / SALLE : 301B – QCCC / CCQ
-------------------------------------	---

Objectifs d'apprentissage :

1. présenter les principes éducatifs et les données probantes qui ont guidé le développement du site Web Discutons santé
2. décrire les principales fonctionnalités incluses dans le site Web Discutons santé
3. discuter des facilitateurs et des freins à l'adoption du site Web Discutons santé dans leur milieu clinique

S49371 15:00-16:00	Evaluation Tool for Eating Disorders in Primary Care / Outil d'évaluation des troubles alimentaires en soins primaires <i>Catherine Haskins, MD, CCFP, Pointe-Claire, QC</i> ROOM / SALLE : 2000A – QCCC / CCQ
-------------------------------------	--

Learning objectives:

1. use an evaluation tool to conduct a comprehensive assessment of patients with eating disorders
2. list "red flag" signs and symptoms of serious complications of eating disorders
3. describe indications for referral to the emergency department for patients with eating disorders

Objectifs d'apprentissage :

1. utiliser une grille d'évaluation pour effectuer une évaluation complète de patients avec des troubles alimentaires
2. énumérer les signaux d'alerte et les symptômes de complications graves des troubles alimentaires
3. décrire les indications de l'orientation au service d'urgence pour les patients avec des troubles alimentaires

S55230 15:00-16:00	Right Care at the Right Time in Long-Term Care <i>Barry Clarke, MD, CCFP, COE, Halifax, NS; Vonda Hayes, MD, CCFP, FCFP, Halifax, NS</i> ROOM / SALLE : 309B – QCCC / CCQ
-------------------------------------	---

Learning objectives:

1. describe an alternative long-term care delivery model with evidence of improved care
2. identify the facilitators and barriers that influence effective, coordinated, and collaborative long-term care
3. develop a plan incorporating features that result in an improved long-term care medical care delivery model in their community

S56157 15:00-16:00	Top 10 Apps for Your Smartphone or Tablet: Teaching and learning in the office <i>Andrew Sparrow, MD, CCFP, Toronto, ON; David Esho, MD, CCFP, Toronto, ON; Azadeh Moaveni, MD, CCFP, Toronto, ON</i> ROOM / SALLE : 306A – QCCC / CCQ
-------------------------------------	--

Learning objectives:

1. identify smartphone/tablet applications that will help primary health care providers with both clinical practice and teaching
2. use applications to make clinical practice more efficient and fun in a working and teaching environment
3. use tools to identify new apps that may be of use to physicians on an everyday basis

S56844 **Improving Outcomes in Patients With Atrial Fibrillation: Treatment strategies for family physicians**
15:00-16:00 *Noah Ivers, MD, CCFP, PhD, Toronto, ON; Mario Talajic, MD, FRCPC, Montréal, QC*
ROOM / SALLE : 309A – QCCC / CCQ

Learning objectives:

1. employ optimal stroke prevention in patients with atrial fibrillation
2. apply evidence-based medicine for symptomatic atrial fibrillation management
3. support clinical practice with the Canadian evidence-based atrial fibrillation guidelines 2014 update, using practical tips for the busy family physician

S57718 **It's Overgrown Toeskin, Not Ingrown Toenail!**
15:00-16:00 *Henry Chapeskie, BScMD, CCFP, FCFP, CAME, Thorndale, ON*
ROOM / SALLE : 2000B – QCCC / CCQ

Learning objectives:

1. understand that the problem lies not with the “ingrowing” nail but with the overlapping skin
2. learn from evidence-based literature data and references, photographic documentation, and a short video of the surgical procedure
3. learn to stop removing toenails; patients with “ingrown toenails” can expect to have an excellent cosmetic result with the problem never recurring

S57851 **Tongue-ties Demystified**
15:00-16:00 *Anjana Srinivasan, MD CM, CCFP, IBCLC, Mont-Royal, QC; Howard Mitnick, MD CM, CCFP, Montréal, QC*
ROOM / SALLE : 202 – QCCC / CCQ

Learning objectives:

1. diagnose the various types of clinically relevant tongue-ties in breastfeeding infants
2. recognize how tongue-ties can affect breastfeeding
3. identify when intervention is warranted and learn about the frenotomy procedure

S57860 **The Emergence of Lyme Disease in Canada: Epidemiology, prevention, diagnosis, and treatment**
15:00-16:00 *Michel Deilgat, CD, MD, MPA(c), CCPE, Ottawa, ON; Kathleen Kerr, MD, Toronto, ON*
ROOM / SALLE : 206B – QCCC / CCQ

Learning objectives:

1. describe the clinical manifestations (three stages) of Lyme disease
2. prescribe appropriate therapy for Lyme disease in the office
3. provide preventive measures to avoid Lyme disease to patients

S57906 **Optimizing Community Care and Integration for Patients With the Highest Needs**
15:00-16:00 *Amanda Condon, MD, CCFP, Winnipeg, MB; Jan Williams, RN, Winnipeg, MB; Arle Jones, BSW, RSW, Winnipeg, MB; Paul Sawchuk, MD, CCFP, FCFP, MBA, Winnipeg, MB*
ROOM / SALLE : 306B – QCCC / CCQ

Learning objectives:

1. identify and critique existing tools for optimization of care delivery, continuity, and collaborative practice
2. list various measures and tools that exist to identify the highest-risk patients in family medicine practice, hospital, or community
3. analyze and incorporate successful interventions from other programs and discuss how to incorporate these interventions into clinical practice

DAILY BADGE SCAN REQUIRED – PROOF OF PARTICIPATION: Remember to have your name badge scanned EACH DAY by a CFPC staff member throughout the conference. Self-scanning stations are also available throughout the conference venues. All scanned registrants will receive a letter confirming attendance at Family Medicine Forum 2014 by January 1, 2015. **Please note that these letters are not available for pick-up on-site.**

SCANNAGE QUOTIDIEN DE L'INSIGNE OBLIGATOIRE – PREUVE DE PARTICIPATION : N'oubliez pas de faire scanner votre insigne d'identité CHAQUE JOUR par un membre du personnel du CMFC durant toute la conférence. Des postes de lecteur code-barre se trouveront aussi un peu partout sur les lieux de la conférence. Tous les participants inscrits dont l'insigne aura été scanné recevront une lettre confirmant leur participation au Forum en médecine familiale 2014 avant le 1^{er} janvier 2015. **Veuillez noter que ces lettres ne seront pas disponibles sur place.**

Session cancellation: The College reserves the right to cancel session(s) due to unforeseen circumstances and cannot accept responsibility for out-of-pocket expenses incurred due to the cancellation of any session.

Annulation de séance : Le Collège se réserve le droit d'annuler une ou plusieurs séances s'il survient des événements imprévus et ne sera pas responsable de toute menue dépense encourue en raison de l'annulation d'une séance.

Abaxis
www.piccoloxpress.com

#904

The Piccolo Xpress is a small, portable clinical chemistry system providing lab-accurate, on-site patient testing in a matter of minutes. With recent Class 3 approval from Health Canada, the Piccolo Xpress can now offer healthcare providers true point-of-care patient testing in any clinical setting.

Le Piccolo Xpress est un petit système de chimie clinique portatif fournissant, en quelques minutes, des résultats aussi précis qu'en laboratoire pour les tests de patients. Le Piccolo Xpress, qui a récemment reçu l'homologation de classe III de Santé Canada, peut maintenant offrir aux fournisseurs de soins de santé de véritables tests là où les soins sont dispensés, dans n'importe quel contexte clinique.

Abbott
www.abbott.ca

#900

Visit Abbott at booth #900 to learn more about Androgel, a 1% testosterone gel, applied topically and used to treat men with low testosterone; Biaxin XL, a once-daily antibiotic that treats RTIs; MAVIK, a long-acting ACE inhibitor indicated for treatment of hypertension; Synthroid, 50+ years of clinical success in Canada.

Veuillez visiter Abbott au kiosque 900 afin d'en apprendre plus sur Androgel, un gel de testostérone à 1 %, s'appliquant sur la peau et utilisé pour traiter les hommes ayant un déficit en testostérone; Biaxin XL, un traitement antibiotique à prise unique quotidienne pour les patients souffrant d'une infection des voies respiratoires; MAVIK, un IECA à action prolongée, indiqué dans le traitement de l'hypertension; Synthroid, plus de 50 ans de succès clinique au Canada.

ABCann Medicinals
www.abcann.ca

#827

ABCann Medicinals is Health Canada licensed and a medical cannabis producer of high-quality, organically grown plant based medicine. Through leading edge technology and strictly controlled growing environments, ABCann is capable of achieving a consistent, standardized product for patients; thus enabling physicians to effectively treat their patients.

ABCann Medicinals est un producteur de cannabis médical autorisé par Santé Canada. Elle produit du cannabis médical de haute qualité provenant de plantes biologiques. Au moyen d'une technologie de pointe et d'un milieu de production strictement contrôlé, Abcann peut assurer un produit normalisé et à teneur constante pour les patients, ce qui permet aux médecins de traiter leurs patients de façon efficace.

Amgen Canada – Bone Health
www.prolia.ca

#316

AMGEN® A biotechnology pioneer since 1980, Amgen therapeutics have helped millions of people in the fight against cancer, kidney disease, inflammation, and bone disease.

Amgen is committed to advancing science to dramatically improve people's lives.

Les traitements mis au point par Amgen, pionnière dans le domaine de la biotechnologie depuis 1980, ont aidé des millions de personnes à lutter contre le cancer, les maladies rénales, l'inflammation et les maladies osseuses. Amgen est résolue à faire progresser la science afin d'améliorer notablement la vie des gens.

Appletree Medical Group
www.appletreemedicalgroup.com

#809

Appletree Medical Group is one of the largest and most progressive medical groups in Canada. With 34 clinics across Ottawa and the GTA, our multidisciplinary teams of family doctors and specialists enjoy practicing in our modern offices, well equipped with diagnostic tools, a highly trained professional staff, and a top EMR.

Appletree Medical Group est un des groupes médicaux les plus importants et les plus novateurs au Canada. Avec 34 cliniques à Ottawa et dans la région du Grand Toronto, nos équipes multidisciplinaires de médecins de famille et de spécialistes travaillent dans nos bureaux modernes, bien équipées d'outils diagnostiques, d'un personnel hautement qualifié et professionnel, ainsi que d'un DMÉ des plus performants.

Hydralyte Canada
www.hydralyte.com
Contest Contribution: Cash

#807

Hydralyte is an oral rehydration solution scientifically formulated to replace water and electrolytes lost due to vomiting, diarrhea and heavy sweating. Dehydration is often caused by heat, fever, gastro and illness, travel, and vigorous exercise. A family first aid essential, Hydralyte is available in orange and apple blackcurrant flavours in: freezie pops, powder sachets, ready-made liquid solutions, and new effervescent tablets.

Hydralyte est une solution orale hydratante scientifiquement élaborée pour contrer la perte d'eau et d'électrolytes attribuable aux vomissements, à la diarrhée et à la sudation excessive. La déshydratation est souvent causée par la chaleur, la fièvre, la gastroentérite, les maladies, les voyages et l'exercice vigoureux. Un élément essentiel de premiers soins pour la famille, Hydralyte est offert en deux saveurs (orange et pomme-cassis) dans les formats suivants : sucettes glacées, sachets de poudre et solutions liquides prêtes à boire, et nouveaux comprimés effervescents.

Immunize Canada / Immunisation Canada #315
www.immunize.ca

Immunize Canada is a not-for-profit with the aim of raising awareness about the benefits of immunization and uses of vaccines as recommended by the National Advisory Committee on Immunization (NACI). It does this through ongoing public and professional education and promotion.

Immunisation Canada, une coalition à but non lucratif, dont le but est de sensibiliser les personnes aux avantages de l'immunisation et de l'utilisation des vaccins recommandés par le Comité consultatif national de l'immunisation. Elle y parvient au moyen de campagnes de promotion et d'éducation continue des professionnels et de la population.

innoviCares #816
www.innovicares.ca

InnoviCares is Canada's largest free supplementary benefit plan, providing over half a million Canadians with coverage on brand name medications and savings on medical products. By bridging the cost difference between brand name medications and their generic alternatives, innoviCares supports greater access and choice, and improves patient adherence to medications.

InnoviCares est le plus important régime d'avantages complémentaires gratuits. Il offre une couverture des médicaments de marque et des économies sur des produits médicaux à un demi-million de Canadiens et de Canadiennes. En comblant la différence de coûts entre les médicaments de marque et leur choix de rechange générique, innoviCares favorise un meilleur accès et plus de choix, ce qui améliore l'observance du traitement.

Lundbeck Canada

www.lundbeck.ca

Contest Contribution: Books

At Lundbeck, our approach to innovation is shaped by our Danish origins, a tradition of respecting every individual and taking care of one another in times of need. This focus on the individual has helped us become specialists in CNS disorders. We're now applying that same passion and drive to oncology. Creating partnerships, working with healthcare professionals and putting patients first will always be an important part of everything we do.

Chez Lundbeck, notre approche de l'innovation a été façonnée par nos origines danoises, une tradition qui respecte l'individu et qui invite à prendre soin de ceux dans le besoin. C'est en nous concentrant sur l'individu que nous avons réussi à devenir des spécialistes des troubles du SNC. Nous appliquons maintenant la même détermination et énergie à l'oncologie. Nous avons toujours cru à l'importance de créer des partenariats, de collaborer avec les professionnels de la santé et de faire passer l'intérêt des patients avant tout.

M and M Sales – “Human Touch Dealer”

University of Albertawww.familymed.med.ualberta.ca

#229

The Department of Family Medicine at the University of Alberta offers a Residency Program and Additional Skills Programs. Our mandate is to graduate well-rounded, skillful physicians with a comprehensive knowledge base and interest in continuing medical education. The program has at its disposal a vast resource base in hospitals, clinics and community service centres. Residents choose from a variety of programming choices and learning sites.

Le Département de médecine familiale de l'Université de l'Alberta offre un programme de résidence et des programmes de compétences avancées. Notre mandat est de former des médecins possédant une base complète de connaissances et un intérêt pour la formation médicale continue. Le programme dispose d'une vaste base de ressources dans les hôpitaux, les cliniques et les centres de services communautaires. Les résidents ont un choix varié de programmes et de sites d'apprentissage.

Join us to learn about the University of Calgary Family Medicine Programs. We are an energetic, expanding, and innovative department. Our goal is to train

outstanding family physicians. We offer excellent learning opportunities in a province that offers amazing lifestyle opportunities.

Venez nous visiter afin d'en apprendre davantage sur les programmes de médecine familiale de l'Université de Calgary. Nous sommes un département dynamique, novateur et en pleine expansion. Notre objectif est de former des médecins de famille exceptionnels. Nous offrons d'excellentes possibilités d'apprentissage dans une province qui offre un mode de vie exceptionnel.

University of Manitobawww.umanitoba.ca/faculties/medicine/family-medicine/

#127

The University of Manitoba Family Medicine Residency Program offers many opportunities for residency training in urban and rural settings as well as experiences in bilingual and northern/remote surroundings. Various Enhanced Skills Programs are also available in areas such as Anesthesia, Emergency Medicine, Sports and Exercise Medicine, and Palliative Medicine.

Le Programme de résidence en médecine familiale de l'Université du Manitoba offre plusieurs possibilités de formation en résidence dans des milieux ruraux et urbains, ainsi que des expériences dans les régions bilingues et nordiques ou éloignées. Des programmes de compétences avancées sont aussi offerts dans des domaines tels que l'anesthésie, la médecine d'urgence, la médecine du sport et de l'exercice et la médecine palliative.

University of Ottawawww.familymedicine.uottawa.ca

#124

The Department of Family Medicine at the University of Ottawa has five teaching sites in the Ottawa region and two rural teaching sites in Pembroke and Winchester. A francophone Ottawa community hospital site gives postgraduates and undergraduates an opportunity to learn in a French environment. Third-year opportunities in a wide range of disciplines of interest to family medicine are also available.

Le Département de médecine familiale de l'Université d'Ottawa compte cinq sites d'enseignement dans la région de la capitale nationale et deux dans les régions rurales de Pembroke et de Winchester. Un milieu de formation dans un hôpital communautaire francophone d'Ottawa donne la chance aux étudiants des niveaux postdoctoral et prédoctoral d'apprendre dans un environnement francophone. Des possibilités pour les étudiants de troisième année dans une grande variété de disciplines et d'intérêts en médecine familiale sont aussi offertes.

University of Saskatchewanwww.medicine.usask.ca/Family

#228

The University of Saskatchewan's Department of Family Medicine provides collaborative primary care sites for training family practice residents and other health professionals. It offers an academic and community based program allowing residents to become family physicians with the skills to practice in rural, remote and urban communities.

Le Département de médecine familiale de l'Université de la Saskatchewan compte des sites de soins primaires en collaboration pour la formation des résidents en médecine familiale et des autres professionnels de la santé. C'est un programme universitaire et basé dans la communauté qui permet aux résidents de devenir des médecins de famille compétents pour la pratique rurale, en région éloignée et dans les communautés urbaines.

University of Torontowww.dfcm.utoronto.ca

#233

The Department of Family and Community Medicine at the University of Toronto offers diversity and opportunities in all aspects of medical education. Educational resources and professional development activities are highly developed at our 14 teaching divisions and within a network of more than 40 community practices.

Le Département de médecine familiale et communautaire de l'Université de Toronto vous offre la diversité et les occasions dans tous les aspects de l'éducation médicale. Des ressources pédagogiques et des activités de développement professionnel sont offertes à nos 14 divisions d'enseignement au sein d'un réseau de plus de 40 pratiques communautaires.

Weeneebayko Area Health Authoritywww.weeneebaykohealth.ca

#1016

WAHA is responsible for providing comprehensive health services in the beautiful Weeneebayko region along the James Bay and Hudson Bay coastal regions in northern Ontario servicing six communities: Moose Factory, Fort Albany, Attawapiskat, Moosonee, Kashechewan and Peawanuck. This very scenic and diverse area is rich in Aboriginal culture and history.

WAHA fournit des services de santé complets et globaux dans la magnifique région de Weeneebayko, située sur les rives des baies James et d'Hudson dans le nord de l'Ontario. Elle dessert six communautés : Moose Factory, Fort Albany, Attawapiskat, Moosonee, Kashechewan et Peawanuck. Découvrez la richesse et la diversité des cultures autochtones dans cette région pittoresque.

Welch Allynwww.welchallyn.ca
